## From Reader Review Suite Fantasy for online ebook

### **Karmen says**

3 novellas set in a very exclusive resort getaway.

### **Jess says**

This was a donation to the library and I needed something to read. Was okay, great story idea but the steamy parts were so so. Contains 3 short stories where each couple goes to a private resort hotel in the mountains of North Carolina where they cater to your fantasies. They have theme rooms where you can book one and play out anything you want. Like I said, the idea was good, the sex was normal, but the plots of the stories were eh.

Even though i gave it a 3 i would give it a close 4... its like the other reviewer said it was good but not wow...BUT still a good quick read i like all the stories.

### **Sharon says**

This is three novellas in one book, which I always enjoy. All three stories definitely have a plot that is fairly well-developed for being short. The down-side of that (for you sex readers) is that there seems to be less room for actual sex scenes. But I still liked this book. The characters were fun, the sex scenes were hot, and the stories are set in a hotel that I think we'd all like to visit!

### **Bette Pietsch says**

Was an intriguing idea but the third story only reminded me of The Shining; I kept expecting some axe-wielding murderer to be chasing them down the cold hallways.

### **Alyssa Greatbanks says**

I saw this book at the local thrift store for free, so I thought I'd give it a chance. It was very good. All three stories were very detailed for being so short, and you really got to know the characters in their 5 chapter span. Definitely will not be donating this one back to the thrift store.

### **Shilo clark says**

the 1st one was really good. the other 2 where ok.

### **Megan says**

I like the idea behind the story (a sex hotel with different styles of suites to allow you to fulfill your favorite fantasies), but the story itself seemed lacking. Still, it wasn't bad for simply sexual entertainment.

Rated NC-17

### **Jessica says**

Ok novellas with interesting premise - an adult fantasy hotel. I couldn't help being disgusted, though, by the idea of couples sequentially using clothes, beds, etc.

### **Tanya Mayes says**

I just want to say that I loved the four stories not three it's hard to pick one as my favorite. I wanted more stories at some point I hope the author writes more. The idea of a hotel where you can fill your sexual fantasies was great. I like how each couple role played in each room and made love connections. Luke and Emily and Dylan and Katie story was to cute it may top my list. Must read box set.
