Kate Benedict Series 1-3 Carrie Bedford

A PARANORMAL PUZZLER MEETS SCOTLAND YARD—at a smashing 3-in-1 price!

Kate Benedict is a London architect turned **psychic detective**. She's competent, reasonable... and somehow able to see a death-predicting aura over the people around her—from the new prime minister to her oldest, closest friends—through the posh streets of London to the beautiful Tuscan countryside. And she can't help but help others avoid the unthinkable at all costs.

Fans of **traditional British** (but not too cozy) **mystery**, savvy **female sleuths**, and **suspense with a metaphysical twist** will love this **paranormal trilogy** —now available for a *killer* price!

THE AURA

Life spins out of control for London architect Kate Benedict when she sees a dancing aura above certain people's heads that seems to signal death. **Suddenly she's psychic**. But that can't be! Psychic's not acceptable in her circle, where the supernatural is strictly for the superstitious. And yet...people are dying. People close to her.

Kate's tentative attempts to talk about her new-found metaphysical gift are met with eye rolls, so much so that she can't even tell the nice Scotland Yard detective who's investigating the death of a close friend, Rebecca Williams. And now Rebecca's neighbor has an aura.

So what's Kate to do but try to save him by turning detective herself? A break-in and attack on her boyfriend confirm that the murderer's catching on that Kate knows too much. But he (or maybe she) has no idea that **what Kate knows is a little on the paranormal side**.

DOUBLE BLIND

Two politicians and her best friend have the death-predicting auras London architect Kate Benedict can see despite her most fervent wishes. She's had the dubious gift for a year now, and suddenly there's no longer any ignoring it.

But the only way to get to the two pols is via her old friend, DCI Clarke; yet her warnings go unheeded. Her frustration builds when her best friend, Anita, refuses to believe in their existence as well — even when one appears over Anita's boss in the hospital where she works. **And then Anita develops her own aura**.

THE FLORENTINE CYPHER

London architect Kate Benedict's weekend **begins with "Follow that cab!" and takes us off and running on an international adventure**, ticking off picturesque locales from London to a Venetian palace and the

Tuscan countryside, pausing just long enough for a quick tour of Florence's Duomo, **with danger dogging every step.**

What began as a quiet Friday night dinner date with an old childhood friend turns into a manhunt when Kate arrives at the rendezvous just in time to find her friend Ethan leaving in a taxi. **Kate is alarmed to see the distinctive swirling pattern above his head that only she can see, and that she has come to recognize as a portent of imminent and mortal danger.** When Ethan's disappearance is followed by a series of cryptic text messages, Kate goes looking for him at his sister's house in Florence, Italy, but it's immediately cl

Ellen White says

THE AURA

Interesting plot, giving readers details of what she is seeing, and how it is affecting her. Telling a few people, and hard for them to really grasp of what is going on with her. People are dying that she has recently seen. Is there a connection, and how can she go about her daily life, afraid of what she may see next. I thought very well done, and of interest to go on to the next book.

DOUBLE. BLIND

Kate is in big trouble seeing the aura around the new Prime Minister, then more, one of which is her friend Anita, who doesn't believe Kate. Kate goes to the trouble to find out where they will be at, rather a press gathering, out in the park, etc. Do they believe, nice surprising ending in this one. This is a good following to the first book in this series, and enjoyable read.

THE FLORENTINE CYPHER

To have dinner with Ethan, and he's not in his office, or answering text messages. Finally a text, that didn't make any sense, to get a book. He wasn't in his apt, yet, window was opened and rain coming in. Ethan was eccentric, I felt like I was protector for him, of what was going on around him. In a cab, going to her father's place, a false road sign, and her bag was taken. Then another attempt to get her handbag, they are wanting the key.

Well, thought out mystery, that has a lot of twist to it. Where is Ethan and how was he involved. An usual series, that gets deeper with each book, will be looking for more by her. The plots are different and interesting. Like the nun told her, she was willing to risk it, to help save someone.

Michaels Tetteh says

Loved it. Very thrilling and an edge of your seat feeling in every story.

Casey says

Riveting

Kate faces some really difficult decision, dangerous situations and has a talent she really didn't choose to have.

I think she handles all of it with more courage and determination than most would not!

Madonna Dolin says

I enjoyed reading this set. I already had book 1 when I got the chance to get the series. Would have liked Kate being able to help more people with her gift though.

Gabrielle Martin says

New!

The "Aura" is a great new personality trait. I love it. The fact she gets this talent after her mother dies is interesting. The Aura only appears when that person is close to death. Kate is able to save some. I hope there are many more In this series. Thoroughly enjoyed the books.

I have left individual reviews for each of the 3 books so I will not do them here. I will say you really get your moneys worth with is book set. I am in love with the series and and so happy I gave it a try. The death aura thing made me paws but it only added to the story line and really was not weird. Carrie Bedford does not dwell on it either. But I do have to say that the mystery part of the book is top notch. Can't wait for book 5.

Lorraine says

Auras and crimes

The Kate Benedict series is interesting and full of action, with Kate getting into trouble trying to help those she loves. Plots are well researched, fun and characters likable and believable. Places feel real and scenes well developed.

Marion Martin says

Didn't want to ever put it down.

Style, content and character development are excellent. This series was entertaining and really held my interest from start to finish.

Barbara says

What does your aura say about you?

Book 1 Aura. Kate starts seeing whirling auras over peoples heads and the faster they spin the more imminent and maybe violent the death.

Book 2 Double Blind Kate's friend I'd a pediatric surgeon and gets involved with some clinical trials that causes her aura to spin crazily.

Book 3 sends Kate to Tuscany to try and save a friend and his sister who's aura has led Kate to Italy. Some one trying to kill all them.
