Melanie Macek says

4.5 stars - I am still new to the Erotica/Erotic Romance genre. I'm still wrapping my mind around the dominate/submissive aspect of the story. After receiving an anonymous text, Kate starts living out her deepest secret desires with a mysterious man who doesn't make his true self known to her until halfway through the story. When he does, they both start to feel a deeper connection than they've been experiencing up to that point. They learn not only about each others pleasures but also how to trust one another.

I won't tell you who the man is because I think that would spoil it for you. Once he is revealed, Kate must decide if this is the lifestyle she wants to lead or if she's willing to continue on as she as, unfulfilled and unsatisfied.

At it's heart, this is a story of a woman finding herself and being comfortable with who she is. It's about being strong enough to let someone else be in charge, knowing that to submit to passion doesn't necessarily mean a person is weak. It's ultimately about trusting another soul completely. There were a few things that I didn't quite get into, but that's just me and my lack of exposure to the lifestyle of dominant/submissive.

Her Master's Voice by Vivien Sparx – A Southern Erotic Romance Review Book Review

Book Blurb for Her Master's Voice

When young Kate receives an anonymous text message she doesn't realize how much her world is about to change. Surrendering to her inner most desires Kate soon finds herself submitting to the erotic, sensual and sensitive demands of her mysterious Master.

Drawn into a world of erotic love Kate quickly realizes all that matters in her world is Her Master's Voice.

A story of Approx. 20,500 words.

This new edition includes BOTH 'Her Masters Voice' and 'Her Masters Voice 2' as one complete story.

My Review

What is a 23 year old, Catholic girl, raised by her middle class family to be a conservative young lady to do when she gets a text message from a wrong number? Why respond of course! Kate can't help but respond to the voice that's been on the other end of her cell phone for the past 3 months with eager anticipation, willingly accepting her Master's demands. Dillion J. Matthews is seeking a submissive to complete his dominate nature, and refuses anything less than everything his slave has to give. Business matters, seductive wives and momentary bouts of insecurity threaten everything they have built together. Will the Master keep his slave forever, or will he remove her lock and set her free?

This is a short read that won't let you put it down for a minute. Vivien Sparx has created a couple that you just have to know what happens next. The plot that goes along with the building relationship only adds to the book as a whole. I loved that the shy, young woman we are first introduced to, grows into the confident

woman that knows exactly what she wants out of life.

My Favorite Quote

“You are mine to touch...” her Master said softly in her ear. Kate held her breath.

She felt him cup his hand around the heat of her body, his fingers light and teasing. Kate screwed her eyes shut behind the blindfold.

“You are mine to arouse...” her Master whispered.

His fingers found the inner folds of her body and he began to probe and explore. Kate began to tremble. She felt the wet heat of herself between her thighs.

“And you are mine to pleasure.”

Wham bam thankyou Vivien

Sexy and sensory, lascivious in its intent to raise the temperature.

Her Masters Voice is a glimpse into the life of a Sub/Dom relationship, a quick easy read by an up and coming Author that I personally can't wait to read more of.

Considering the length of the story I was pleasantly surprised to go from entertained, to enthralled to satisfy but wanting more, the perfect combination for a reader.

Wow. How exhilarating it was to read this book! Kate only know her Master by his voice. He instructs her to be his submissive and by her obdience and enthusiasm to please her Master they continue to take their relationship to new levels. I liked where this book headed towards, excited to read HMV2!

Renee Booth (Sassy Book Lovers) says

Erotic, sensual, romantic, SMOKING HOT! This short story will have your senses tingling and your toes

curling. A faceless Master brings a heated mystery to the Dominant and Submissive relationship that will leave you heated to the core.

Sparx packs a lot of punch in a short amount of time. HMV is amazingly written and easy to read. The story just flows. It may be short but it is the perfect erotica. Sexy and thrilling.

Her Masters Voice really surprised me in a way I wasn't expecting ~ sure I knew I was going to be reading a very steamy read and I admit I love those but what really shocked me was how much I really enjoyed the WHOLE premise behind this very quick read ~ maybe it was quick because of how much I loved it and couldn't put it down ~

Imagine being in Kate's shoes and receiving a text message from an unknown stranger who you immediately connect with and then you start to receive instructions from this "stranger" telling you to do things beyond your comfort level but you do them because you can't bare for him to cut off all further communication~ That's what happens to Kate and she quickly learns how submissive she is to a very dominant man and how beautifully submissive this dominant man thinks Kate is.

Your first meeting is blindfolded and you receive pleasure beyond your imagination, second meeting far surpasses the first and again your blindfolded ~ all you know is the intoxicating voice but not the man behind the voice. Well Kate soon finds out who that man is and part of this intoxicating read is 'who' is behind this and what feats Kate will go to prove to him she wants him and only him and what he asks of her is from a past that is imprinted on him and he refuses to allow history to repeat itself.

I highly recommend this 5 star deliciously sexy read which will have you fanning yourself and at times blushing for Kate and then jaw dropping when "he" is revealed. This is one super sexy read that will stay with me for quite some time!

Between the Bind says

Part One

Kate met Master by chance. An accidental text message that turned into the most beautifully fulfilling relationship she's ever had...with a man she's never met.

During the day, Kate is an advertising representative for the large ad firm Matthews & Son. Her day to day life is filled with the same as anyone else - stress over her firm's potential closing, money concerns, and date spilling with the girls. But meeting Master allows Kate to move past the stress in life and just be. She isn't

able to think of anything else when he takes over because he demands all of her, body and mind. She wouldn't have it any other way.

Allowing herself to let go of the preconceived notion that she must "know" her Master before she loves him, Kate still cannot stop herself from dreaming of the day she actually meets him. Master finally says that he is coming to her house, but that she needs to remain blindfolded. After pleasing her competently, Kate is left reeling until their next meeting, with another blindfold, and new way to be completely completed.

I really enjoyed this story. It was a very quickly paced read with sexy and demanding scenes that I couldn't stop turning the pages of. I couldn't wait to see where Master brought Kate next. Taking the absurdity of inviting a lover you've never met into your home and putting it aside, I really enjoyed the concept here and it was easy to get to know, and like, the characters.

Vivien weaved a sexy web, filled with a young woman trusting a man she's never seen to take her to and then past her hazy line of sexual desire. Master pulls Kate out of her shell, revealing herself to him completely before he finally shows her who he is, and for Kate, it's perfect.

Part Two

In part two, Kate has decided to marry Master, who continues to push and explore her relentlessly. The story begins with the two in a lingerie store, trying on pieces for their honeymoon. After Master leaves Kate for a moment, a man appears in shadow and takes her forcefully in the dressing room. Kate seems confused although pleased by the experience and although simple to follow, the confusion of whether or not she was with the right man was difficult for me to understand.

When discussing with Master this encounter and her thoughts, Kate says that she knew it was him the whole time but that just wasn't clear in the writing of this scene.

Kate now gets to meet Master's ex-wife, Samantha. Feeling like a mouse in a room of beautiful tigers, Kate retreats into herself and losing some of her trust in Master, allowing jealousy and confusion to rule her thoughts. Samantha misleads Kate, and now Kate is paying the price - her lack of trust may have ruined the best thing she's ever had.

Disregarding the part in the beginning, I loved this second installment. Kate explores with Master as he pushes her to places she never thought she would go and into someone's bed that she never saw herself going into. Having a w/w experience in this book was very interesting, but I understood the necessity of this exploration.

I cannot wait to read the next part in Vivien's series. Well-developed, sexy as all get out, and honest in its entirety, this short-story is one to add to your to-read list.

A very mysterious, erotic and passionate short that kept me turning its pages until the very end, you have a perfect amount of BDSM, excitement, a touch of voyeurism and great surprises that any erotic romance reader will love and be left wanting much more, just like me :)

Kate replied to an anonymous text message and her life drastically changed, for the better. Putting her trust

to a voice, one she has no face to put to it. She becomes a submissive and he her master and she loves every single second of it. The day finally comes when he asks her for her home address and she willingly gives it, anything to finally see the man behind the commanding and desirable voice of her master. She's always done anything at the command of her master's voice. But will things change when they are finally face to face, when he sees her in person?

I look forward to see what happens next between this sub and her master. This is a very original BDSM read that is tenderly written and a complete addiction!

Emma says

The first sentence "Tell me what you are wearing" got me to want to read more. I wanted to learn who these characters were and whether Kate would continue with the relationship without even knowing the guy. I was able to understand very well where Kate was coming from. Even though the story started in the middle (how most stories begin) I liked the fact that the author explained how they met and how their relationship evolved.

What I liked most about this book is that it explained BDSM, what it was, how it worked, what the roles of dom and submissive were. It not only had sex, but a story behind the act. Something that always keeps me reading :-)

Melanie Synard says

Is it possible to change the course of your life with a text message? can you fall in love with a man over the telephone? Anything is possible in a book and from the mind of a talented writer. Her masters voice tells the story of Beth and her submission to a man she only talked to on the telephone, She trusts her new master and his first visit to her apartment is worthy of her trust. Just like any relationship they have hurdles to overcome but in the end they come out on top and together. This book is a hot steamy must read for anyone interested in BDSM type stories so if you haven't read it yet what are you waiting for? I promise Vivien won't disappoint.

Fiona Wilson says

Earlier I reviewed Her Master's Kiss by the same author. Again, in this story, the author has managed to get inside the head of the master and the submissive in this story. But any similarities between the two stories end at the start.

Kate is a young woman who receives a text message by mistake, or so she believes. This text starts what will become a master/sub relationship. Kate adapts to being submissive very quickly. Even though she has never met her master she allows him to dictate what she should do, what she should wear.

Kate's work life is going along very well until rumours begin to spread that the company is in trouble and

there are only a few weeks left before it closes.

Called to her bosses office she believes she is going to be sacked, but what happens next turns this story totally on it's head!

I was of the belief this story would be the same, or along similar lines, as Her Master's Kiss. But I was mistaken! This was so much more than that.

In this story the author explores the relationship between master and sub a lot more. We find out that every second of every day has to be dedicated to the relationship in certain ways. The author explores the relationship outwith the relationship itself. By that I mean she has extended this story beyond the bedroom, taken it outside the safe haven of privacy, and she introduces more characters than just the 2 within the relationship itself.

This is the third book by this author I have read and reviewed, but it won't be the last. I have several other books still to read, and I am looking forward to her new series which is being released on a daily basis from this Friday, March 15th. Look out for a few more reviews very soon, perhaps even today!

This is a short story that packs a ton of heat! Good lord! I have to say I wasn't sure what to expect as this is my first journey into Vivien Sparx's world of Domination and Submission. I loved it! I would happily have traded places with Kate in a second to be next to Dillon!

Ridiculously sexy and erotic, this book takes you on a pretty fast journey of two people and how one decision can change your life in an instant for the better! I knew Kate would do absolutely anything her Master required of her, no matter her uncertainty. And there was something profoundly powerful behind that.

I highly recommend you take the time to read this! Don't over think it, just feel it!

Kate & Dillion.... wow what a fantastic story, had me gasping from beginning to the end... the imagination Vivien displayed showing the intensity of the scenes as we met Kate and Dillion was erotic and dangerous and fulfilling and loved reading the story of love, danger, anger and connection.... I wish I only had half of the talent Vivien has when writing these great stories... looking forward to what comes next...

Tiana Dalichov says

For being such a short story, this erotica really takes the cake. I love the relationship between Kate and her

Master (just saying that word makes me tingly *shiver*) was really interesting to read about. To see how devoted she was to obeying him...in a way it was a little strange, but it was also really sexy.

The writing was pretty good, too. Writing sex scenes is extremely difficult for writers these days, but I think Sparx has it down pat. I read this in a little under an hour...that's how absorbed I was into the story.

Love, love, love! ;)

Nightstand Novels says

Her Master's Voice was a short and sexy read. The premise was a good one and somewhat unique to the normal dom/sub story lines. I love the idea of submitting to an anonymous, faceless dom...something about it just screams danger and excitement.

The story started off well and then tapered off a bit once the mysterious Dom was revealed. While there was definitely a physical connection between Dillon and Kate, there didn't seem to be much more than that. A bit more character development was needed to keep me fully engaged as I found myself wondering how Kate could blindly trust and obey a voice, belonging to a man she's never met. The bit of a back story on Dillon gave me a bit more insight into the man but Kate's was virtually lacking. I found it hard to connect much with either character.

The sex scenes were well-written and not so "in your face" and the addition of Samatha added an twist that I definitely didn't expect.

Over all, Her Master's Voice was an okay read that could have been much better if it were a bit longer and more detailed but if you're looking for a quickie with a twist. Her Master's Kiss may just be the book for you.
