## From Reader Review Backstage Pass for online ebook

### Lisa says

?

Quick short story. The rockstar life isn't all he wants he wants more. And he sees her in the crowd.

---

### Becca says

#### Intro to the band

This is just a short story to give those who haven't read the series a glimpse of the band. Sold me. I'm off to buy the series.

---

### Elizabeth says

M'kay - this little bit of a story needs a major warning.

The story that is actually here is less than 1/3 of the kindle file. The rest is preview for the first book in the related series.

This is really just a scene of sexy time with friend time after. We never even learn The name of Trey's love interest.

This is something that should only be read by someone following the series.

---

### Karlyflower \*The Vampire Ninja, Luminescent Monster & Wendigo Nerd Goddess of Canada (according to The Hulk)\* says

#### 1 Star

What makes a short story complete in its own right? What validates it to be its own entity, apart from the whole? I don't require that it, necessarily, tells an entire tale or that it has a cohesive beginning and end. I do, however, require it has some manner of range. This does not.

I'm sure for someone who has read the other books this is a nice little series of moments but it isn't its own story. Not even in part. In fact, it doesn't even start out *trying* to be so far as I can tell. That in itself, my debacle of what makes a short story a short story, is not enough for me to one star anything, though.

My internal debate aside, I found [Backstage Pass, A Back-Up Series Short Story \(The Back-Up Series\)](#) rather poorly written. The male love interest skirts the line – or rather hurtles over it entirely – between confidence and cockiness far too much, for my liking. There is a distinction between these two personality traits and where that divide is often has to do with a person's own history ( I am aware). In my opinion, Trey is extremely narcissistic and that leaves a sour taste in my mouth. I do not care for characters in a love story, even a short continuation of one, being more in love with themselves (and their own infamy) than their

partners. It's problematic.

On another note, I think this short story is actually only about 30% of the page length of the ebook, the rest is that *lovely* preview of other books garbage that makes me teeth gnash.

## **B. C. Booklover says**

### **Glorious Trey**

This short little novella (free right now on Amazon, to be read after *The Devil's Lair*) features bad boy Trey Taylor, bass guitarist for *Devil's Lair* and until recently, a dark and mysterious dude with a closed book attitude that no one was getting to read. This is a quick but certainly worthy look into this sexy, alpha's mind from his POV as he ponders how finding his bandmates and then his soulmate has effectively changed his life for the better in so many ways.

This is the last book in the AMAZING rockstar romance- Back Up series, before the release of the final book that will conclude(see me crying) the unforgettable story of the band, *Devil's Lair*.

OMG, how I will miss them. Binge this series quickly so you can be ready for *Sold Out* which is coming in February '19. You seriously do NOT want to miss out on this, one of my all time favorites now that I've found them. A.M. Madden has a way with words and painting a visual picture that is hard to put down or forget.

---

## **Kelli Santistevan says**

I enjoyed this book.

---

## **Beneath The Covers Blog says**

A very short, yet sexy and steamy story about Trey Taylor! It has everything from humor, to no-holds-barred sex, to unconditional love. I just wish it was a little bit longer...cause I'll never get enough of *Devil's Lair*!

~Kelly

---

### **Nicole Anderson says**

Quick and easy read but not sure that I'm a fan of Trey, the other characters seem more interesting

---

### **Stacy Jo says**

Perfect Trey it's a short for a reason but do not read it before Backstage!

---

### **Becca says**

Backstage Pass is a Devil's Lair quickie that holds all the mischief and heat that I've come to love from A.M. Madden's crazy crew. A.M. delivers more of reader-favorite Trey Taylor in this tasty little treat, sparking some serious nostalgia for the Back-Up Series. We get a fast rundown of how far Devil's Lair has come since the band first began, the epic adventure their journey to the top has been, and the turbulent emotions Trey and the rest of the Devil's Lair family have faced along the way. In no time at all, A.M. Madden has readers experiencing that rock star rush that makes this series so magical, allowing readers to lose themselves in the thrill of another Devil's Lair performance. Backstage Pass is absolutely sizzling and Trey Taylor's filthy mouth doesn't disappoint. I was giddy all over again at the fact that Trey has so clearly met his match in his darling little vixen as is evident in their amusing push and pull and explosive chemistry. These two are absolutely scorching. The tiny glimpse of Hunter we got at the end has me craving a book for him ASAP! I just love his adorable personality and hilarious antics. A.M. Madden delivers all the intensity and raw passion I've come to love in her novels in this deliciously steamy short story, making Lair Lovers everywhere fall in love with the Back-Up series all over again.

---

### **Krista Webster says**

This was starting to be a good insight into Trey when it suddenly finished at 30 % and continued with the first two chapters of the first book in the series. Left me wondering when this took place and who the girl was?

---

### **T. says**

I downloaded Backstage Pass as a free novella from Amazon. It was an okay read-- it's a novella (finished at 30 percent then had fillers), so readers can't expect a whole lot of depth, but Trey is a bit of a controlling, self-centered ass, so I didn't care for the character at all. Backstage Pass may appeal to some readers, but it wasn't my cup of tea.

---

### **Amy Pedrick says**

**I can't believe I'm posting something other than glowing BUT...**

I have been a huge fan of the Back-Up series and when I stumbled on this little novella I thought asking a dollar for 28 pages was pushing it, but after reading it, it was just insulting. It was one sex scene that I think came from an earlier book with a plug to garner interest by including the first two chapters from 'The Back-Up'. I'm not even sure that the novella was really 28 pages; I read it over two commercial breaks while watching TV. I want to believe that this is a publishing company's greed and not the indifference of a writer to make her fans happy with a good product, so that is what I tell myself to feel better about wasting yet another dollar on recycled verbage and a teaser for a book series most of us already have. The whole novella thing is really wearing me down as a reader, but selling me this is enough to make me not want to buy any future books either.

On this one, I'm gonna suggest that you "PASS" on this "Backstage Pass". And maybe think twice before blindly clicking on a favorite author's works--it might send the message that we need our dollars more than they do and half-assed bits of crap ain't cutting it anymore.

---

### **J. Kahele says**

This was a small taste of the Back-Up series. I am looking forward to reading it.
