## **Daddy's Girl** Darla Phelps

Meggy has found an ad on the Internet for a relationship that she never dreamed possible. The ad is from David, who wants to play being "Daddy" to an adult "little girl". And she knows she has to meet him. Daddy-David is everything Meggy could have hoped for. Loving, kind, gentle, yet super strict when his bad little girl needs it. And he knows everything bad girls need, super stingy hairbrush spankings when they swear or are sulky, old fashioned temperatures taken the botty way, and hurty enemas when they pretend to be sick. But the day comes when Meggy must leave and become Meg again while she decides if she wants to stay with Daddy-David forever. It's the hardest thing either of them has ever had to face.

This is a nice short novel on age-play. It isn't intense. The storyline is pretty accurate for those into age-play. This is a HEA story which I do enjoy in a modern tale. David comes across as a Daddy who would be delightful to have.

### Katy Beth Mckee says

This is an endearing story of a young woman who knows what she needs and is trying to find a way to find her place. The ending of the story was emotional. I really appreciated that "Daddy" felt as strongly as his "baby girl". Knowing that they had been corresponding for a while made the strong emotions seem believable. While age-play is certainly a part of the relationship I think that the story really focused on the relationship itself.

Maggie and David met on line in a Daddy/little forum, and started a long distance relationship. After 6 months they decide to meet and spend 8 days together, to see if they are comparable. The minute Maggie crosses the threshold to David's home, she is treated as beloved little girl. Lots of spanking because Maggie is stubborn and disobeys, diaper play, enemas and Maggie regresses to a younger self. All of this is a bit more then I'm comfortable with, the diaper play was off putting. Not only did she wear the diaper she actually used it.

The love between David and Maggie was evident. David wanted to care for Maggie. A glimpse into a day to day routine for a Daddy and his little. No emotional or relationship growth, or what the characters are feeling. Short and kinky.

2.5 stars. While this didn't really go into sex scenes it was nice to see something less erotic and more about the lifestyle as a whole. Sometimes the sex overshadows the lifestyles, and truthfully when I pick up a book with a fetish in it its less about the sex and more about seeing different lifestyles for me. A quick read that was neither awesome nor terrible.

Weird as well for me at least

I'm disappointed in this book. I really don't feel it's worth the £4 price tag.

The author doesn't go into any real or major detail about either of the characters background or their relationship. Although there's many spanking scenes, they're short, not overly descriptive and feel almost the same. Also though he does 'get her off' there are no sex scenes, only short morning after memories on occasion.

Honestly this is one of the first books I'm regretting paying for at all. I've read much better age-play books for half the price.

This book was good although age-play is still not my thing. Meggy has found an ad on the Internet for a relationship that she never dreamed possible. The ad is from David, who wants to play being "Daddy" to an adult "little girl". I kind of found it hard to believe that Meggy met someone online and drove hundreds of miles to meet him in the real world this would be dangerous, and then he chastises Meggy for giving out personal information on the web really that's how he found her. I liked the D/s relationship and the sex scenes were hot. This is my first time reading this author and this book was well written with no errors in spelling or grammar. We did get to read about Daddy David's feelings as well as Meg's I would have loved to have read more about David. He was clearly a Dom we saw that by his actions and you do get a clear picture of what kind of man he is. Overall this was a pretty good story it had more content then the last age play story that I read

I thought I was past the Daddy block. Heck, I started seeking them out. But I guess there is a big difference between Daddy kink, and age play. Daddy kink....Hell Yes, Hot! Age play....uhhh, in small doses can be hot. Using a diaper, not just wearing it, but going to the bathroom in it...NO, not so hot. I know there are some who would love it, but it is not for me.

I was uncomfortable with the diaper usage. I was okay with the rest, even if I didn't find it to my taste. I'm not going to mark off stars, just because it's not my cup of tea. I did think there was something missing to the story, all kink aside. I just didn't see the emotional connection.

So, it wasn't my cuppa' but it might be yours. If so, I hope you enjoy it. I'll stay away from future diaper age plays.

This follows on from the spankfest style of Darla Phelps aka Maren Smith (spanking romances), Penny Alley (paranormal/mainstream romances), Denise Hall (bdsm) and Darla Phelps (adult age play/pet play, a sub-genre of bdsm)

After meeting online in an Age Play chat forum eight months ago, we join Meg at the start of her eight-day encounter of Age play with Daddy David at his remote cabin where she learns to let everything go, 'cos Daddy knows what's best.

The writing is a bit documentary-style and is more set on highlighting the spanking - which is not my preferred genre. At all. But having read the intriguing interwoven Pets series of Bach's Story Pani's Story and the extremely acid-trippy Deakeny's Bride I thought I'd give this one a go.

Was OK. Not too smexy. Meg feels a bit clingy and Brattish but then, maybe that is what Age play littles are about.

This is a nice (but intense) story about consenting adults, who have done their research and know themselves, as they meet and connect face to face. It does have adult themes and would not be considered 'vanilla', but the caring they have for each other shines through.

## SassySami says

I'm new to age-play, but found this a very enjoyable story. I loved how sweetly Daddy David treated Meggy, even when he was delivering punishment. I liked that the story wasn't entirely about spanking, which I found with my first age-play book. I wish that playtime wasn't treated in such a fade-to-black manner, but other than that I thought the story was well written and the details believable.

## Aya says

Short and sweet, making you feel all warm and fuzzy inside. Recommended for those looking for a light age-play story with an HEA.

## Alicia says

Meggy has always wanted a Daddy and she found the perfect one in David who she had found on-line. She plans and then goes to spend a week with her new Daddy who is yes very strict but also very loving. They must decide whether or not the relationship will work before the week is up or Meggy will be going home and possibly never see her Daddy again.

I really liked this age play story - kept turning pages and read it in one go. I would have loved a little more detail and a little more dialogue but overall, very recommendable! I am really happy that so many recommend this story as a good age play story and I do agree.

#### **Just not my kink**

I picked this up because I was trying to find a new genre of erotica that I haven't read before. It's not that easy when I think I've tried just about everything. Well, age play is content that I have never considered reading before so I decided to give it a try.

Well, I can honestly say that this just isn't my kink. I really didn't get it, and I really didn't get the attraction. Now, I don't want to knock anyone else's kink. I am a firm believer in letting your freak flag fly, but I just really couldn't get into this. I was turned off with the diapering and baby talk wrapped up in sex. It just made me uncomfortable.

Anyway, beyond the fact that it wasn't my kink, I really didn't think the story was developed enough. We didn't get a really good sense of what drew the main characters to age play or how they forged their relationship to get it to a permanent status. Those things were just cursory. We did get a glimpse into Meg's reasoning but David was a mystery throughout.

Also, the HEA seemed very rushed due to that lack of development and just needed there to be more.

I don't think I will try any other age play books based on this, but I'm glad that I did try.
