Sex On The Beach

Olivia Thorne

Sex On The Beach Olivia Thorne

SEX ON THE BEACH is a blend of sensual, erotic romance with sweet & delicious head-over-heels love.

HEA, no cliffhanger, no cheating, and a fairytale romance with a bad boy who's complex but magnetic - and of course, heaps of hot, juicy, passionate sex!

Katie is running from lies and heartbreak back home when she crosses paths with the most intoxicating man this sweet but sassy Kansas girl has ever laid eyes on.

Ian is a surfer in Venice, California. 6'3". Body of a Greek Adonis, face like a Calvin Klein model... demeanor of an iceberg.

After a random and painfully awkward meeting, what follows are surfing lessons, ice cream on the boardwalk, and lazy summer days on the beach. As Katie and Ian spend more time together, they begin to fall in love. Hard.

It's perfect. Until it's not.

Ian has secrets he's hiding - a dark past he doesn't want to share.

Katie swore she would never let a man lie to her again... but when do secrets become lies? And despite a passionate love and an unwavering bond, can Katie forgive?

From Reader Review Sex On The Beach for online ebook

Tricia says

Sex on the Beach is a love story starring Katie and Ian, who are each running away from their pasts and are both keeping secrets from the other. A chance meeting at the beach initially sparks some interest but it isn't until Ian saves Katie from a terrifying situation that things start to heat up between them.

This book is overall a lighter read than the other Olivia Thorne books I have read. It is well written and the sexy times between the characters are smoking hot. Ms Thorne certainly knows how to write a wonderfully erotic scene. I found Katie a little annoying at times but her reaction to certain situations is clearly because of her past experiences. Both characters are strong and there are misunderstandings along the way but also fun, laughter and a growing love between them.

We are also introduced to Ian's quirky, geeky and outrageous friends and I can't wait to read their stories too.

Diane Vandergriff says

I voluntarily read and reviewed an Advance Reader copy of this story.....

And then I bought my own copy! I love the cover - it's enough incentive to purchase the book! Ian and Katie are exceptionally hot together with off the chart chemistry. I don't understand why Katie fell for the information she got from Ian's ex. You know they're going to be vindictive. Why fall for it? I can't wait for book 2 in this series! Who will it be? By the way, when Connor Templeton made an appearance, the tears starting rolling! I love that man!!!! I'm glad he had a heart-to-heart with Ian and shared his experience! I miss Connor! If you haven't read Connor's story - you need to!!!! It's a MUST read!

TB says

I kindly received an ARC of this book in exchange for an honest review.

I have read and enjoyed a lot of her other books, so the bar was pretty high. This one did not disappoint, it was wonderful! I loved this book! There are not many authors out there that can make you cry and laugh, practically in the same paragraph, but Olivia Thorne is one of them! Such a great book. This was not your typical romantic mushy love story. This had so many real moments between the characters that made you feel like you were right there with them. I cannot wait to read the next one in this series! Oh and the sex scenes were fantastic!! Holy hotness!! Let's just say I want to go on a beach vacation, learn to surf and invest in a jet ski!!! ;)

Julie says

I received an ARC in exchange for a honest review.

I really enjoyed reading this book about Katie & Ian. They are both hiding out at Venice beach. Katie has run away from her ex-fiance, her upcoming wedding and her parents. Ian is hiding from his life as CEO of his

technology company. They first meet at the beach and things develop between them quickly. They are smoking hot together.

Karin says

I'm a huge fan of Olivia Thorne's and this book didn't disappoint!

Katie is running away from her family and ex fiancé and ends up in Venice where she runs to Ian (who is also running away from his life) while returning his sex wax. And is immediately attracted to the sexy surfer only to be blown off.

After he saves her from a horrible situation she twists his arm to teach her surfing and the sparks fly.

Katie was a funny but slightly annoying at times but, her past situations make you understand why. Ian is extremely guarded but is adorable and funny. But the best part of the book for me was Ian's friend Vic!!! He was a cocky man child but, was so funny!!!!!!!!!! And I loved that Conner makes a quick Cameo, I've missed him, lol!!!

I voluntarily reviewed a ARC copy of this book

Michelle Damron says

Okay read

Liked Ian and Katie ok. Felt it wrapped up too nicely and quickly. I wanted something a little more I guess. Would have been better if something happened to Natasha. Love it when people get their just rewards!

Tassa DeSalada says

This book makes me feel really sexy!!

Elle Christensen says

4.5 Stars!

Olivia Thorne writes some of my favorite billionaires/Millionaires. Sex on the Beach just added one to my list! Ian is certainly dreamy! This full-length novel was fast-paced and full of emotion. It's a fantastic escape from the real world with its steamy sex, delicious alpha hero, and a spunky heroine.

Katie is a loveable character, though she can be a bit of a contradiction. It's hard for a lot of people to see the bad situation they are in when it creeps around them, so I certainly don't blame her for being blind to it. Especially when you have been pressured into being perfect for so long. But, once she breaks free, her overwhelming guilt at her actions was just a tad hard to swallow. It could have been a little less intense and still gotten the point across, especially considering the events that unfold as the story continues. But, she was

smart, full of fun and wit, often making me chuckle at her antics and banter. Her determination to move forward with her life, despite the truly oppressive strongholds that her parents and ex try to cage her with.

Ian has been through a lot too, though his problems are certainly night and day from Katie's. Well, except the devil exes. He's feeling lost, but when he meets Katie, it's like he finds a piece of himself again. The more time he spends with her, the more he puts himself back together. His fear of telling her the truth about himself is very valid in the beginning. However, as time went by and Katie proved herself, he was a bit bullheaded about it. Stubbornly refusing to believe what was right in front of him was real. Not an unusual guy trait, you must admit. But, I loved his sweetness, his alpha dominance, his intellect, and so much more.

These two have an explosive relationship, and I don't just mean between the sheets, though they burn really freaking hot there too. They went up and down really fast sometimes and it made my head spin just a little. Fighting, making up, fighting again, making up, all in one scene. The highs and lows could have been spread out a little more to make them less overwhelming. However, I love these two as a couple and was left with a smile when they finally got their HEA.

The cameo with Connor Templeton was a lot of fun too, it made me anxious to go back and do a re-read of his books as well. I hope to see more books like this from Olivia in the future because it was fantastic and will definitely be a re-read for me!

Trina Raven says

Loved it

Considering I got this book as a free download ,I thoroughly enjoyed every second of it loved the character's too

SyLvIa says

[2 stars] the pov between katie & ian doesnt seem very balance. like for the 1st 27 chapters, it was katie's pov, and ian only have 5 chapters before it switch back to katie again. switch of pov not very smooth. also the popup of natasha's pov was weird, dont think its required, and also i still dont know what she wants by telling katie who ian is. overall so-so book only.

Lori says

2.5-3 stars purely because I could not stand Katie's character. She acted like a fourteen year old spoiled, insecure attention whore of a brat! What the hell would any guy find desirable in that kind of person? The writing was good but I honestly didn't like either of the main characters. Vic was the best, at least he had a personality.

Tracey says

Sex on the Beach is Katie & Ian's story.

This was a really enjoyable read & I was sad when it ended. The characters were well written with some laugh out loud moments and the pace of the story was good. Some of the best sex scenes I've read in awhile.

I was a bit disappointed with Katie and her "test" although I am glad they worked through it.

I enjoyed Ian's character and though initially I didn't like Vic and Bryce I came to really like them in the end. I am so looking forward to Vic's story and can't wait to meet the woman who will bring him to his knees.

If you're looking for a great read then Sex on the Beach is the book for you.

ARC received for honest review.

(Nat) Reading Romances says

A spicy summer romance

This was the first book by Olivia Thorne that I read. It's also the first book in a new series, the Bad Boys Club.

As the title says, it's a summer, light romance but with very hot and inventive sex scenes. the main characters felt tangible and the conflicts they went through were very authentic and substantial to the story. Katie and Ian worked well as a couple, it was an insta-love type of romance.

The book wasn't too short, nor too long, well plotted, and the pace of the story was good. I had a great time reading Sex on the Beach and plan on reading other books by the author.

I voluntarily reviewed an Advance Reader Copy of this book.

Ann says

Steamy, but not enough to make you sweat

I found this book to be alright. I thought the sex scenes, while hot, were too much the focal point of the book. The story was a good concept, but I felt that more details and perhaps a steady pace would've been better because it felt rushed at the end. Overall, I give it 3.5 stars.

Tmara says

SLIGHT SPOILER WARNING

This is a short & sweet read!

I liked the fact that both main characters, Katie & Ian, were both strong and not pushovers.

At first, I was a little put off with Katie because I thought she was a little pushy and forward towards Ian. But as I read along, I realized that I had MISTAKEN her confidence as a negative thing. She was young, and beautiful but due to her recent awful experience with her ex-fiancee, she just wanted to live and enjoy her newfound freedom. It was an ah-ha(!) moment for me. I would enjoy myself too with a hot surfer (or two) after being dumped on for years!

Ian's character was the complete opposite of Katie. Due to his past, it has shaped him as suspicious and grumpy. But he was also hot and brilliant (oh yeah). It kind of reminded me of a young Connor (from All that He wants) Brooks, which by the way, has a little cameo... *swoon! But of course Ian's grumpiness and skeptic attitude didn't deter them with their insta-love. Yikes! Within a month or so, they started talking about marriage and kids! Oh boy! I guess... when it's love... *sigh. When he started thinking and talking about their future together, it was so romantic. I had the butterflies in my tummy.

I think the best part of the book was when they were together for weeks and got to know each other.

*wink... *wink ;). Awesome & hot!

Vic & Bryce (Ian's friends and business partners) were great addition to the story. They added another level of entertainment. Vic's outrageous parties and over the top spending habits were very Hollywood. While Vic's stoic, and geeky personality was a breath of fresh air. I mean, not every friend needs to be hot and good looking. Come on!

All in all, this was a really good read. I've been reading a lot of dark books lately and I just got the blahs (if you know what I mean). So, this was a nice reprieve. Loved it! This is one of those books that you'd like to re-read a few times. So, you should buy it... now.
