Let it be Us

Barbara Speak

Let it be Us Barbara Speak

Montana has become everything Arianna Dubray never wanted it be. Home. Now, with every part of her Boston life behind her, she has all she needs to watch her future unfold in her little country life: her sister, Shelby, and the man that captured her heart and never let go, Canyon Michaels.

But Canyon was sure Arianna was never coming back, and in the midst of his excitement, he doesn't reveal the one thing that could shatter his dreams of being with her for the rest of his life.

When every secret comes to light, the only thing left to do is to leave their love in fate's hands.

This is the follow up to the best selling novel, Let it be Me and should be read in order

Smut Hut says

I don't even know where to begin this honest review as I'm stuck speechless a few weeks later. What I can say is you need to read book 1-Let it be me before you read this book as the story of Arianna and Canyon continue. OMG you needed tissues in book 1 and you might as well grab a box for this book as well. The continuing story will have you on the edge of your seat between the strong love between them, the angst they go through and have gone through, the unexpected twist that wouldn't be a Barbara Speak book if you didn't get a curve-ball thrown at you and the laugh out loud moments from Shelby.

Arianna and Shelby finally have somewhat of a normal life after the trial. She knows her heart is still with Canyon and makes the move to get him back. Oh no, this isn't a fairy tale story where he comes and swoops her up and they live HEA, think again. Arianna's love is tested upon learning of Canyon's huge secret. As if they haven't been through enough at such a young age, they are given even more once she learns of the secret. Will Arianna and Canyon's love withstand the huge boom and then the big bang once they find out the truth? OMG, I wanted to cry, throw the kindle, laugh and cry all at the same time sometimes and that was only 3 chapters in. The love that Canyon has for Shelby is amazing. He thinks of her as his own and it's the 3 musketeers as a family and never just about Arianna and Canyon. Without giving away any details I think this is all I will say so that you can read and decide for yourself on the emotions that you go through reading this book. I hope we get more on the Cowboy because I'm not ready to let the 3 musketeers go yet. You have been warned and you may want to read the books back to back or you will be in suspense waiting to read this book.

Jodi Cain says

OMG.. I have cried so much while reading this, but also laughed even harder. It doesn't matter how long you have to leave someone, because love knows no time. Love grows stronger everyday. Ari & Canyon had to grow up so fast, but I think that is what help them grow in every way possible. Shelby was one lucky girl to have a sister like Ari to take care of her when she had to. I am so glad they got their happily ever after.

Jennifer says

This book is the absolute PERFECT conclusion to Let It Be Me.

I fell in love with Canyon and Ari in the first book, and that love grew in book 2.

Ari has grown so much from book to book and it's so great to see how she does. Canyon - even though he's older - also changes, but in a good way. Then there's sassy little sister Shelby who is finally feeling at place in her crazy little world. She's become way more vocal about what she wants and I love it!

There are a whole new set of challenges for Canyon and Ari to face. They face them head on, with courage and dignity. That's not to say it's smooth sailing between the two. There are a few speed-bumps, but they handle them well.

I know that this is the first time Barbara has ever written a book involving the same two main characters and I have to say, she did a FABULOUS job. Ari and Canyon definitely had more to say, and I'm so glad she got

the rest of their story out. And the ending had me in happy tears.

You MUST read LET IT BE ME first to understand LET IT BE US. And I highly suggest you do.

Let it be Us by Barbara Speak
Release date 01-25-16

I am not new to Barbara's writing, I have read every book of hers. I seriously had no idea what to expect when jumping into this novel. My mind races in a million different directions before I had even finished the first three chapters.

We pick up exactly where Let it be Me (the first in this series, yes you should read that one first) leaves off. Canyon and Arianna's story is one for the ages. You can't help but root for them because sometimes things just work. You don't know how, and you don't know why but you just know they have to.

People make mistakes, Arianna knows this all too well. Canyon too for that matter but sometimes something huge has to happen for things to be put into perspective.

Arianna and Shelby being back where they belong is supposed to be the start of the rest of their lives, but what happens when one person's betrayal threatens everything Arianna worked so hard to protect, even if she went about it differently than most would.

Can a secret that is being held from those central to the situation really shatter so many lives? Is it something that can change the people Arianna loves most? With more answers comes more questions, is Arianna past, everything she remembers somehow wrong?

These are all questions you will find answers to in this epic nail biter! 5 way high shooting stars to a very talented woman!

Barbara will rip your heart out and stomp it in the mud and expect it to keep beating and I can guarantee you will thank her for it!

Canyon and Arianna fever will be a thing as this hits the shelf.

Hooked On Books says

I didn't think it could be better than the first book in the series but I was wrong! We pick up right where we left off and this one is even better. Ariana and her sister Shelby are in witness protection after Ariana's stepfather is arrested. Canyon has no idea where she's gone because she was uprooted so quickly without a chance to say goodbye. Now we've picked up in this book and Ari and Shelby miss Canyon and the farm desperately, so they've decided it's time to go home. Canyon and Ari are still very much in love but when Ari discovers Canyon made a mistake that will bite them both for the rest of their lives Ari can't decide if she's going to forgive him or not. Canyon has missed Ari immensely while she was gone but he's made a mistake that may cost them their relationship, he spends the bulk of his time in this book proving his love for Ari.

This is just such a fantastic book with an original storyline. It flows fantastically and once you start reading you won't be able to put it down. I definitely recommend you read book 1 first or you'll be lost. I can't wait to see what Barbara Speak releases next.

For the Love of Books & Alcohol Blog says

"You are my Goddamn everything. You are what makes me who I want to be, and I will never go back to what I was without you."

I fell in love with Ari and Canyon while reading Let it be Me. Reading Let it be Us only solidified those feelings.

In this second book Ari and Canyon are faced with a new set of challenges. Challenges that are hard for anyone, but especially for such a young couple. Unlike the first book, in this book, we witness how Ari and Canyon face conflict as a couple. I enjoyed this because these two really didn't have anyone but each other. They stayed strong when they wanted to give up. And speaking of strong, Ari is one bad chicka. She is so tough and full of compassion. She shows grace and kindness in situations that would make most of lash out. As far as heroines go, Ari is a favorite for me.

I am always a sucker for a country boy and Canyon is OMG swoontastic. (Mac Robinson as the cover model never hurts either, ladies.) I really loved Canyon's storyline in this book. His integrity is just as sexy as the rest of him. Speak tore him to shreds with conflict in this book. He fought throughout the story to do right by the people in his life.

This was a great read. I knocked it out in one day, mostly because I just couldn't put it down. The world building and writing was fantastic. I was completely invested in the story. The author purposely gives us bits of foreshadowing as we read. Just enough to keep us thinking we know what is going to happen. Then there is the end. Oh the end. All I can say is that the end is fantastically clever! And cruel! I loved it! And I hated it! I won't give you any spoilers, but I will say that when you read the moment I am thinking of, you will understand how I felt. GAH! It was so well done!

4.5 Stars for my favorite cowboy and his girl! Pair it with a Flat Belly Amber from the Montana Brewing Company

Colleen says

This book!! OMFG THIS BOOK!! Love is not a strong enough word for how I feel about it. Nor is giving it only 5 stars!! Let It Be Us was not just an absolutely amazing love story it was SOOO much more!

I clung to every word reading this book. Now that I'm finished all I can say is the ending is so absolutely PERFECT!!! This entire story, the characters, the writing absolutely perfect!

There's laughter, there's sadness, there's happiness and anger throughout this book. You get it all!! The way the characters evolved and grew throughout this story it just felt as if I were watching it not reading it. I could see everything so clearly.

I love so many books I've read but not all stick with me. I gotta admit Let It Be Me stuck with me and I KNOW without a shadow of a doubt Let It Be Us will be no different!

I received an ARC in exchange for my honest opinion

Samatha Lepaio says

OMFG THIS BOOK! I DON'T EVEN KNOW HOW TO EXPLAIN HOW MUCH I LOVED IT! For one thing, I really wanted to strangle Canyon for what he did, and then Brooke as well.

I always loved Shelby's straight-forward honesty, honestly that girl has no filter.

The ending killed me a little though.

Julie Kirby says

Oh wow! I'm all warm and fuzzy, that was a lovely conclusion. SO loved Canyon and Arianna for a couple so young they both were older beyond their years.

This book started where 'Let it be me' with Canyon turning up at the end of the court case Ari was finishing up.

I kept forgetting just how young these two are.

Even though it was a dreadful thing to find out, Ari still gave Canyon her full support, not immediately but she came around.

Canyon and Ari have a fantastic relationship, even when Ari wanted to leave, her heart wouldn't let her, nor

would Canyon, even Shelby told then to just get on with it and how miserable they both were without their other half. I felt Ari did an awful lot of compromising.

When we met Tonya, at the school, there was something just not right about her, and blimey I was not expecting that truth - a real shocker!

I loved how we get to see a different side to Ari and Shelby's mom never expected to find that out about her, Shelby's dad got everything and more he deserved.

Ooh Brooke, what a Class A bitch, I wonder if she ever had a day of remorse in her life. What Brooke did to everyone concerned was an inhumane thing to do, especially to Canyon.

Awe, the epilogue was lovely, really happy for Canyon and Arianna, a great ending for a great story.

Franci Neill says

4.5 Magnificent Stars!!!

Where to begin with all the feels this second book gave me. Talk about a roller coaster ride of a book! As this book opens, exactly where we left off in Let It Be Me which I truly appreciate because we left off at a very critical point of Canyon and Arianna's relationship in that they're seeing each other for the first time in 10 months. Canyon has every right to hate Arianna, but being the grounded man he is, his love for her is greater than any hate he could ever have towards her.

"We don't need to rehash this. I love you more than anything, and we have our entire lives together to make up for a few lousy months."

When Canyon and Shelby see each other for the first time is the first time I felt tears going down my cheeks while reading this book. I say first time, because the tears come again throughout the book. So have some tissues ready! I really loved it when Ari and Shelby get to go back to Montana and begin their lives together...but things just couldn't be that simple and easy can they? What these three endure for the rest of this book would tear any other couple apart!

The first surprise is Brooke, Canyon's ex that we got a taste of in Let It Be Me. She has some serious issues and a major surprise for Arianna and not in a good way. And as we get further in the book, when we find out more about what happened while our H/h were separated and the repercussions of actions taken are both shocking and heartbreakingly sad. No one should have to go through what they have to endure. This is another part of the book where I got my tissues out because I could feel the pain and sorrow that Canyon was going through. When Ari tries to comfort him and let him know she is there for him no matter what, was one of the most beautiful scenes I've read and this is due to the beautiful words that Barb has put on paper....

The second surprise we get is Ari and Shelby's mom and how she comes back into their lives. I was dumfounded when the truth comes to light. It just reconfirms that their "step-dick" really was a scumbag and a horrible excuse for a man in every shape and form. Ari has a big decision to make, does she take a chance and let her mom back into her and Shelby's life knowing it could blow up in her face and cause permanent damage to the beautiful young Shelby.

Needless to say, I could go on and on about this book and how much I enjoyed reading it and experiencing the emotions that were brought about by the elegance of Barb's writing. I don't want to give away anymore than I may have already done so I'll leave you with these questions....What is Brooke up to? And who else

may be involved in her shenanigans? Will her Mom become part of their lives again? Can Arianna and Canyon get through all the obstacles that are placed in front of them to get their HEA? The only way you'll know all of this is to read this phenomenal book!!!

Thank you Barb Speak for the privilege to read this book prior to release.

Sonya says

Omg I feel in love all over again

I've been waiting on this book to come out and let me tell you it was worth the wait. Ari and Canyon stories continue and it's not all happy but I knew their love would pull them through. I loved the chemistry they have and sweet little Shelby lol they fought, screamed, and loved and in the end it all worked out because of the love they had for one another. If you want a good book this is the one.

Cassie says

ARC REVIEW FROM ABIBLIOPHOBIA ANONYMOUS BOOK REVIEWS

Rating: 4.5 Stars

There are a few books where when you finish it, you need to know what happens next. We're left with a need, hoping the author will fulfill it... That was me in the end of Let it be Me, and I couldn't be more happier that Barbara gave us what we needed. Arianna and Canyon needed more to their story, and we get it and then some.

"It's crazy when your heart and your head are waging a war against each other. Who wins in the end?"-

Arianna

There are a few hurdles thrown in Ari and Canyon's way... A few that I would have said 'screw you, I'm done', but Ari is bigger than me in that way, I guess. I don't want to give anything away, so this review will be short and sweet, and to the point.

I absolutely enjoy seeing author's grow with their work, and you can see it in this book. Barbara gives us the story we needed and then some. Canyon and Arianna are by far not the perfect couple, they grow with each other and flourish because of one another. Their obstacle is one that gives them the push they need. With every great love, there is always a fight to stay and they have one. Their love is story worthy. Mrs. Speak gives us an amazing story tide with a big burlap bow. I'm sad that Ari and Canyon's story is over, but happy we got to enter their world.

"I'm not letting you go again, Ari. Run all you want, but I will follow you this time."- Canyon

CrazyDaisy says

5 Crazy Ass Must Read Stars!!!!

I've been waiting to read the continuation of Arianna and Canyon's story. When I saw it on my kindle, I stopped what I was reading and quickly devoured it. The emotions, the suspense, the angst, the love, it all had me swiping pages so I could find out how their story goes. And boy, was that one hell of a ride! It's been about two weeks since I read this and I still can't seem to lose the tightness in my chest when I think about all they went through to be together.

You must start with Let it be Me. This duet is a Crazy Ass Must Read!

Anny hernandez says

I was provided a copy of the book by the Author for an honest review.

O.M.G. Wow I just finish reading the book, and I finish it with tears in my eyes, I felt in love with the series from the first book, and I continue loving it through this one, I couldn't put the book down when I started reading it, I felt more in love with the characters, but I do have to say that I did not want to finish it I wanted more, I am going to keep this short since I don't want to give anything away.

The story picks up right where it left off in the first book. With Arianna and Canyon when he shows up in court, he flings back to get Shelby and to take them home back to Montana, but what Arianna was not expecting for was to find the one person she can stand their, Canyon ex girlfriend and with a news that will change her life again, and will make her doubt everything, while Arianna is angry at Canyon she is also trying to move on with her life, she got enrolled in collage and got Shelby back to her school and move back to her house, while all of this is going on and no idea where her mother could be, she gets a letter from a doctor telling her that her mother is ready to see her. While Arianna and Canyon are trying to work everything out, that one person is still trying to keep them apart, will they finally get their happy ending.

I wish I could write more but I can't, I could tell you though that Canyon got me mad cause of what he did. But the more I get into the story I got to see what was going on and I am happy that I guess it's right. And I have

to say that I love the ending.

I love how Arianna and Canyon are with each other, love it how Arianna has grown and how she do anything and everything to keep her sister safe. I love it how Canyon never gave up on her, even thought what he was going through, he never stop loving her and was their for her, I love the love that comes out of this two characters and the love they have for Shelby.

I really love and enjoy reading this book Author Barbara Speak THANK YOU for giving me the chance to read and review this Amazing book with this Awesome characters love them.
