LET'S START WITH FOREVER (SEHGAL FAMILY AND FRIENDS SAGA) Sapna Bhog ABOUT THE BOOK

Enter a world of glamour, wealth and beautiful people. Enter the world of the Sehgal family and friends. A brand new series of books!

A perfect one-night stand is never supposed to mean more...But it did, for her!

RAASHI DEEWAN runs a successful chain of restaurants. Her recipe for life is simple – dream big and work hard. Growing her business is her sole focus until Sameer Sehgal walks back into her life. He had pursued her relentlessly, once. She had fallen for him, once, and then he had walked away. Now, she wants nothing to do with him.

Hotel magnate, SAMEER SEHGAL always gets what he wants. He has a dream and Raashi Deewan holds the key to its success. Unfortunately for him, Raashi has no interest in helping him. Convincing her to work with him is a challenge, one he is more than happy to take on. But Raashi is difficult to impress and hard to persuade. The more their paths cross, the more he realizes that maybe letting her go was the biggest mistake of his life.

Will Raashi forgive Sameer? Will Sameer fulfill his dream? Find out more in this book of love and second chances.

Let's Start with Forever is the second book in the Sehgal family and friends saga. It can be read as a stand-alone. If you like reading strong characters in stories centered on family and friends then you will love this series of books.

ABOUT THE AUTHOR

Sapna Bhog grew up in Dubai at a time when there were hardly any channels to watch on TV but definitely a lot of books to read.

A Computer Engineer, she gave up her successful IT profession to look after her children and decided to give her creative side a chance and wrote her first romance novel, and never looked back.

Sapna loves to read, write, paint, shop and travel but not necessarily in that order. She lives in Pune, with her husband and 2 kids.

The style of writing is nice. Very urban which I personally like to read. Though for me the plot and characters of Sameer and Raashi didn't immerse and engage me as her first book. Some parts are great, but overall ok-ish.

Loved the book. This one is as good as the debut novel of Sapna Bhog, if not better. Eagerly awaiting the next in the series. I strongly recommend this romance for all romance lovers out there.

2.5

Mills & Boons brought to india. was very amusing for me. For what the book is about (not serious literary stuff by any standard) it was quite alright , just lost steam in the end. Abrupt and well just silly.

I liked that she was the strong/ the prize... usually its the male protagonist in such books. So the extra 1/2 is for that.

I was anxiously awaiting the release for Sameer & Rashi story after reading and falling in love with the first book in the series and I was literally harassing Sapna on when the next book would be released by PM on Goodreads, Instagram everywhere I could get hold of her . I was curious to see if she would be able to keep the same high standards that she had set for herself with her first book and Kudos to this brilliant & talented author she has not maintained her high standards consistently but has been surpassing it with every new release. This book was so so worth the wait . Sapna know how to write beautiful romantic stories weaved with family bonds & friendship. It's not just about the two protagonists but her story gives enough importance to all other characters as well. Sameer and Rashi definitely were my favorite characters after Kabier & Kiara From Take a Chance on me and I was really looking forward to reading their story this story was absolutely brilliant and a beautiful gem like the first story. Sameer & Rashi were just fabulous and their chemistry was just perfectly hot. This story had it all beautiful romance, emotions and perfectly apt relationships. The story also does shed light on negativity of social media. Overall a brilliant , Fast paced story, couldn't put it down until I was done reading the book. Looking forward to reading the next book in the series which would be Ritwik's story .. hope Sapna doesn't make us wait so long before releasing the story. A must recommend for all . Hats off to Sapna for a fabulous job!

After reading the first book, I knew it very well that Janak always protect his angels but it's only after reading this second book, I realized that Janak would do anything to make his angels happy. Well I won't spill the beans and you would have to read the book to find out what I actually meant.

I just have a request, please do read the first book before reading this book. Trust me, you would enjoy this book even more if you would have read "Take a chance on me", the first book in Sehgal Family and Friends Saga.

I need not say that author's style of writing and bringing characters to the life is definitely excellent but what I liked most in both the books is a bit of suspense and the way you keep waiting for the next suspense to unfolds. The way author builds up your interest in the story and make you hold on to the book until its over if commendable.

The author knows how to write beautiful romantic stories weaved with family bonds and friendship. It's not just about the two protagonists but her story gives enough importance to all other characters as well. Rishi, Twins, Jiya all get special attention in the story. The story won't be complete without these guys. I wish author writes about Rishi too. He seems too carefree and flamboyant and I would love to see him falling head over heels for a girl.

After reading the debut book of the author, I was wondering how the next one in series would be. But author has done justice to the characters and the story. Though for me the earlier one was better. The suspense was unexpected and the story flows effortlessly. Definately waiting for the next one in series.

Let's start with FOREVER by Sapna bhog is the 2nd book in the Sehgal family and friends saga but it can be read as a stand-alone. 1st book was Take a chance on me and I absolutely loved it. This is the 2nd book which i loved as well...A perfect one-night stand is never supposed to mean more...But it did, for her!

Raashi Deewan and Sameer Sehgal are the main characters of Let's start with forever. Raashi Dean runs a successful chain of restaurants and is beautiful young lady. Sameer Sehgal is handsome and always get what he wants. Raashi had fallen for Sameer who had once pursued her relentlessly and than he had walked away. But than after few months he walks into her in the restaurant which is owned by her but he has no knowledge about it because he never did any effort to know about her life.

Sameer dreams of owing a world class spa next to his Hotel Marquis but when he expresses his wish to his grandfather Janak Sehgal he comes to know that he has gifted it to Raashi. Than starts the story about how he tries and convince Raashi to agree and help him fulfill his dream. He leaves no chance to pursue and impress Raashi but due to his 1st mistake of running away she has turned more strong and is not impressed easily now. But as the story continues Sameer starts understanding his feeling for her and realises that he had made a mistake of running away from her. There is a twist in the end which you get to know when you read the book. Will they end up together? Will Raashi forgive him for his biggest mistake of running away?

Go and grab yourself a copy. Its a 4 star read for me. Thanks to the author for the review copy. Can't wait for the 3rd book.

Good one

Indian author at international standard. I loved the narration n the language. Would definitely recommend for those people who have been stuck with M&B

Vidhya Thakkar says

After reading her first Novel which I loved it, I had very high expectations from this novel and the author succeeded in fulfilling my expectations. Just like Take a Chance on me this novel too is a Gem. I finished this novel in just one Go. The plot and characters are so strong that we cannot just stop reading. The way author added each and every element of suspense, romance and love always added curiosity to know what will happen next. Like Kabier and Keya I liked the chemistry of two strong characters Raashi and Sameer. The way the author plotted the story is just outstanding. One cannot leave the book without completing it. It's full of suspense, love, romance, mystery, brotherhood, friendship and a lot more. The characters plotted are very strong and each one's personality has a unique charm. The author didn't leave any stone unturned to make this story interesting. She used very simple language which made it easy for readers to connect easily with the story. The pace of the story is also good, it's smooth and connecting. The tempo is once again Amazing. The story is second part of Take a chance on me but can be read individually too. But I would suggest reading another gem of this author too.

Waiting for your next book with lots of excitement. This story had everything in it and is full of curiosity. Strong characters, amazing plot, simple language, a beautiful story.

If you love romance, Do not forget to read this book.

It's the second book in Seghal Family and Friends saga series. And it exactly starts from where it had been

left in "Take a chance on me" and I liked the continuity.

Let's Start With Forever is the story of Raashi Deewan and Sameer Sehgal. Story starts from Kabier and Kiya's wedding reception. Sameer is attracted to Raashi, he's kind of person who doesn't get into serious relationships and do one night stands & Raashi is just opposite of him. She believes in forever. Her recipe for life is 'dream big and work hard.' Raashi is a challenge for Sameer and he relentlessly pursues her when she falls for him, he had walked away. Now she has nothing to do with him and get over him.

Three months later when their path crosses again and Raashi is holding the key to Sameer's Success. Sameer always gets what he wants. And now it's the matter of his dreams so he's ready to go to any level. But unfortunately Raashi is not ready to help him. Sameer in trying to convince Raashi & starts knowing her which he hadn't done before. As their paths cross every time and he learns more about her he starts to feel maybe letting her go was the biggest mistake of his life.

Will Raashi ever forgive Sameer? Will Sameer fulfil his dream?

I liked the little mystery build eventually till end. There's a twist and I loved it. The friendship, cousin's love, bond, family values, romance everything is perfect proportion.

To top it all the message regarding social media usage in daily life has been put across v well.

What I loved in this book?

Theme: Romance and Mystery, with great bonding between the characters

Quotes:-

"There is a lot I don't know about you. But then again there is lot that only I will ever know of."

"Didn't you ever learn that you have to respect people, no matter what they do for a living?"

"I am willing to give a try, but trust? That you will have to earn"

"You were always different whenever she was around. As if all your focus was pinned on her. You looked smitten."

"It's always been her. It will always be only her. I let her go once, but never again."

Story: The plot is beautiful and the mystery is cherry on the cake.

Characters: Rishi, I like how he's so supportive to his bro and Janak is always a favourite (I love how he know it all). Raashi being so independent and not letting go the dream of her grandma.

What I did not like?

There is nothing that I did not like.

Verdict: I totally enjoyed reading it. I couldn't put it down. Strongly recommend to all those who love reading romance, mystery, and family oriented books. It can be read as standalone also but would recommend to read the first book "Take a Chance on me" to enjoy more.

My Rating:

Title: 5/5

Cover: 5/5

Blurb: 5/5

Characters: 5/5

Plot: 5/5

Presentation: 5/5

Overall Rating: 4.5/5
