I like Ms. Lee's writing, but it's too sweet for me in the end.

This book felt more fully plotted than the first in the series. Which is a shame cuz I was bored with the plot. It's saccharine fluffiness and dead fiancé trope was just too much.

This is totally safety-gang-safe. If you want zero OW/OM drama this is for you. The H is totally devoted to the h.

In the end, I felt the first couple deserved more plot development and 30k more words. The second couple just bored me. And what's worse for me...I feel this H deserved so much more. I think the last book promises to be the most interesting but I'm burned out on fluffy bunny reads so it'll have to go into the TBR pile.

Don't let my review deter you, I'm just not a saccharine sweet romance kinda girl.

Voilà la suite d'une petite série de romances sympathiques et tendres d'Elizabeth Lee. Nous avons découvert les héros, des sportifs qui pratiquent le motocross et une petite ville du centre des Etats Unis dont ils sont originaires. Dès le premier tome, on avait deviné que le meilleur ami du héros allait tomber amoureux de la sœur de l'héroïne. Et cela n'a pas manqué.

Georgia est infirmière et a pris soin de Brett après un accident que nous avons vu arriver dans e premier tome. Grièvement blessé au genou, Brett se bat comme un beau diable pour revenir au meilleur niveau car la moto est sa vie. Dragueur, garçon facile à vivre, il n'a pas eu de grands soucis dans sa vie et il n'a pas l'habitude d'approfondir ses relations mais la gentillesse de Georgia va finir par le convaincre qu'il a peut-être trouvé la femme de sa vie.

Elizabeth Lee écrit un type de romance un peu démodé mais charmant qui présente des héros adorables, évitent les situations les plus dramatiques mais elle fait ça très bien. Brett est aussi un genre de héros plus rare aujourd'hui. Il n'a pas un passé hyper lourd à négocier et est du genre à ne pas se prendre la tête. Par contre Georgia a connu un drame encore très jeune puisqu'à dix neuf ans, elle a perdu son fiancé. Elle l'avait connu toute sa vie et a eu beaucoup de mal à s'en remettre.

Ne vous attendez pas à une ambiance dramatique. Georgia a certes connu le pire mais le malheur est derrière elle maintenant et elle est prête à refaire sa vie. Et même la blessure de Brett n'est plus qu'un mauvais souvenir. Il n'y a guère de doute sur ce qu'il fera dans le futur. Ne mentons pas, cela rend cette romance est un peu superficielle parfois avec ces héros si gentils, si beaux et une émotion qui reste forcément à un niveau assez modéré. Mais c'est adorable à lire aussi et cela repose des nombreux NA avec des héros qui se déchirent. Ici, les rebondissements sont assez simples et prévisibles. Tout le plaisir est dans l'interaction de ce couple. Leur affection est vite évidente, la sensualité forte entre eux. Bref, cela se lit très vite et si cela ne laissera sans doute pas une impression très durable, la lecture est très satisfaisante.

Evidemment, la fin du livre nous permet de voir un peu vers quoi se dirigera le troisième tome. Le couple de héros y est limpide. La jeune femme qui devrait prendre le premier rôle est une des pilotes de moto et a l'air de ne pas être ordinaire. Et puis, la scène finale révèle une petite surprise qui devrait s'éclairer dans ce tome final. Il devrait donc être dans la même tonalité : simple, classique mais très plaisant.

This was such a good book and I really liked Georgia and Brett's story.

Georgia is Nora's sister that we met in Book 1 of this series, Throttled. She's been through a lot already in life and is just trying to fill her days up and keep busy. But she gets a lot busier when Brett, one of Reid's teammates, gets injured and she offers to help take care of him.

Brett Sallinger is kind of like the bad boy of Motocross. He lives life a little on the dangerous side since he rides Freestyle, which is some scary cool looking stuff, and has never been one to not take a risk. After he finds himself injured he decides to risk it all and pursue Georgia Bennett. After all, they both could use a little fun.

I really liked seeing things play out between these two and was relieved to see that it was mostly angst free. I feel like Georgia has been through enough and didn't need something that was going to be super complicated so I really enjoyed the connection and banter between her and Brett. I felt like these two really balanced each other out.

I really do like this series and cannot wait to read Hoyt's book, along with hopefully getting glimpses of Nora, Reid, Georgia, and Brett!

Such a beautiful and captivating story. It is nearly impossible to not fall in love with Brett and Georgia. Their story is so real and raw. You will find yourself lost in their story and desperately hoping that these two will get their HEA. Elizabeth Lee has once again knocked it out of the park and has me super excited to see what else will come from this exciting new series!

Okay, I can add motocross racing to my list of favorite sports now! While WHIPPED can be read as a standalone, it follows the story of Reid's best friend Brett, and Nora's sister Georgia, who were introduced in the first book.

WHIPPED is another sweet and sexy, fairly light romance between Brett, who was injured in an unfortunate

bike accident, and Georgia, Nora's sister. Georgia has been traumatized by the tragic and sudden loss of her fiancé several years before and it has affected every relationship she has. Brett is sexy, a little cocky, funny and surprises himself by falling in love with the emotionally unavailable Georgia.

I love all the easy banter between the guys in this book and the author's entertaining style of writing. There is no high drama in this book, not a ton of angst, just a sexy and action-packed romance set against the world of competitive motocross racing. I could almost feel the wind in my hair when the author describes the racing scenes! And I also love the small-town setting, with the families who know everyone and the warm feeling of community. If you are looking for a hot, quick, exciting and very sweet romance, then I highly recommend this series by Elizabeth Lee. The next book is about another couple in the motocross racing world and I can't wait!

Brett Sallinger has completely stolen my heart! Elizabeth Lee has blown me away with the fun, cocky, worship-worthy motorcross hottie that made me laugh in *Throttled*. *Whipped* is Brett and Georgia's story and it is the perfect addition to the *Wild Riders* series. Elizabeth Lee has filled the pages of this novel with fantastic humor, delicious heat, and unexpected heart that consumed me completely. I loved getting lost in this familiar world, seeing Nora, Reid, and Hoyt again felt like coming home. The perfect balance of light-hearted fun and emotional angst, Georgia and Brett's journey made my heart ache one minute and had me laughing the next. Elizabeth Lee's writing just gets better and better with time, and I love how effortlessly she brings her vibrant characters and unforgettable stories to life. Her creative storyline construction, lyrical prose, and vivid imagery blend together into something captivating and beautiful.

Brett was so fun to unravel. I loved seeing the sweet, caring side of him that was brought out during his time away from the hectic motorcross lifestyle. Elizabeth Lee allowed him to grow into his emotions at a pace that felt genuine to his character, leaving me totally hooked on this former ladies man. While Brett dealt with newly discovered emotions, Georgia worked to let go of the emotions keeping her from moving forward with her life. There was something so satisfying in seeing her face the past and make peace with her fiancé's death in order to move on. Through this character growth, Elizabeth Lee not only made her totally lovable and relatable, but she revealed a strength in Georgia that was undeniably beautiful. Brett's laid-back, fun-loving attitude perfectly balanced Georgia's serious, responsible demeanor. Together they brought out the best in each other, pushed each other to embrace life, and turned up the heat when their differences inspired friction. Their chemistry was palpable from the start and as their connection grew I found myself more and more invested in their happily ever after.

Whipped is a journey of healing, both emotionally and physically. It captures the trials of moving forward and the risks we take to open our hearts again after they've been shattered. Georgia and Brett's story was surprisingly poignant while being addictively entertaining and full of life. Elizabeth Lee did a great job with the timing and pacing of *Whipped*. I love that we didn't have to wait to jump into Brett and Georgia's story. Having met them in *Throttled*, their easy friendship and undeniable chemistry had already laid the groundwork for something more between them. With both character's having their own issues to overcome, we needed the time to let them figure things out beyond the basics of getting to know each other and Elizabeth Lee did not disappoint. I was sure no one could beat our Reid Travers for my favorite motorcross man, but I guess I never saw Brett coming. Brett Salinger owns me completely!

I really liked this book. I knew their story would be a good one, lots of emotion, and it did not let me down. Georgia and Brett were so perfectly in tune with each other, it was refreshing. They addressed things head on, mostly. And Brett's commitment to take things at G's pace just made you fall for him harder. I liked this story a little more than the first, which makes me that more excited for the next one.

The Best Parts:

This book I have to say wasn't as fun as the first novel, but it isn't intended to be. The relationship between Brett and Georgia is an intense one that sends you on a roller coaster ride of emotions. Georgia's character is one that not many can identify with, and I can never say that my husband has died, but when my father died the feelings Georgia is going through were the exact ones that had me guarded for so long. Elizabeth does a great job writing how Georgia gets through her life and even the thought process of moving on from a dead fiancé.

Brett on the other hand is the most honorable man that I have read in a long time. He is so considerate, but he is also willing to push Georgia's buttons. They push each other past their comfort zones and it makes for a great read that may not be pleasant at times for the heart, but is well worth the wait in the end.

The Worst Parts:

I wish. I wish so hard that Brett would have made Georgia sweat a little more when she asked for forgiveness. I know that they needed to reconcile, but man I wish he would have made her work a little harder, but man is that boy a softy for her.

Also I HATE the epilogue! Why?! Why torture us with that, but what I am grateful for is that the next book comes out tomorrow so I don't have to wait long to find out!

Final Thoughts:

This series is different than what I have normally read because the HEA's aren't complete at the end of their own book, and the secondary characters that you have already read about continue their stories in the other characters' books. This allows for the familial feeling when reading these characters. You learn so much about them.

I LOVE BRETT!!! He is cocky, sexy (and knows it), and a marshmallow on the inside. And he is recovering from an unfortunate injury that wasn't meant for him.

Georgia is his friend, helping him get around while he is injured. She lost her fiancé and feels she may never move on. And then Brett happens.

These two are awesome characters. They give as well as take when it comes to picking on each other and the attraction they have burns bright.

Having only read only one other motocross book I have nothing to compare details to, but the writing is spot on! Elizabeth Lee takes us all on a wild ride that makes you feel like you are riding the back of the bike. There are ups and down, twists and turns that make you feel like you are on the track. The heat between the characters is hotter than the muffler and tail pipe. And watch how fast they shift gears once the walls come down between them.

The only downside of this book for me was Brett seems to have lost some of his cocky attitude when he interacts with Georgia. ~ Devlynn, 4.5 stars

Georgia Bennett is a one-woman whirling dervish. She never stops, she's always got something going on to keep her busy, be it nursing school, volunteering her time at the hospital or anything else she can do to fill up her time. Because if she stops, she'll remember what she's missing out on since her fiancé died three years ago. So when Brett Sallinger needs her help to get back and forth to his doctor appointments and physical therapy, of course Georgia is happy to assist—it's just one more thing to keep her busy.

The Bad Boy of Motocross, Brett Sallinger, is bound and determined to recover from his devastating injury and return to defend his professional freestyle motocross crown. His typical dating style—if you want to call it one—is uncomplicated, convenient and short lived. That is, until he meets and spends time getting to know one Georgia Bennett and pretty soon Brett realizes that the relationship he's developing with Georgia is as important as his career.

Brett and Georgia are moving beyond the 'friends' stage. But are they ready? Can Georgia bury her fears of being left alone again? Can Brett convince her to make the leap? Is their relationship worth the risk?

Oh my. I think I need to search You Tube for some motocross freestyle videos. I love Brett and Georgia—even when I wanted to shake them. Brett was so understanding and kind and patient and sexy and awesome. Georgia is so sweet and kind and gentle and terrified of being hurt again. But grief recovery is different for everyone and once Georgia opened her eyes and saw Brett as a man, their relationship was bound to take off.

I really loved the slow development of their love too. It was well paced and didn't come across as "instalove" at all. I also loved the relationships between Georgia and her sister, Nora, and Reid and Brett. And I'm DYING to read *Clutched*, Reid and Chayse's book! ~ Missy, 4.5 stars

Really good story but the editing needs work! This is Brett and Georgia's story. Just as they get together, Georgia pulls away. Georgia's afraid that she'll lose Brett the same way she lost Jamie. Will Brett be able to convince Georgia to take the risk and give love a try no matter how dangerous his job is?
