## **Terms of Attraction** Kylie Brant

*Mills & Boon Romantic Suspense collection brings you dangerous liasions...*

Alpha Squad sniper Ava Carter trusted no one. Especially not Cael McCabe, the security pro who'd hired her as an elite bodyguard and had somehow unearthed her hidden past. Cael, a commanding ex-SEAL, was no stranger to secrets himself. He was intent on concealing from Ava a lifelong obsession for revenge.

Now on assignment in a South American jungle, their professional relationship was steaming up. But both understood not to mix business with pleasure. They needed to deceive each other for the sake of the mission. And both knew their efforts to resist each other's brazen lust would never last.

## From Reader Review Terms of Attraction for online ebook

### **Mnms says**

Really good dialogue, appealing characters and an interesting story. The author has managed a rare feat; making the budding love seem plausible in spite of the initial mistrust between the main characters. Well done!

---

### **Dee says**

I'm perhaps half-way through with this book... it's obvious to me that Kylie Brant's writing style has gotten better with each book. I could barely stand the 1st book in this series... the second book was better... and now, the third book is much better.

Now I know I'll buy more of her books.

---

### **Paige says**

The pace moved really slow to me. I just couldn't get all the way interested in the plot. Cael McCabe hires sniper Ava Carter as a bodyguard to protect a South American President's life. He soon realizes though, that she has ulterior motives. Even though he knows he shouldn't trust her, Cael has never been attracted to a person like he is to Ava. Suddenly Ava finds herself in the middle of a war between Cael and Samuelson and getting super hot vibes whenever she and Cael are in a room together is not in her work schedule. The ending is different and I liked that.

---

### **Jo-Ann Fitzgerald says**

This is the 3rd book in the series.

If you want to know what the book is about please read the bit above this.

The heroine was great at her job and was cocky enough to know it and play on it. When she saves an important person, she's immediately wanted for another mission who had hired a private security firm which she runs. He doesn't like who she works with and has contact with and she doesn't like how he does things. Yep, another two main characters at loggerheads. Again with the attitudes of each, but then they decide to work with each other. My question is will they kill each other first.

I liked the strength of the heroine, but the fighting and going off against each other had me rolling my eyes. The plot was ok, but not really that interesting. While it was written well, I think the plot and the characters interactions were weak.

3.5

---

## **Cym Lowell says**

A commando engaged in the private business of protecting the President of a country from his political enemies, Cael, meets a sharpshooting local policewoman who saves the day with her meticulous shots, Ava. The President must return to his country. Cael needs more talent to provide the necessary protection.

Cael is consumed with hate for the Homeland Security official who convinces Ava to accept Cael's offer to join his team, hoping that she would provide information to bring the former commando down. There is a secret concealed within Cael's hatred.

Ava must leave her teen age son to perform the assignment. She has a secret in her past, which is discovered and is sought to be used against her.

There is duplicity in the President's palace. Cael is determined to rescue the kidnapped President from his imprisonment in the jungle. Ava will not be deterred from engagement in the action.

Greatly outnumbered in the jungle, Ava and Cael battle their own internal demons and the real ones trying to bring them down. Will they find strength in each other? Will they find more? Can they overcome their secrets?

Kylie Brant spins a wonderful story. I read until I found the answers to these questions, captivated by a clever story told with skill and charm. A mystery, thriller, and romance story all rolled into one. Terms of Attraction is well conceived, effectively presented, and compellingly completed. It is a truly excellent book. Its pace flows like the waters that consume the protagonists. A great read, for sure!
