**Power. Money. Submission.**

I'm the boss. People do what I say.  
Men take orders.  
Women drop to their knees.  
One glance from me is all it takes.  
Until she walked in.  
She's my best friend's daughter,  
And completely untouchable.  
He wants me to take her under my wing,  
But I'll take her over my knee.  
Her virgin body is begging for my touch.  
I crave her curves. She craves my command.  
Now she's pregnant, and I'm in trouble.  
She thinks I won't stay, but I don't take orders. From anyone.  
Let her dad do his worst.  
I'm the boss, and it's not quitting time yet.

Our love is strong... but is it strong enough to survive her father?

### Rosemary says

Mia grew up with a huge crush on Sawyer but believed that he would always see her as the little girl of his best friend. When the chance happens where she is given the opportunity to be his Intern then she formulates a plan that will change his view of her forever. What Mia doesn't know is that Sawyer long ago realized that she had indeed grown up but how could he follow his desires if it might devastate his best friend? This was a relatively quick and easy story to read and a much better older man/younger woman storyline than many of the books out there to read.

I was given an ARC in exchange for an honest and totally voluntary review of the story.

What happens when the young, inexperienced Mia Corman gets an internship position with her fathers best friend the powerful man she desires Sawyer Mills?

A heart squeeze, fast mover of a storyline with an oh so naughty sexy side!

I love Jess Bentley's naughty romances, first time read by Zoey Oliver; the two Authors combine came up with a fun, heartwarming, sassy, hot break from reality I thoroughly enjoyed!

#### The Boss's Secret Baby

Mia has always had a crush on her dad's best friend, Sawyer, but she has never acted upon it. When she is looking for work experience her dad asks his best friend if he will help out his daughter. Little did either of them realise what was going to happen! Sawyer just can't think of anything but Mia's curves, her smile, her cleavage, her EVERYTHING but he doesn't want to do anything that would harm his friendship with her dad. he knows that its totally taboo but he can't help lusting and fantasying about her. It's only when they go on a business trip together that emotions overtake them and what's been started can't be stopped. No spoilers from me - but be realistic this is a story by Jess Bentley [and Zoey Oliver who is a new author to me]. I have read every story that has been available to Amazon.co.uk so I really know her writing style very well. This storyline , whilst not unique, is certainly very entertaining, and I really enjoyed 'meeting' Sawyer and Mia who were so good for each other. her Dad's reaction towards their relationship at the end was just that of the perfect Dad. The passion and then love between Mia and Sawyer was lovely to 'see' emerge as their story unfolded. Will they get their HEA? Will her Dad give them his blessing? Or is this just an office fling? To find out you need to grab yourself a copy of this romance and read the scorching hot love story for yourselves - warning- have your fans set to MAX cool, switch off your phones, have a long cool drink handy and lock the doors so you have no interruptions. A great easy and quick read full of passion. I received a reader's copy of this book and am voluntarily leaving a review. However, I purchased my own copy as I enjoyed the book so much and to support the authors. The bonus book, 'Owned' is a great read too!! Get it whilst you can as it is limited and not published anywhere else.

Definitely Recommended

It feels like there's a lot going on in this book, and that may be the reason why it also felt like it went by so fast. It takes several popular themes, including: older man/younger woman, father's best friend and virgin and spins them into a flirty hot inter-office romance. I won't give any of the details, otherwise I'd be getting all spoiler-y, but it's safe to say that Sawyer and Mia have chemistry for days and I might have singed my eyeballs while reading.

I received a complimentary advanced copy of this book.

Mia had had a crush on her Dad's best friend for years and now she hoped she could find that as her Dad had asked him if he had any jobs at his firm. Happy but worried she starts her job for Sawyer. Sawyer had fantasies about his friend's daughter though he never intended to act them out. This is a story of two people that are attracted to each other even though things are not the norm, with hot parts to excite you and touching parts to grip you while reading. Great story that all will enjoy.

This is an office, daddy's best friend, virgin, pregnancy story. That's a lot to live up to, however much I enjoyed the read, there were time lapses between chapters that would have been better if they had been written instead. I found the story one dimensional which surprised me as was written by Jess Bentley. It was a nice easy read but not one that I will remember.

Boss Daddy is an older man/younger woman office romance story with drama, sizzling chemistry, explosive sex, a wonderful storyline, well-developed characters, and a HEA.

I voluntarily reviewed an advance reader copy of this book.

I read this book as part of an arc program. I really liked the romance between Mia and Sawyer. This was a very good older man/ younger woman romance. Sawyer was a successful businessman and he hired Mia as an intern as a favor to her father and his best friend, David. When Sawyer sees Mia, he is pleasantly surprised to see she is all grown up and he thinks she is beautiful. Sawyer has a hard time fighting his feelings for Mia and he tries to control himself. Mia has always wanted to be with Sawyer and working for him is only intensifying her feelings. When Sawyer takes Mia to Japan on a business trip, they can't fight it anymore. Only now things are complicated and Sawyer wants Mia, but doesn't want to upset her father or lose his friendship. I liked this steamy read, I loved how Sawyer was so caught up with Mia, he really became a caveman with her. Mia knew how she felt and was mature about it. Good one!

#### **THIS IS A MUST READ**

I absolutely loved everything about this book and I literally couldn't put it down and I didn't. This was the perfect love story about older man, younger woman. The storyline and characters were spot on. PERFECT!

Couldn't even finish. Too many discrepancies in the story. Example: "It's our last night in Tokyo" and then the next chapter is "We spent our last few days in Tokyo fucking like rabbits." Such simple things - how did nobody catch them before this was published??

Wow, these talented duos of authors' have really turned up the heat element with this amazing story. Sawyer and Mia have explosive chemistry between them, but their relationship is a taboo one. This story is well written and is an emotional rollercoaster journey, which is steamy and sexy. I was totally enthralled throughout, and I look forward to reading more from this duo.

This is a really sweet book. Sawyer and Mia are just really good for each other. Sawyer is really good and kind. Mia is sweet and loveable. I enjoy their journey together to be a couple. I am very pleased that there wasn't major drama. It just flowed great. I highly recommend this book.

### **Worth so much more than 5 Star Rating!**

There's nothing better than a story about an older man/virginal younger woman story, especially when it is written as well as this one about Mia and Sawyer. He's a mid-30's best friend of her dad who is doing her daddy a favor by hiring Mia, a young 20's college graduate to be an intern with his company. Mia has had a crush on Sawyer since she was a teen and he's finally realized what a beautiful woman she has become. When a business trip to Japan leads to full out sexual encounter, the two can't leave their hands off each other when they return to the states. Mia was supposed to be learning business expertise but as it turns out, she is the one that teaches Sawyer more life's lessons. I truly loved this book about lust, love and hot chemistry.

Loved loved loved this story !! It's my new fav from lady Jess and a new to me author that now has a new fan !! This is everything I want in a romance book but even more so because I like the older man/younger women vibe! Chemistry, forbidden /taboo love and a HEA ! Heck yes! A 1-click must read !! Highly recommended!!
