Sonia Gomes says

Read it ages back,
Although, am a tad too old for such theories, I did learn a great deal about all the supernatural aparitions in different parts of our our world

Paul Adkin says

The best thing about this book is its analysis of the Christian myth. That is, of Christianity as a mythical movement.

Evalina Zamana says

I like it. In this book Daniken compiled stories about miracles that happen through the centuries. Most of them are about appearances of Virgin Mary. Interesting.
