Insider Olivia Cunning

Toni wants to be an insider.

Logan just wants inside her.

She's finally ready to rock...

Toni Nichols set aside her dreams to raise her little sister, but now she's reaching for the stars as the creator of a revolutionary interactive biography about Exodus End. She's on tour with the rock band to immerse herself in their world, but how will she ever gain the trust of four veteran superstars who've been burned by the media before? Nobody said this was going to be easy. Then again, good things can come in hard packages.

He's always ready to roll...

Adrenaline junkie Logan Schmidt lives for the rush of playing his bass guitar before thousands of screaming fans. When he's not performing onstage or in the bedroom, he's looking for his next thrill in extreme sports. So why does a sweet, innocent journalist get his heart pumping and capture his full attention? Is Toni the real deal or just digging up dirt on his band? Logan's eager to rock Toni's world and roll her in the sack, but when she starts to get too close to his heart, she takes her insider look to a place he may never be willing to go.

Lana ❄️Dirty Girl Romance❄️ says

5 Stars!!

What are you going to do to me?"

"Lamb, the question you should be asking is what aren't you going to do to me?"

No one and I mean **no one** can write an erotic rockstar romance quite like Olivia Cunning. This book served as the perfect reminder of why I fell in love with her writing and characters in the first place when I first discovered her Sinners series years ago. But this book? This gloriously sexy and make you laugh out loud like a loon book? This is easily my favorite book by this author to date. Coming in at over 500 pages, I never wanted it to end. Yes, it's long, but never once did it drag, never once did I want to skim, and never once was I bored. Never. I can safely tell you that Insider was very much worth the 2 year wait because it was just **that** good.

So what did I love about it? **Everything**. But I suppose I can give you a list since I'm generous like that.

First there was Toni Nichols, the adorably naive virgin with the heart of gold and a quirky habit of collecting mismatched socks. I cannot even begin to tell you how much I loved her character and I'm usually not a reader that enjoys reading about 25 year old virgins. But Olivia Cunning managed to create such an incredibly endearing heroine with her that you can't help but love her right away. I could also understand how growing up the way she did with a mother that's more wrapped up in her job, losing her father young, and caring for her special needs sister would explain her current hymen challenged issues. She was just adorably clueless about everything. And while normally that would annoy me, here I just couldn't get enough of it.

With her mother owning the company she works in, she never quite felt like she belonged. But then she gets the job of a lifetime going on tour with Exodus End in order to create a revolutionary interactive biography about the famous rock band. This of course lands her right in the path of Logan Schmidt; adrenaline junky, manwhore, and the band's super sexy bassist.

The chemistry between them is instant and absolutely sizzling. And soon Toni begins to get the lesson of a lifetime in more ways than one...

You're sensitive," he murmured to her belly button. "I can't wait to latch on to your clit. I'm going to suck it until you come so hard you scream."

Toni's knees clamped shut again. he was going to do what to her whozit?

I loved how naive and clueless Toni was about most things and Logan's ways of teaching her. I just loved these two together. They never failed to spice things up but with a signature humor to it all that made this book absolutely unputdownable.

I can't wait to keep you in my hotel room for an entire day and show you all the dirty things I

want to do to this body," he whispered.

Eyes wide, Toni's body stiffened. She wasn't sure if she should be excited or nervous by the prospect.

"Your pussy tastes so sweet," he said. "I'm going to start you off by licking it for hours."

Okay, excited it was.

Logan was everything I love about rockstar manwhores. Seeing him slowly begin to realize that his relationship with Toni is much more than he had intended. What's that they say? The bigger they are, the harder they fall. And when Logan falls, he definitely falls hard. It's impossible **not** to fall for someone like Toni. While Logan introduces her to the dirty side of things, she never loses her sweet disposition that draws everyone to her like bees to honey.

I also loved that no matter how much sex this book had (and it had quite a bit), it was ALWAYS sizzling hot and I never got tired of it. Olivia Cunning is probably one of the very few authors I know that can actually pull off this much sex in a book without it taking away from the story. It just fit. I didn't skim one scene in over 500 pages. And it never failed to make me uncomfortably aroused with how hot it all was.

The humor is really what took this book from a solid 4 stars straight to a glorious 5 stars for me. It was quirky, self-deprecating, and so much fun. Logan is like a teenager with ADD most times, but it just worked. I just loved him to pieces.

So whose idea was the cleavage cam?" he asked.

"Mine. It's impossible to get anyone's attention when Max is around."

"Tell me about it," Logan grumbled.

"So I figured if they wouldn't talk to me, maybe they'd talk to my boobs."

Okay, who's next?" she called out.

Logan leaned toward her chest. "I'm Logan Schmidt, and I've been a fan of Toni's boobs for almost a day now."

I also fell hard for the rest of the members of Exodus End. Miss Cunning manages to give each of them a background full of depth that will captivate the reader from the very start and leave you panting for their story. And let me just tell you, if you've been impatient for Dare's book before? This book will probably put you over the edge. Holy mother but do I need his book something fierce. We also get more peeks at the members of the Sinners, which was great; particularly my favorite threesome.

Insider is a quick-paced, funny, and absolutely sizzling sexy read that I loved from beginning to finish. Logan and Toni together never failed to make me laugh, oddly enough mostly during their sexy times. Which really just added to their appeal for me.

Raw means without a condom."

"It does?"

"What did you think it meant?"

"Well...I thought it meant you'd do it to me until my vagina got sore."

"Do what to you?"

"Pound me."

Seriously. I think I had practically the entire book highlighted with their banter.

Ouch! There's a gearshift in my ass."

"Oh, sure, you barely know this car, and yet you're already giving it privileges you won't give me."

"Not inside my ass. It poked me in the hip."

"You got me all excited for nothing. Back seat?"

I read the entire book with a huge goofy grin on my face, when I wasn't fanning myself like a maniac, of course. This had to be have been one of my all time favorite rockstar romance books that I've read in a long while. Fans of Olivia Cunning will fall for Logan and Toni just as quick as I did. It's impossible not to. I'm positively obsessed with this series already and I already know it's just going to keep getting better and better. I'm so excited to be getting more Trey with the next book (because let's be honest, you can **never** have enough Trey. But I also cannot wait to get my hands on the rest of the boys of Exodus end; Dare, Steve and Max all have such intriguing history that I already know their individual books will suck me right in.

In short, I fucking LOVED this book. HARD. If you're a fan of super sexy rockstars, this is one book that you definitely don't want to miss. Read it. Loved it. Thank me after. Trust me.

Kim Bailey says

3.5 STARS

It really feels like I've been waiting forever to read this book. When it finally arrived ... let's just say, there was a little celebrating going on in my house ... just anticipating all the **sexxy** of this book had my hormones racing. (am I blushing yet?) But seriously - if there's one thing I can count on Olivia Cunning for, it's turning up the heat!

Ms Cunning ... I thank you, my husband thanks you ... just Thank You! lol

So, like I said ... I've been looking forward to this book for a very long time.

Logan certainly made the wait worthwhile. He's an adrenaline whore ... sky diving, bungee jumping, motocross racing, ... is there anything sexier than a man with a passion for living life to the fullest? Logan really seems fearless. Until he meets Toni.

I wasn't too sure of how to handle Logan's behavior in the beginning, but he turned into such a sweetheart. And really, with all that tousled blonde hair and sexy swagger, who could possibly resist?

Toni drove me a little crazy. Introverted and totally geeky, she is the epitome of the wide-eyed, innocent virgin. Taking a chance with her career seems like the bravest thing she's ever done. Until you understand her backstory and see how she handles Logan.

At times, I found Toni to be too nice for her own good & I had a hard time with her over the top naive thinking. BUT she grew a backbone ... and her selfless devotion to her special needs sister? Gah! Unbelievably sweet.

The steam factor in this book was a little tame (for Olivia Cunning) ... which puts it on par with most other

books in the genre. In other words - it was steamy, just not as scorching hot as I was anticipating.

Overall a really good read. I'm excited to get the stories from the rest of Exodus End!

DNF

HOLY SH*T!!! "EXODUS END" IS GETTING THEIR OWN SERIES!!! OMG! OMG! OMG! OMG! I think I just: had an orgasm, fainted, screamed, jumped, did cartwheels around my house ... and not necessarily in that order!

DARE MILLS, come to mama!!!

Oh YEAH!!!

2014 you say??? F*CKING A!

Sophie **2 Greek Girls Reading says**

4 I'm-in-love-with-a-rockstar stars

Toni is a completely naïve, clueless girl who has been the guardian of her little sister, ever since their father passed away. Because of her sister's health issues she decided to be home schooled and now it's finally her time to prove to everyone that she's worthy of being a journalist, not just because her mother is the owner of a big company, but because she's worthy. On her quest for recognition, she decided to make an album about a band's life and the band can't be other than Exodus End, a rock band with sexy rockstars who don't seem to trust her enough.

Logan is the bassist of the band and for some reason he hits on her immediately. He wants to get in her pants and help her get more experience in her sexual life. Somehow her innocence draws him in and even though he tries to keep a distance between them, he can't seem to stop being possessive over her, but he also can't seem to be able to give to her what she really wants.

If you're familiar with the Sinners, then you're familiar with Olivia Cunning's writing. **The woman is a master when it comes to rockstars.** And not just that but she can write some **really steamy scenes.** For me erotica + rockstars => hottest books ever <=> Olivia.

Toni was so clueless that it ended up being funny and somehow I could picture myself in her shoes. She was a realistic character with insecurities, eagerness and with the excitement of having new experiences, but also mature and self conscious. She could be annoying at moments, but who is perfect anyway? Oh, **Logan was perfect.** ;) He was exactly the type of man that I would love to have by my side. Caring and lovely and funny and adventurous. He was truly amazing. Amen, Olivia! Thank you for giving me the pleasure of knowing Logan Schmidt!

Also, Birdie was such an adorable character. I immediately felt connected to her because of her CHD condition and then she won me over with her bubbly personality, her cute speeches and her actions. She was simply adorable and made me feel so much emotion, that I definitely didn't expect from a book like this one.

"You're crazy"

*"When it comes to you,
I don't know how to be sane."*

My only issue in this book is the feeling of the insta love. Even though the book was huge and it wasn't instantly heart and flowers, I felt like everything happened so fast. (view spoiler)

Still, if you're craving a hot book with rockstars this is one you should definitely try.

Type: Book 1 of Exodus End series

POV: Third Person

Rating:

ARC provided by the publisher in exchange for an honest review

Toni Nichols finally caught a break in her writing career when she was assigned to write a revolutionary interactive biography for the huge rock band Exodus End. To get the inside scoop, she would be touring with the band for a month by getting to know the band members in more personal level and learned about the workings of concert tours.

Logan Schmidt was the bassist of Exodus End. His passion in life has always been music, extreme sports and women - and he got plenty of each one. He took Toni's sweet innocent demeanor as a challenge. As their friendship grow, their relationship status started to become a blur when it took them to a point neither of them experienced before.

I'm a fan of Olivia Cunning's Sinners on Tour series and have been waiting for this book for quite a while and had a high expectation for it. For me some parts were a hit, while others were a miss.

"Got yourself a vampire fetish?" He asked with a chuckle.

"What?" she managed to say. "No, of course not. Vampires aren't real."

"But I'm all about bringing your fantasies to life, babe. If you want to be banged by a sparkly dick, I'll go get the glitter."

Logan was definitely a lovable character. He was the fun, crazy one in the band. His antics provided plenty of laughter in the book.

I have a little problem with Toni's character. She was sweet and innocent, which shouldn't be a problem except that at times, her thinking was too innocent making her ridiculously naïve considering her age. However, I do love her insecurities and how she indirectly used her sweetness to get the band members to open up to her.

"Toni only has one sweetheart," Logan said.

"Is it Spiderman?"

Toni snorted. Where has she come up with that? "No, not Spiderman."

"Better not be." Logan scowled. "Slinging his sticky web all over the city. It's not decent, I say."

Birdie was Toni's sister who had a developmental condition. The two of them had a very close relationship. I

thought it was cute how Logan accepted Birdie's condition and how he managed to subtly weasel himself in between the sisters.

As for the storyline, I wish there was more issue/drama. The turning point in the story was too predictable and was resolved too quickly – both of their own the personal issue. Also, I was hoping for some filthy sex scenes as portrayed in Olivia Cunning's previous book. Sadly, that was lacking in this one.

*“He got me,” he gasped and went still.
“Oh no!” Toni cried. “I need to suck the poison out.”*

One of my favorite scenes was the sock snake scene. It was really silly, but it perfectly depicted Logan's personality.

What I love the most about this book is how much the other band members were featured. We got more than a glimpse of their personality and background, setting a good foundation of what to come in the series. I'm anticipating some angst for Max and Dare's story. I know from the Sinners series a lot of people loving Dare, but I think I'm going to love Max.

Of course a few of the Sinners also made an appearance ;)

Note: Exodus End series is a spin-off from Sinners On Tour. You don't need to read Sinners book before reading this but if you plan to do that later, it does contain spoilers.

DNF @ 20 Percent

“I'm sorry I don't know what came over me. I just... wanted it.”

To be honest, I purchased this book on release day and read 20 percent and quietly put it aside. I was shocked that yesterday I was approved a copy through Net Galley since it's now released. Sadly, now I have to write something about my endeavor.

Unfortunately, the brilliant, sweet, virgin jumping IMMEDIATELY into the sack with the bassist and so on was totally contradictory to the picture the author painted in the beginning of the story and so I had trouble connecting with the heroine from moment she stepped on the bus and meet Exodus End.

HOT SMOKIN HOT

Toni is workin on a new type of interactive book an this book is goin 2 b about the famous EXODUS END she is goin 2 go on tour with them 4 a few months this is goin 2 b really good 4 her she as had a bit of a sheltered life she was home schooled did her college work online she goin on tour an doin this book is a really big thing 4 her an some people don't think is goin 2 pull it off but she is not goin 2 let these people get in her way she as worked 2 hard she knows it's goin 2 b hard an leaving her sister behind will b even harder she as practically raised her lil sister an she never complain about that she luv her more than anything an her sister needs her 2 there mum is not the best hands on mother so Toni needs 2 get her life back more than anything so when she is finally at Exodus Ends concert she is both worried an excited an when she finally gets 2 meet she finds everyone of them totally gorgeous an makin her lady bits do lil flutters but there is 1 that makes her lady part do more than flutter an that the sexy Logan Schmidt an God is this rocker hot thing get pretty steamy from the start an it's just doesn't stop

Toni is a nerdy girl with her mismatched socks her quirky dress sense an a virgin but she is the most kind an lovable girl there is an Logan can't get enough of her after there first nite Logan couldn't stop bein near her an this isn't him he's a total manwhore but when Toni asks him 2 help her with her inexperience in the sack how could he turn her down an Logan an Toni would end up bang everywhere they could get enough once they start

Logan isn't a very emotional guy he does his biz then leaves that's it but his feels 4 Toni get strong so quick an he's not used 2 these feels an he doesn't want 2 hurt her but he doesnt like the thought of any one else havin her either there FRIENDSHIP grows so quick an they get on so well there banter is great an she can b who she want b around him she doesn't have 2 hide who she is Logan gets really protective of her an he does go a lil crazy sometime but this just makes me luv him more that she as him al over the place an 2 make it better the band luv her an she luv them as well

Things do get a lil hard in this book an it breaks my heart 2 c Toni get betrayed it's horrible but then there r great an funny parts that make my laugh an have a goofy smile on my face I luvd this story so much it was hot an a really great read I luvd every character bar Toni's mum an Susan ok Toni's mum got a lil better but she still pisses me off an Susan i can't even go there

There is parts of the book at was a lil slow but i couldn't take stars of cause i couldn't put it down it the book

pulled me in from page 1 rite till the end another great thing was that we got loads of hot rockers we got more of the Sinners an quite a bit of Trey which is always a bonus ;)

If u have enjoyed the Sinners series u should give this a go it's good an hot an who does like a sexy rocker it's a great book an i can't wait 4 more of this series xxx

Amy | Foxy Blogs says

Toni is given a project for her job:

...hang out with the band for a month and become an insider.

A few obstacles falter her assurance in herself. She's a caregiver to her mentally handicapped sister who relies on her a lot. Toni has moments where she questions if she's the right person to write a book about the band.

Being a 25 year old virgin didn't surprise me but the fact she jumped into bed with a band member shortly after meeting him seemed very out of character for her. **Logan**, the band member, becomes her teacher in all things pertaining to sex.

I really loved the original series, Sinners on Tour, and can see the potential for the future books in Exodus End.

Rock stars + Sex = A Rockin Time **if this van's a rockin don't come a knockin**

I'm especially looking forward to DARE MILLS who I think the majority of us ladies are wanting to hear his story.

Exodus Ends series is a spin off of Sinners on Tour series. Each series can be read as a standalone series. You do meet some of the band members from Sinners on Tour but it's clearly explained who they are.

Wendy's Thoughts says

3ish Over the Top in Alpha Stars * * *

I enjoyed Olivia Cummings' Sinners series. The first book was my intro to rock band goodness... all the alpha brooding men with dirty talk to die for. The set up of woman on the bus with them...and all of the fun which happened struck me as a great read. Loved It.

This entry had new Rock Band, extremely innocent gal for the main character but with the ability to play off her inexperience verbally. She had a gap in her experience and our Rock God was very willing to help her with it. This was the set up and like most of these types of stories... fun and games took place.

There were added elements...and the pull of heartstrings for a sister with Down's. These moments were caring and even our Rock God showed how "human and loving" he could be.

The high points as always were the things our randy fellow would whisper or say out right to his object of affection...wonderfully naughty, yummy things.

For me... it was a bit longish in all of the ramp up, finding their way to be together and outcome. She wasn't totally my fave and he almost was a bit over the top in his immediate affection and interest for her.

A bit of fun...a bit of nasty and always Cummings' Rock & Roll.

Christy says

4 stars!!!

When I first saw there was an Exodus End book coming out, I was so excited I couldn't stand it! I thought... this is it. We are finally getting that Dare Mills book I've been waiting for. Well, this is not Dare's book. This is Logan's book. Logan Schmidt is the bassist for Exodus End and he is one of the most fun and charismatic rock stars I've ever read about. He's a dare devil, a guy that will make you laugh out loud and a total sweetheart. I'm still anxious for Dare's book, but I enjoyed reading about Logan and getting to know the other members of the band as well.

Toni Nichols is about to take on a job of a lifetime. She's touring with Exodus End to make a new interactive biography. Toni has spent most of her teenage/adult life living with her sister. Because of that she's unsure of herself and innocent. She's not shy, just a bit of an introvert at times. She doesn't know how she'll get these musicians to open up to her. Then she meets Logan. Logan is immediately attracted to this woman with her unflattering clothes, glasses and sweet yet spunky attitude. Just a little time with Logan, she finds her self opening up and seeing this new and confident side of her. Logan lives his life to the fullest and has Toni wanting to do the same.

Oh Logan. He's so... alive. I don't think I've ever met anyone who appreciates life the way he does. Balls out and full throttle.

I loved Toni and I loved Logan. I loved them together. They balanced each other perfectly. I did feel that their relationship was a bit fast, but I think with the setting of being together 24/7 on the tour bus made it more believable than in any other setting. If you've read Cuning's *Sinners on Tour* series you know she writes the best of the best erotic rockstar romances. This was no exception. She nailed it. The steamy scenes, the story line, the lovable characters and just the right amount of conflict and angst. The only reason this isn't a 5 star read for me is that there were times it felt a bit too long. Most of the book was fast paced, but there were some parts that dragged a bit. Overall, it's a great read and one I would highly recommend to any of her fans. I am so excited for the next book in this series! It's Reagan's so you know what that means... pretty much another Trey book! WIN!

Jess-i-ca ~Sometimes a Gif Witch~ says

GTFU @ 30%

Virgin who gives it up within an hour or so of meeting rock star and then he falls for her like immediately....

Oh and for her sexual inexperience she sure is jumping in head first not even taking a breather.....

Not to mention Logan seems pretty stupid too..

There is only so much I can take...I don't even care what else happens b/c I wanna punch Toni in the twat...

Jen says

“A sweet lamb left to fend for herself in a den of wolves. Whatever will we do with you?”

I finished *The Insider* over a week ago and for the life of me, I haven't been able to force myself to hunker down and write this review. I think it all comes down to the fact that I started it, then at 20% put it aside, claiming book slumpapnia. Then, deciding to soldier on, started it again. Then gave into my desire to start something else and put it aside yet again. This annoying pattern plagued me for the entirety of the book until finally (dear Lord FINALLY!) I finished it.

“One of the things you should consider stressing in your book is how little fucking privacy a man has while on tour with his band.”

“I can include that,” she said, “but I think fans are more interested in the size of your dick.” She backed into the bathroom . “I know I am.” She bit her lip before closing the door in his face.

In all fairness, I did enjoy this book. It just didn't have the "oomph" I've come to associate with an Olivia Cunning novel. It had the humor and sex I've come to expect, but it felt like a setup for the rest of the series the entire time I was reading it and it was difficult for me to get into *this* story because of it.

That being said, my awesome psychic powers are telling me that rest of the band members books are going to rock! No pun intended. I look forward to seeing Toni and Logan again as the rest of the series plays out.

TG KMT | QUESTL♥VE says

**WHOOH! Another *mutherfucking* Olivia Cunning series!!
Dare Mills? Babe. Please Please Please.**

~ Stéphanie ~ Tied up in Romance ~ says

Where do I begin?

For those who know Olivia Cunning's books I'm sure you were all dying to get Insider and I know most of you have waited for such a long time but be assured that it will all be worth it! ^^

This book will meet ALL your expectations. To me, Insider is probably the best book she had ever written! You can find all the ingredient that you've known in Olivia's book; Rockstars + smashing heroine + bad boy/dirty talker + sexiness + steam... a lot of steam + sex... a lot of sex = PERFECTION

Toni Nichols has THE chance of her life. She has the opportunity to go on Tour with the famous band Exodus End and put together information, backstage images and behind the scenes revelations to create an interactive book for the fans.

Even if some people, and in particular one, doesn't believe in her and think that she got the job only because of her mother is the company's boss, Toni is determined to succeed.

She was a pleasant character to discover. The more you know her, the more she reveals, the more you get attached to her. She has sacrificed most of her teenage years so she can help raise her young sister, Birdie. Because of it, Toni is oblivious to a lot of things and mostly when it comes to men, relation with them and of course sex.

“If you keep staring at it like that, I’m going to come all over your face.”

Did penises really do that? Could he ejaculate just because a woman stared at his cock? Or would he need a little more stimulation? She took a steadying breath, leaned forward, and kissed the swollen head.

Logan Schmidt is one hell of a rockstar. He has the good look, the attitude and the skills.

Talking about skills, I'm almost certain you don't need a reminder of how much sex there can be in Olivia Cunning's book? *and if it's your first time reading, welcome in the erotic world of Ms Cunning* Insider is no different. Logan is sex on a stick and of course the ladies can't resist him. The meeting with Toni is electric and the girl is seduced right away

Their relation quickly intensifies and I'm not the one to complain about how much magnetism and how sex appeal or sex period there are in here.

What appeals to Logan is how Toni seems innocent.

As a virgin, Toni takes every experience she has with a refreshing enthusiasm.

" The only woman I want is you."

“Even though I’m inexperienced?”

“Hell, I think it’s because you’re inexperienced. It’s refreshing. Even other women who don’t have much experience sure don’t make it known.”

But Insider is so much more than only Toni and Logan's relation and sexual encounters. It's also an incredible occasion to get to know all the members of Exodus End.

I know a lot of us are craving for Dare's book and with this book, you will want it more than ever.

Dare has a soft side that only asked to be exposed. You will discover a little more about his secrets and you will be eager to know all the details.

Max is probably the most mysterious and the one who attracted me right away. I can't wait to be in his head

I don't know which one will be the most emotional but I feel something deep for both of them.

Steve was the one I wanted to slap most of the time. Not because I didn't like him but because he kept tempting Logan. It's going to be an immense pleasure to see his manwhore fall hard

Don't read the spoiler if you didn't read Insider, it's about Steve and I don't want to ruin anything (view spoiler)

And that left me with Reagan! It was a delight to get to see her more.

If you haven't read the Sinner on Tour series, there are going to be some spoilers, but at the same time, you will want to know all the details and you're gonna rush to all 5 books about these other rockstars.

I know there are still a lot of things that needs to be sorted out when it comes to this particular relation. And I'm excited to get back to (view spoiler) Reagan (view spoiler)

What I also loved about Insider is how funny it is. Logan is an easy-going guy. He loves life and he intends to live it fully. His casual attitude often leads to epic moments with the band and with Toni

“What you said about not letting a man touch you?”

“I meant it,” she said

“Yeah, I believe you. I just . . . I want to promise the same to you.”

“Really?”

“Yeah. I promise not to let any men touch me.”

And one more because I can't resist

“Got yourself a vampire fetish?” he asked with a chuckle.

“What?”

“No, of course not. Vampires aren't real.”

“But I'm all about bringing your fantasies to life, babe. If you want to be banged by a sparkling dick, I'll go get the glitter.”

“Wait. What? Why would your dick sparkle if you're a vampire?”

“I'm a modern-day vampire. The kind that sparkles in the sun instead of bursting into flames.”

“You've seen Twilight?”

“Do I look like the kind of guy who would watch that girly shit?” “Yeah, I've seen it,” he said. “Twice.”

Logan was also very sweet. In fact it took me less than 8% to be convinced that this guy was the perfect option for the first book in this series

“I always kiss boo-boos.”

Impossible to resist right?

It's true the book is long. I think by Olivia Cunning's admission this one is the longest she has written but I can promise you the time will fly and you won't want to put the book down.

By the end, you'll be all ready to rock, to party, to want more of the Exodus End series, to be a part of this crazy and sexy world. I know I'm for sure

“You don't have to lie to save my feelings, Logan. I'm a big girl.”

“I'm not lying. I wish I could fast-forward time a couple of hours so the show would be over and I could teach you more about making love. And you can teach me how to love someone.”

?? 5 STARS ??

I've got the most exciting news for you!

I've been sharing a bus with Exodus End! Don't believe me? Meh, you're just jealous. I mean, I would be jealous too. Sharing a closed up space with Dare Mills, Logan Schmidt, Max Richardson and Steve Aimes... Oh yeah. **Perfection.**

Insider tells the story of **Logan Schmidt**, Exodus End's bassist player—

The Bassist? Yeah I hear you, you there in the back! What is it you say about the bassist being the less important to the band? Pfff. You, my friend, are clearly misguided.

Yeah, sure, lead singers and guitars get to have direct spotlights, but without the bass, the whole sound would be hollow. The bass is the heart of that metal sound you like so much. Metal has groove and without the bass guitar? No groove.

Now that we set up some important truths, let me tell you what is was like to be on tour with Exodus End.

It was thrilling. Electrifying. Amazing. Exciting? Oh I could not even describe the levels of excitement to you. I mean, leaving H-24 in a closed up space with 4 rock gods?

The book was damn near unputdownable. The characters charmed the pants out of me. All of them.

Though Insider tells the story of Logan Schmidt and Toni Nichols, it focuses here and then on the other Exodus End's band members and I loved every snippet I got the pleasure to read about Dare Mills and the rest of the band. You'll also get to meet or meet again, the Sinners... **Oh yeah.**

The heroine, **Toni Nichols**, has got to be the most endearing and hilarious virgin I've ever read! It's rare for me not to get annoyed by a too naive young woman, but somehow and I'm not sure why exactly, I loved her a lot! Her inner monologue had me laughing out loud more than once and her candidness created the most hilarious dialogues.

She was naked.

With a man. And not just any man. This man. Somehow she'd imagined sex should always occur in a bed beneath the covers in the dark. But apparently on a sofa in the back of a tour bus with all the lights on worked just fine too.

Toni is a smart woman, she's 25, her mother—a press guru—is trying to get her to replace her as the CEO of her notorious publishing company. She lost her father very young and had to quickly fill the role of the mother to her little sister, Birdie. Compensating the absence of her mom too wrapped up in business. Toni has other plans though, she's a creative person and is not interested in the business side of the company. Fortunately for her, she's offered the great opportunity to follow for a few weeks, one of the most famous

Rock Band on tour : Exodus End.

And what an opportunity, Toni is a real fan. With the excuse of working on interviews for an interactive book, she's about to realize a dream and to finally do something of a drastic change from her good girl behavior!

This is the part where I'm supposed to tell you to be a good girl and to carefully guard your heart, body, and soul from evil rock stars. I should advise you to stay away from excessive alcohol, drugs, sex, and backstage after-parties.

If you're still a virgin next time I see you, I will promptly kidnap you, haul your ass to Vegas in the trunk of my car, and buy a bona fide man-whore to remove your V-chip.

Logan Schmidt's character... Where do I even begin? I repeatedly scowled at his behavior, only to burst out of laughing one second later. Damn but the man was a real horny teenager in a sinfully sexy grown-up body! And the things he said!!! He would just sprout whatever was on his mind and not in a nice way. A real asshole. But damn if I didn't laugh every time!

"I thought I could wait until you shaved it for me, but I'm going to have to risk the hairball."

I think I can't recall the last book I've read with a man-whore so one-track minded. It was bad a times, but so good at the same time! He wasn't considerate of his bed trophies in the least. The real stereotype of a man-whore.

But on top of that, you can say the man has it all. The looks, the talent, the absolute charm and the bad boy attitude. He's a risk taker, a thrill seeker, a sex god.

"God, I love you."

Back to the story where Toni gets on Exodus End's tour bus without knowing what to expect, she maybe had vague ideas, but she wasn't near imagining what would happen to her. In a matter of minutes she's soon to discover how much the life on a tour bus can be uncontrollably exciting. Especially in the vicinity of Logan Schmidt.

"You're in trouble lamb."

Logan is quick to claim his pray, and he wastes no time devouring his "lamb". Yes you can talk about insta-lust, but the book being on the fun and light side, this wasn't a problem for me at all. The sexual chemistry between them was on a rampage, sizzling hot is all I can say about it. Toni being a real secluded book geek, she is as inexperienced as it gets and that streak of innocence pleases Logan to no end.

Was she really going to lose her virginity? To a gorgeous rock god with a huge cock?

Oh wow, this was really going to happen. He was going to shove himself inside her and get rid of her blasted virginity once and for all. But how on earth would that thing fit inside her? He was huge! Were all penises that enormous? The ones she'd glimpsed on the internet tended to be, but she was pretty sure they were enlarged with Photoshop. There was no artificial enlargement going on here. She could see with her own eyes. Logan grabbed the base and tilted his cock up and down. Toni followed his movement like a drunk taking a sobriety test.

Soon enough Logan is going to be brought down to his knees without realizing it, and if you're like me, you'll like witnessing him falling for the good girl despite his efforts to keep things light and no strings attached between them.

"Lord, woman, I do love you." "...I mean as a friend."

One thing I loved most of all in this book—apart from the smoking hot sex—was the constant banter between them all. Of course there was the usual crude jokes between the band, but what really got me plastering a huge smile on my face was Logan and Toni's banter. She was so clueless it created comical situations like you wouldn't imagine. Logan took a real pleasure educating and tutoring her as well as toying with her and it was hilarious!

-“I can't wait to squeeze them together around my cock and fuck them until I come all over your chest.”

-“Oh! So that's how a guy fucks tits,” she blurted loudly. Very Loudly. Everyone within earshot burst out laughing.

-“Ouch! There's a gearshift in my ass.”

-“Oh, sure, you barely know this car, and yet you're already giving it privileges you won't give me.”

-“Not inside my ass. It poked me in the hip.”

-“You got me all excited for nothing.”

One other thing will make you fall hard for Logan. I'm talking about his sweet side. He was the biggest contradiction ever at times, because he was reasoning and couldn't let himself fall for Toni and would act like a huge jerk. But just seeing him interact with her, often saying spontaneous sweet and gentle words... And the way he was with Birdie... You could tell he was a great and sweet guy under disguise.

-“You don't have to say things like that to get in my panties,”

-“But I do to make you smile.”

“Feels good, baby. You're so beautiful. I'm crushing so hard on you right now.”

“I wish I could fast forward time a couple of hours so the show would be over and I could teach you more about making love.”

“Why are you so nice to me?”

“I have ulterior motives.”

“Such as?”

“Making you mine.”

Olivia Cunning is the erotica author who first shocked me when I started reading romance 3 years ago. I still have a very clear memory of “Backstage Pass“. But she shocked me in the most delightful way. She perverted me and I’m so grateful to her for it! She writes erotica like no other, she keeps her stories mostly on the fun side and every book I’ve read so far was deliciously dirty. If you like Rock Star romance, then you definitely want to give Olivia Cunning a try, you won’t be disappointed!

Next stop on Exodus End is Reagan’ story... We met her in Trey’s book, she’s in a menage relationship with Trey and Ethan. Their relationship has been discovered by the media and things are going to get rowdy for them. I can’t wait to read book 2!

Wonder Woman, infatuated, over.
