Let's talk about the 90s and Harlequin/ Mills & Bloom: Aside from the typical secret baby/billionaire/secretary tropes, books in this era and from this publishing house are actually really well written (regardless if we like the content or not). Also, they tend to have good content and plots, climaxes, conflict, tension, and romance without having sex and obscure monologues every 30 pages. I don't know, but there is something about the books from this era that I prefer versus the tacky cont. romances I've come across....though they could have done better with book titles, those suck! Anyways, didn't love the story, but very good writing! Harlequin is where it all started I guess.

A Night, A Secret.....A Child is the 18th stand-alone romance novel by Australian author, Miranda Lee. Serina Harmon has kept a guilty secret for thirteen years: just before her wedding to Greg Harmon, a night of passion with Nicolas Dupre, the man who broke her heart at eighteen, had produced a daughter, Felicity. Now Greg is dead and Felicity has invited Nicolas, former world-class concert pianist and theatrical entrepreneur, to judge a fund-raising concert, and he's coming to Rocky Creek! Nicolas is determined to experience again the unequalled passion he once had with Serina. Lee has set this romance where she grew up, which will no doubt appeal to locals. Characters and dialogue are credible; it's just a pity that whoever chose the cover photo obviously did not read the novel as the Nicolas is meant to be blond with an amputated left thumb, while the guy on the cover clearly still has his left thumb!! Enjoyable.

Ai gostei tanto desta história que ninguém imagina. Quando comecei a ler, óbvio que rapidamente soube qual era o segredo, mas esta uma história muito bem estruturada, bem construída e que leva qualquer uma a suspirar. Esta será uma das histórias que irei adorar reler. Nicholas não esquece aquela sua paixão que deixou ficar em Rocky Creek, a Serena. Serena guarda um segredo que o Nicholas não sabe nem suspeita. Até que um dia, Nicholas recebe uma carta a pedir para voltar à sua Terra Natal e ninguém esperando, que vai mudar a vida de três pessoas.

10 out of 5. Loved the story, loved Nicholas.....I had him as the main character in this story. It was more from his viewpoint instead of the femalefor a change. All of the characters in the story were great but NICHOLAS DUPRE was GORGEOUS.

Two people in love with each other that also share a passion for music that can't be honest with each, go their separate ways. Years later they meet again brought together by their secret child, one a widow & one a womanizer. Was a good read.

Wendy, Lady Evelyn Quince says

"Tell me you that you love me...You don't have to mean it. Just say it. I want to hear you say it."

Nicolas Dupre is a prideful, arrogant male who made his fortune in the music world while forming no real human attachments. Serina is the small-town girl he left behind, whom he never forgot. Not only does a twenty year old passion unite them...but there is a child as well.

Hidden, secret babies are not my thing, especially when the mother makes it appear that the child is her loving, unknowing husband's for 12 years. But Serina's husband is long dead and somehow, Lee makes it work.

Serina is far from a perfect heroine and Nicolas is much too proud. The ending is full of honest revelations, and neatly wrapped up, albeit too neatly.

However, this is a Miranda Lee book and when she's good, there is no other Harlequin Presents writer who is hotter. Compared to her works of the 1990's & early 2000's, this book is average. But compared to her recent works, this book is excellent. Plus, having a blond hero gets an automatic star from me. 4 1/2 stars for this steamy read.

This book it's okay.

I liked the fact that this particular "Harlequin Presents" book didn't follow the typical plot of "virgin marries millionaire and they never ever experience a relationship with anyone else in their lifetime." In fact, in this book, the couple may be "soul mates" but each have had relationships with other people in their lives. This could be classified as a "second" or "third chance" relationship, in fact. By the time Nicolas and Serina meet

again, they are much older and have a 12-year-old daughter between them. However, I wasn't impressed by the writing style. The author uses past perfect tense too much, which really bothers me ("had seen" or "had accomplished"). Then she switches the writing to past tense. I understand the intent of doing this, but it just makes the writing sound awkward. Also, I couldn't seem to become emotionally attached to this particular couple--maybe because Serina's character is just so flighty in her motivations and intentions. She's constantly confused about whether she wants him in her life or doesn't want him in her life. This made me completely frustrated.

This was definitely sexy but I agree with other reviewers re: the heroine's handling of her pregnancy; it was so selfish and cowardly (the cowardice I can appreciate) to deceive the father, and the other "father". Girly, that's not the way it goes! And the fact that the father still wanted you and loved you back (ditto your daughter) in spite of this MASSIVE OVERSIGHT just shows how gargantuan a mistake you made.

Granted, Nicolas, put simply, turned out to be quite the prick, but he was a heartbroken prick, and he redeemed himself better than Serina did.

Miranda Lee is my favorite HP author working today. As usual, I liked the sexy and emotional depth of the writing she achieves in this book but it was not enough to overcome my distaste for the fact that this is a Secret Baby story.

This books features a couple who first get together (about) 22 years ago and have always been each other's Love of his/her Life. Since the heroine is the one who is mostly responsible for them not getting together sooner and had the dreaded Secret Baby and then, keeps changing her mind when they meet again, she is way too unlikable for the romance to work.

Skip it.

I like this book it's not bad but why does he give a shit she had her chance to tell the truth when the kid was two and Nick came for his mom's funeral She also had the chance to tell Nick before the wedding To Greg and I think Greg's parent's knew deep down she wasn't There grand kid what is why they told what they told to Nick to be honest if she love her daughter and care at all for Greg she should have told the truth regardless of who got hurt Nick had the right to know and frankly he should have told his own child the truth why would she hate him it was her mom's fault not Nick's

Kellison says

First, I feel I should say that I largely skimmed this book, as it pissed me off so much. Nicolas is often pretty despicable in the beginning. I'm annoyed by the fact that part of the storyline plays on the "woman says one thing but means the opposite and the guy was supposed to know that despite all evidence to the contrary." By which I mean that Serina told Nicolas she didn't love him but he was supposed to know that she did still love him even though she turned around and started dating and eventually married another man. It was also pretty unforgivable that Serina did what she did. I have read several "secret baby" stories and generally have no huge issues with them but this one really, really rubbed me wrong. My problems with the secret baby plot in this particular book were as follows: 1. Serina got pregnant by Nicolas while engaged to another man. She chose to seek Nicolas out...while shopping for her wedding; 2. She knew the baby was Nicolas's but chose not to tell him which was both selfish and cowardly; 3. She knew the baby was not her fiancé's baby and chose not to tell him which was selfish and deceitful; 4. She married Greg while carrying another man's baby and then proceeded to pretend the baby was his, and continue the charade for 12 years--even after Greg's death; 5. When confronted about paternity by Nicolas at his mother's funeral, when their child was about 2 years old, Serina flat out lied to him. It would have been one thing if he'd been a bad person, or into sketchy business, or abusive. But Nicolas was none of those things. He was a decent enough guy (back then, in the present he's sort of a douche, but at least you get to understand why) whom she screwed over in infinite ways--first breaking up with him when he got his big break, then sleeping with him while engaged to someone else then running away, then realizing she's pregnant and it's his baby and not telling him, and finally, by cheating him of his daughters almost-entire childhood--her first breath, her first tooth, her first smile, her first time rolling over, crawling, walking, her first word... It was unbelievable that Nicolas would ever forgive Serina for such an act...she stole his daughter from him!

Kalpana says

This book had a heroine who made me despise my own sex. She is one of the most hateful and selfish women in all of hplandia.

She is more worried about what others might feel instead of the heroes feelings. She can say anything about him "The only thing you are good for is sex" and when he calls her a lay she is hurt????

She doesn't leave a single opportunity to deceive him belittle him but justifies her actions as if she is a damn martyr. The first time she takes a dig at hero saying he doesn't like small towns as if she is doing a great favour on all the mankind by living in a small town while the hero is a hateful person because he prefers living in large cities , I felt like strangling her.

There is not a single redeeming quality about her she cheated both the persons who loved her always thinking about herself and all others can go take a jump in the lake.

The daughter had much more maturity than her and was a much nicer person.

God she spoiled the whole book for me and made the hero look like a wimp because he feels she is bravest person more like a piranha eating people alive.

Overall a horrible heroine and a wimpy hero definite miss....

Alexis-Morgan Roark says

I just don't get these secret baby books! So, I am still not sure WHY she couldn't have told him sometime in the last 12 years that he had a daughter.

To top it all off, the kid, even towards the end, does not feel comfortable calling her actual dad, "Dad." She still calls him her "stepfather." He was cheated, and I am angry for him!!!
