Cover: I love it. It is so bright, cheerful, and colorful. I love that it shows everything on the cover that has been incorporated into the stories so far. I love that it will keep the children's attention.

Things that I liked: I love that what has been written so far with the series as been included in this one book. It takes everything that the author, Jordan Quinn, has written thus far and brings it all together. I love that it continues the adventures of these little children.

Things that I didn't like: I have no issues here.

Overall: I really enjoyed reading this one. I rated this book a 5 out of 5 stars. Highly recommend.

My Review: I have really been enjoying this series so far, it has some great adventures and lessons. It can also appeal to young boys and girls even with the main character being a boy. In this book in particular there is a message about girls being able to do things that boys do, sometimes even better if they work really hard. I did have a bit of an issue with this one as one of my biggest pet peeves in books reared it's ugly head, in a few places the word reign was used in place of the correct one rein; I know it is a weird and minor issue but it is one that really irritates me, especially since this book is geared towards younger readers who are still learning and it may lead to confusion. But besides that one point it is still a great book and a series that I will continue reading and adding to my shelves.

At the carnival, Lucas and Clara meet a boy named Gilbert that is a night's squire. He laughs at Clara for wanting to be a night. Clara gets really mad. Will she be able to prove to him that she can be just as good a night as he can be? Read the book to find out.

I just love this series! It is the best series ever!

(My 6-year old son's rating and review.)

"I really liked that they had the very interesting games, and I like how Clara did the games and that she was like the first girl knight. I like how she likes horses, because I like them too. I didn't like that the other boy said girls can't be a knight."

My boys are 4 & 6. Perfect read aloud series for both of them. And the map online for them to color...a huge hit!

Jill says

Another fun addition to The Kingdom of Wrenly series. I love the fact that Clara proves girls can do anything boys can, especially during the time of "knights in shining armor."

Melody says

Large print, medieval setting, strong female protagonist,

Anna says

"You can be anything you want,... - so long as you work hard enough for it!"
That's a nice, inspirational thought, though actually I think it's not completely true.
