Another great read from Karen Kingsbury, but in a bit size short story that I was able to finish in less than an hour. For those who love the Baxter family, especially the family matriarch Elizabeth, this short story is a fantastic read for anyone who is married or contemplating marriage. Written with so much truth, interspersed with nuggets of scripture and with the sweet backdrop of the epic love story of John & Elizabeth backstory, this book was a quick read. It also contained a lot of fabulous and practical advice for loving a spouse well and enduring difficult times based on biblical truths for a modern day marriage.
