**Forsaken** Michelle Dorey

**Enough is enough...**

Keira and her best friend Gwen tackle even more foreboding ghosts in their mission to maintain the integrity of The Veil. Some souls are confused, some are angry, and some are trapped in this realm. It's a daunting responsibility, and has become her life's work. If the spirits of the dead do not move on, the very fabric of the universe is threatened.

But now a greater threat has returned. A demented enemy wants to not only stop Keira's work, he wants to destroy The Veil. When it crumbles, he will ascend to unfathomable power. Unable to accomplish this alone, he'll stop at nothing to conscript her in his quest.

Her new life, and the lives of those she loves are at stake. She has to face her enemy and bring an end to his insane plan. She dares not risk her loved ones again. Her own powers have flourished; she can do this. She has no choice but go it alone.

*In her decision, she finds herself forsaken.*

#### **Best one yet!**

So the story continues and gets more interesting with each book. Ascendant is next, said to be out spring of 2018! Well, it's almost June, and I am waiting patiently. I haven't seen it as of yet. Great series!

Good fast paced story line with several interesting characters (especially the indigo children). I enjoy Michelle's writing style and look forward to more of her creative works to come. Michelle, keep going to your coffee shop! ;-)

#### **The Third Book**

Again, Michelle Dorey, has totally captured my attention.. The characters keep evolving and revealing more of themselves. For many, their powers increase. Keira matured even more and realizes what love really means. I can hardly wait for the next and, sadly, the last book in the series!

**Hooked**

I've really enjoyed reading this series. The only thing that truly annoyed me was the stupidity of Keira not learning lessons from past experiences but other then that a good read.....

**LOVE this author!**

Great story, great action, no xrated nonsense. I would allow young girls to read any of the 5 books I have read so far. It is more than refreshing to not have to skim thru pages of erotica to get an awesome paranormal adventure. I'm no bible thumper, but I find it annoying when every paranormal book I try to read serves up a large side helping of soft, even hardcore porn. This author is an amazing story teller, her characters well developed, and I could not be more thrilled to have stumbled upon her. SO talented. One of my new favs for sure, looking forward to reading more of her wonderful work!!!
