I'm rating this volume 4 stars, because honestly; after the Hong Kong arc everything is bound to be a downer. Now, I know some of you will as me rather incredulously; what about that freaking hot threesome? Never fear, ladies, you are absolutely right: That particular (beloved) bonus story has got Burj Al Arab qualities written all over it. (You know, a 7 stars rating! <3

Since our dream threesome also happens to appear in the kindle exclusive "Hard Working Takaba Akihito's Romantic Life as an Indentured Servant" I've opted for a separate rating. Did it receive all the stars Goodreads is willing to dish out? You betcha! ;-)

### Marsha says

Love without sex, sex without love. Getting love with sex is a tricky business to pull off and apparently Ms. Yamane has decided to forego it in this series. Poor Akihito is struggling to get his feet under him but it's not helped by Asami's domineering and high-handed ways. The photographer wants to find his freedom and make his own way but Asami refuses to allow him any kind of autonomy. He wants Akihito but never expresses anything for him like warmth, affection or love. Instead, he coerces, blackmails or just plain forces him to have sex with him using everything from threats to willful theft. In this, he is little better than his erstwhile rival, Fei Long. The only difference is that Akihito's own feelings have him twisted into knots over Asami as he is over no one else.

While this makes the sex between the two very passionate, the lack of emotional warmth on Asami's part left me rather cold and numb. It would be wonderful if he would allow the younger uke a position other than that of his catamite. But the man is an Alpha male, simply not the sort to allow any relationship unless it's on his own exacting terms. For a woman like myself, who likes love mixed up with passion, this makes this series less than satisfactory.

This part. if you're not squirming on your seat and wetting your panties for that threesome, Asami-Akihito-

Feilong, then you're not 'normal'... \*giggles\*

This one is hot to level burn the house!

No. . . just no. The ending of the last issue showed so much promise but it was totally dropped in favor of more of Akihito's I don't want you but yet I do? What about Feilong. He's dropped now and not in this at all. His HEA was supposed to be that page when Yoh, who had been betraying him for years and just freaking did it again, suddenly says he cares about him & Fei didn't believe him and why should he especially when he'd just been axed after admitting to Asami and himself that he'd done all that shit because of his feelings for Asami. . . :(

Wow! Das war der genialste Band der Reihe. Hier geht es ja um Mafias und einen jungen Fotografen der zwischen die Fronten geraten ist, da beide Mafiabosse Interesse an ihm haben. Das ganze hat wirklich Story und es macht richtig Spaß diese zu lesen. Aber was mich echt umgehauen hat, war der Humor dieses Mal. Das war in den anderen Teilen noch nicht so. Der Humor ist nicht dieser typisch alberne Mangahumor sondern richtig witzig und passend zur Szene. Die 'Liebesgeschichte' wird auch toll umgesetzt. Der Hauptprotagonist strebt ja nach etwas mehr Freiheit aber man merkt trotzdem, dass ihm viel an Asami liegt und er doch nicht ganz von ihm weg kommt. Toll einfach toll!

Okay, so after rereading Crimson Spell, I saw this series pop up on Amazon. I've seen it come up a few times before and because I love Yamane's artwork I thought I'd just check it out. Just to see right? Of course not. Once I read the first chapter it was no use telling myself I had other books to read. I wanted to finish this one first. Luckily for me manga series don't take too long to get through. And the artwork here is Yamane at her best. Now the story. It's another m/m romance. It reminded me a little of Totally Captivated by Hajin Yoo, where the "evil" character takes an interest in the "innocent" character and subjugates them. Full of each character lying to themselves magnificently and unintentional feelings emerging as a result. That being said this series was more dramatic and more explicit. Readers should be warned that there is full genitalia, rape and mild BDSM. If you can't stomach those then don't attempt this because it's pretty hard core and there's a lot of it. Regardless it's a good story in my opinion. I enjoyed the psychology behind Asami and Takaba's relationship.

Holy shit this was hott as fuck! The story in this one wasn't great after the awesome last arc, but it was still fun. However, the 5 star rating is for the extras (sextras?) because Jesus lord they were good. Especially the one with Asami, Takaba, and Feilong...the dynamic between them during probably the hottest scene of the whole manga, and the whole chapter in general...so good. The mangaka writes Asami and Feilong's relationship so well. Takaba is a bit whiny but honestly, at least he kind of acknowledges his feelings unlike most uke characters. I love how Asami just doesn't give a shit. He wants what he wants and takes it and I think that's why his character is so hott. I'm loving this series.

## Kati says

This manga contains two loosely connected stories. One features Akihito and Asami, the other Hiyama and Mizuno.

To the main story, Akihito and Asami's, I would give 4 stars. I know that some people don't like this manga because they consider Asami too forceful and manipulative, taking Akihito against his will. I agree that Asami is forceful and manipulative. At the same time, I think he gives Akihito exactly what he wants. And this story proves it. In it, Akihito had the chance to rid himself of Asami and live a free life - yet he went back to Asami. Of his own volition. Because he craved Asami's attention, which he actually admitted, at least to himself.

To the second story, I would give only 2 stars because it was all talk and talk and talk and very little actually happend. The most interesting part was, once again, the bit with Akihito and Asami. The rest was quite boring.

Super hot threesome in this episode. It's the most awaited threesome in this series. Just that I am still unsure if that scorching hot ménage à trois is for real or only a fantasy that sensei created to satisfy us hungry fangirls. I for one have been dreaming for Asami x Akihito x Fei Long threesome for the longest time since I started this series. It's so surreal I have a hard time believing Akihito would actually permit that smexy scene to happen at all. Aki serving two hot male specimens at the same time and the intense undercurrent exchange between Asami and Fei Long is gloriously arousing.

Yamane sensei is always amazing at delivering stimulating and orgasmic sex scenes. I love how she drew those passionate kissing scenes. Her kissing scenes are arousing even to someone like me who personally does not like kissing.

*Pic#1: Asami's trademark forceful, dominating and passionate kiss for his little blond kitten. This image is from Volume 6.*

Pic#2: *I find this image divinely arousing. Just look at that tongue action. Akihito was feeling conflicted here due jealousy. This image is actually taken from Volume 7, the current book I am reading.*

This new story line is not as intense as previous issues, but still beautifully done.

My initial instinct was to give Passion in the Viewfinder five stars, because, well, it's Yamane. However, when I compare it to the multi-book spanning Arc of Truth (Vols 3-5), it's just not up to that level. That's not to say I didn't enjoy it. It was an excellent installment for the Finder series, with hot, explicit sex, and more development of Asami and Takaba's relationship.

Passion returns to the format of the first two volumes in the series - a collection of shorts, rather than one continuous plotline. The stories focus on Takaba trying to rebuild his life, his career and his friendships while also coming to terms with how he feels about Asami and his role in Takaba's life. The format works because Takaba has more than one "assignment" in his job, and after the intense Arc of Truth, something a bit more light-hearted was welcome. Where I think it fell flat was the last story wherein Yamane intertwined the "in love" story, which appeared as a short in Volume 1, with Finder. The original short concerned two young men who are attracted to each other learning that their fathers are in love with each other as well. I wasn't particularly fond of this story the first time (too much school-boy angst), and having the boys go on a school trip with Takaba ending up as a "chaperone" didn't improve it. The few scenes where Takaba learns the danger of dropping Asami's name were funny, but overall it was weak and took up too much of this volume.

I don't mind a return to the short collection format, but I would prefer all the stories be in the Finder universe (e.g. a story about Fei Long dealing with the aftermath of Truth would have been awesome). I would love to read a collection of the other shorts, in a volume distinct from the Finder series, so that Yamane could explore other characters without Finder overshadowing them. Still, this was a fantastic read, and I highly recommend it.
