One Perfect Love

Jessie Evans

One Perfect Love Jessie Evans

A new adult story about breaking out, moving on, and learning that some loves never die...

It's been almost a year since that night in the attic, since something inside me died, and a new Caitlin Cooney was born from the wreckage. The months that followed nearly killed me, but I survived and fought for the happiness Gabe was determined to give my little brothers, my baby niece, and me. Now, my family has everything I ever wanted to give them, and I have a new boyfriend. He's the last person I imagined I'd end up with, but we're good together.

Life is good. If only good was good enough, and I wasn't still consumed by a love so fierce nothing can put what I feel for Gabe to rest.

Still, I believe the worst is over, until I'm forced back to my hometown and realize how many lies have been told to snuff out the wicked rush I found in Gabe's arms.

ONE PERFECT LOVE is an edgy, sexy, boundary-pushing read intended for readers over the age of seventeen. The book features graphic love scenes, violence, strong language, liars, and heartbreak. Read at your own risk.

Moon Reviews says

This review is for the whole trilogy (one wild night, this wicked rush, one perfect love)!!!!
Well written with a heart breaking story, adorable and irresistible characters, situations that are at time funny and witty, sexy and hot or heart melting and deeply emotional!!! I loved every second of it! This trilogy is made of the kind of books you do not forget and keep a paperback of, to re-read time after time!!!! I was crying like a baby or smiling like a lunatic with these books!!! Jessy Evans makes you feel every little whimper as if they were yours and it can get highly emotional!!!!
Gabe and Caitlin welcome to my favorite couple's list! I ADORE YOU!!!!!

Cassandra Kutchara says

I just love this series!! Read it! Go! Now! What are you waiting for?

Oh my goodness! Where to begin? So much happens in the book its crazy!!

Okay I'm going to spoil it so if you don't want to know what happens then stop reading this review!!

-----SPOILER-----

So Gabe maybe alive? Caitlin sneaks into Gabe's parents house to see if she can find out if its true or not. She finds "his ashes" and a funeral bulletin. She is crushed!

Caitlin's dad comes to her and tell her some aunt Sally dies and left him tons of money and a house in Hawaii. He wants Caitlin to have it and move there was the kids. She does after to believe Gabe is really dead.

Caitlin then realizes she is pregnant with Gabes child. So she still has a part of him. But 4 months in she has a miscarries. Her good friend Isaac moves to Hawaii to help her through this hard time. Isaac ends up moving in and they start dating. But Caitlin isn't happy and misses Gabe will all her heart.

A year after they move to Hawaii, Caitlin breaks thing off with Isaac. Knowing that she will never love him the way he loves her. Then a few days later Caitlin's dad dies. Her and the kids fly home for the funeral. They arrive at the house and BOOM there's Gabe!!!

LOTS OF SPOILERS:

Gabe has been alive this whole time. When he went to his parents house to tell them he is going to finish out his life with Caitlin, they told him that they have a video that show Caitlin breaking into house and if he doesn't jump on a plan and get the surgery now they will turn it over to the police and Caitlin will go to jail! So he leaves without saying a word to Caitlin. And his parents tell Caitlin he dies.

After the surgery Gabe lost most of his memory from his summer with Caitlin. But it has been a year and things are slowly coming back.

To shortin this up a bit...they get back together! Duh.

Believe it or not, I did leave A LOT out!!! Like tons of stuff!!

Go read it!!!!

Erinne says

One Perfect Love was everything it's title describes. Perfect. I've been waiting for this book since I finished This Wicked Rush with each book I read in between feeling like a filler til this was released. The conclusion of Gabe and Caitlin's story was everything I hoped it would be and more. An adrenaline filled, sexy, thrill-ride to the last page...

I didn't think it was possible but with each new book I love Jessie Evans more...now to wait til October for Danny's story.

Tracey says

Jessie Evans has gone and done it again. She took her cliffhanger from 'This Wicked Rush' and raised it to absolute top-notch five-star perfection with 'One Perfect Love.'

I read and loved 'This Wicked Rush,' falling in love with Gabe's and Caitlin's story. They were the star-crossed lovers, Romeo and Juliet meets Robin Hood and Marian. I absolutely loved the way that their story unfolded, and the love that grew between, not just the two of them, but between Gabe and Caitlin's siblings. Each character was just so well-developed that you felt like you knew and loved them, too. When the first book ended, I had one heck of a book hangover, and could not wait to see what lay ahead for Caitlin and Gabe.

Well, let me tell you, Jessie has outdone herself with 'One Perfect Love.' The story picked up exactly where the first left off, so it felt like no time had passed at all. Because of Gabe's love, and his faith in her, Caitlin has changed from a girl just getting by to a woman, determined not to take the answers handed to her, but to make her own way and find her own answers.

There is still plenty of heartache in this book. There are plenty of people that still do not want Caitlin to have the life she aches for (and some of those people will shock you). But the joy, when it comes, is so sweet, so absolutely affirming and uplifting, that it's almost worth the angst to get there.

I obviously cannot recommend this book, and series, highly enough. Jessie does a love story like few others, and this one left me clasping my e-reader to my chest and wiping happy tears. Now I can't wait to read Danny's and Sam's story when it comes out...

BooksandBeyondFiftyShades says

WARNING: If you haven't read the first two books of the Wild Rush Trilogy, STOP RIGHT HERE. You

are not allowed to go any further. Do not read any more reviews of this book until you do. It isn't, but this should be a law in the romance book land.

You won't comprehend what emotional investments have been put into these two characters and eventually bringing this book, to this pivotal point.

It's imperative you work your way from start to now in order to feel what Caitlin Cooney has given us, as readers. Gabe Alexander gave us just as much and I dare say more. There's a important history, an understanding, even a reason behind the twists and turns this book will take you through. Strap yourself in, hang on and prepare yourself for the unexpected.

Have champagne in one hand to raise a glass to mature decisions for the future, but have tissues in the other hand to prepare you for the reality that continues to hit Caitlin like gigantic waves of life's realities crashing on a rocky shore. It's relentless.

I can't even go on with this review other than to say... I loved it and you will too. I read the series twice in record time. I'm still thinking of it weeks later and I can't wait to pick up the next Jessie Evans novel. She's a story teller we romantics dream of.

Emily (Mrs B's Books) says

This really was the perfect ending to Caitlin and Gabe's story.

While Caitlin's life takes yet another twist and turn, it shows again how strong a character she is and the amount she can survive even if the odds are not in her favour.

There is lots of suspense, you never know quite who to trust and who is really there as a friend other than Sherry.

You really get wrapped up in the story and I couldn't help turning page after page so see what was going to happen next and to find out how perfectly the characters fit together

Really CAN'T WAIT to read more books by this author.

Sofia Almiroudis says

Jessie Evans you are brilliant. Loved 'This Wicked Rush' and I couldn't wait to see what was going to happen next for Gabe and Caitlin. As usual you did not disappoint in 'One Perfect Love.' I was so engrossed throughout this book with the raw emotions of the characters; loss, lust, infatuation, love, grief, jealousy, and betrayal. How much more can Caitlin endure in her life? After the devastating reality that the love of her life is gone, she decides to close that chapter of her life and start a new one. A new start and a better life for herself, her siblings and her niece. Did she expect that the one person who she loathed the most would be the one to offer her this golden ticket? No, but then again when has anything in her life been predictable. Although she is living in paradise, Caitlin's heart is still hollow and longing for him. She just can't forget the one man that made her feel alive. When an unexpected email brings her back to her past, it's then that the truth begins to unravel, causing Caitlin to question so much. DESTINY+SOUL MATES+TRUE LOVE=

ONE PERFECT LOVE!

Kara Hildebrand (Two Book Pushers) says

I feel like I've been waiting forever for this book. The cliffhanger from *This Wicked Rush* stayed with me for a long time as did Gabe and Caitlin's story. This book is the perfect ending to their wild story. Jessie has another hit on her hands! I'm not sure it's possible, but Jessie's writing has gotten better. The emotions swirling around these pages were so raw that I was on edge for most of the book. Caitlin gets an offer that she feels is the right choice for her and her family. She moves on with her life and on the outside seems to be happy and content, but on the inside she's still sinking. She has a new life and a new boyfriend but she can't forget Gabe; her one true love who sparked such passion and love within her. Caitlin is forced to return home only to find her past coming back to her in full force. Lies, deception and tragedy have her searching for answers that she never thought she would find. Can Caitlin be the woman that Gabe always knew she could? Can she survive after finding out the truth? Do not miss this conclusion to their story!!

It's as if my soul is keeping its distance from my skin and bones, realizing it might do damage if it gets too close.

"I don't think life is ever easy," Caitlin says, laying her hand on top of mine. "But love can be."

Someone should sculpt this man, immortalize every inch of his beauty in marble for women to drool over for generations to come.

I explode like a firework painting the sky, like a bomb filled with flower petals showering the world with color, happiness, and hope.

Neither of us is perfect or blameless, but sometimes two imperfect people can make one perfect love.

Kelli C ~ Jack Sawyer's Heart says

4 Well Deserved HEA Stars

I start by saying I am so glad that this book was out...I really needed to see where Caitlin's life ended up with the 'Loss' of Gabe! Yep...I dropped that bomb there! Where is he you say? OHHHHHH, to tell you would be tragic!

Never have I read a book where two people were meant to be together...where two people were so perfect for each other....where so many people worked so hard to keep them apart.

This series reads fast, and I recommend reading the prequel and book 1 first so that you can really grasp the goodness that is Gabe...the emotions that come from the two of them together. I freely admit to wiping a few stray tears away during this read!

Let's just say that miracles do exist. That true love is never forgotten. That sometimes it's ok to be "bad." That sometimes the perfect ending isn't always wrapped up in a big clean bow. Sometimes there really is ONE PERFECT LOVE and nothing can stop it from existing!

Casey says

Review originally posted at Ramblings From This Chick

I could not wait to read One Perfect Love after I finished This Wicked Rush by Jessie Evans. I had loved Gabe and Caitlin so much in that book and the ending just about killed me. I thought that One Perfect Love was a really great ending to the story, and I was happy with how things turned out. Since One Perfect Love is the continuation of Gabe and Caitlin's story, this book is not a standalone. If you haven't already read This Wicked Rush, definitely start there. I am becoming a huge fan of Jessie Evans with each new book I read of hers, and I would absolutely recommend this series.

One Perfect Love picks up after the events of This Wicked Rush with Caitlin and her friend trying to get to the bottom of what happened with Gabe. Nothing made sense, so they made a plan to figure out what was going on. But after Caitlin finds what she was hoping she wouldn't, she knows she has to move on. Now a year later, she has left her hometown and is living in Hawaii with her new boyfriend and her younger brothers and niece. Although her life isn't what she had planned, things are good. But when she is suddenly drawn back home, she quickly finds out that everything she thought she knew was a lie.

I really loved Gabe and Caitlin in the first book. I know that they did things that most would consider wrong, but that never bothered me. I was always rooting to Gabe and Caitlin, so with her having a new boyfriend at the start of this book it was a bit hard to get into. Luckily things picked up quickly and I was really glad to see that Caitlin was still the same person. She was so strong and such a fighter. She could have easily lost herself, yet she kept going for herself and those that depended on her. I will say that I was never a fan of her new boyfriend. I didn't care for him when we first met him, and I didn't care for him this time around either. He always rubbed me the wrong way, and in this book he really showed me why. I was so glad when Caitlin returned home and starting learning the truth.

I really wish I could go into why this book was so good, but I don't want to give anything away. This book was a journey about love and loss, and fighting for what you believe in. I loved that Caitlin was such a strong character and that she wasn't perfect. She didn't fit into a certain mold, and that was what made her so real to me. She was easy to like and root for, even when she was doing questionable things. Jessie Evans has created some really fantastic characters in this series, and I have loved seeing how unique and different they are. Gabe and Caitlin will always be some of my favorites, and I think that these two are absolutely perfect for one another. Gabe and Caitlin connected on so many levels, and their connection was undeniable. Even when Caitlin had tried to move on, it was clear that the only person she would ever have it all with was Gabe. I really liked how things played out though, and after reading this one I am so excited to get Danny and Sam's story. Danny has come so far from This Wicked Rush, so I can't wait to see even more of him. I think that this series is a must read, and if you haven't read it yet you are missing out. Jessie Evans is a great writer, and her stories are different than other NA books out there. I can't wait to see what she does in the future.

Crystal Yawn says

Oh wow amazing." Some times two imperfect people make one perfect love" is the most truthful line i think

i've ever read. This book was great. After a year of missing Gabe, missing part of herself, Caitlin learns Gabe is still alive.

After a year of feeling like a part of him besides his memory is missing, Gabe is reunited with his one love, Caitlin.

Through several hard trials the couple has to face they stick together as a strong untied front. Like that year never happened. This is a tear jerker. and it also makes you feel real good in parts.

Excellent job on another 5 star book Jessie Evans. I'm looking forward to reading Danny and Sam's story next.

Carol says

I really enjoyed this book but their were situations that I just didn't find quite right. I didn't see Caitlin in a relationship with Issac. A one point she said she only loved him like an older brother. I don't see her feelings changing just because she thinks she lost Gabe. So in that instance it sounds gross. Why would she even start something with him. Now that friendship is forever ruined when he doesn't last, and of course it won't. As for Gabe he is getting his memory back in stages. He doesn't know what some of them mean but he does know that there is someone out there that he has feelings for. Now that Gabe is back he copes by sleeping with every girl that looks like the memory of the one he can't get out of his head. I wish the author hadn't went this route with either of them.

So many twist and turns I wasn't sure what was going to happen next.

Tami Talbert says

4 1/4 Stars!

Wow! One Perfect Love was fantastic. It had a lot of suspense and "oh my God" moments to the point where I just wasn't sure who I could trust. After being left hanging by Jessie at the end of the first book, I couldn't fathom how she was going to "make it all better" for me. I mean, she killed off the "hero." How are you going to fix that? Obviously, I had plenty of thoughts and scenarios running through my mind trying to figure out for myself how this was going to end. Again I say "WOW." This was outstanding!

Caitlin's life has once again come crashing down around her. After learning of Gabe's death she is absolutely devastated. Struggling to rebuild her life without him, she makes the decision to take her brothers and niece and move out of Giffney, the home she has always known but which has seemingly never done her any favors from having to leave high school to raise her brothers and niece to now having lost Gabe, the only man she will ever truly and deeply love. One year later, Caitlin continues to endeavor to reconstruct her life and move forward, but things once again begin to spiral out of control. As Caitlin begins to unravel the mystery surrounding Gabe's death, will she ever be able to recapture that One Perfect Love she had finally found which was unexpectedly torn from her grasp so long ago?

I have read a multitude of novels written by Ms. Jessie Evans and never anticipated such a suspenseful, enthralling and exceptionally-written story. I feel limited to how much I can really say as I am working desperately not to divulge any of the plotline. But suffice it to say, I was amazingly surprised with the turns this story took and many times on the edge of my seat struggling profusely with myself to just keep reading and not turn to the final chapter just to put my mind at ease and know that everything was going to be alright

in the end. Applause Ms. Evans! Very well done.

Nicole Smith says

I can't tell you how much I love this series the first three books have me hooked. This book gets all your emotions going. You can't help, but feel for Catlin. She's trying to rebuild her life for her family, but once she returns to her hometown she finds out a whole lot of lies have been told. Will she be able to pick up the pieces this time? It's a beautiful conclusion to Caitlin's story. The epilogue left me with a smile on my face because knowing Caitlin finally reaches her HEA.

Sandra Shipman ~ Two Book Pushers says

I was so excited to read One Perfect Love! The cliffhanger in This Wicked Rush was huge and my mind was on overdrive to figure it out and luckily the wait was not too long. It is different from any other series I have read and I love Jessie Evans for it! Her writing is amazing and can't wait to read more of her books. Now, on with the review...I try to do spoiler free reviews and it's even harder with sequels so I will try my best.

Caitlin had the summer of her life and now has to try to move on for her family. She gets the opportunity of a lifetime to start over new from an unlikely source but this is what her family needs. She knows she will never feel how she did with Gabe in those few months that bought out the true Caitlin that was hiding. She tries her best to move forward even after going through the worst of times of her life....

It has been a year and Caitlin has a new boyfriend, someone she never thought would she would be with but she's living half a life. She just goes through the motions to make her family healthy and happy. When she gets news from home is forced to go back to the last place she wants to be, there are too many memories there. When the family arrives to their hometown she is shocked to see people she thought she would never see again.

She has to solve huge puzzles and now that she has come across the major piece she is on a mission to complete it. There have been so many lies told in the last year and she doesn't know who she can actually trust. Caitlyn feels that rush again and is back to that strong woman that doesn't take any bullshit from anyone.

Caitlin is one of the if not the strongest heroine I have ever met in a book. She goes through some much and she might crack but never breaks. This series is about finding yourself and when you can find someone that you don't have to hide that from, you have found your perfect love. It is sexy, emotional and a beautiful story. I also love trying to solve the puzzle right along with her....

Quotes:

This love doesn't burn inside me, threatening to consume me even as it builds up, making me something stronger and better than I was before. This love doesn't reach down deep and awaken the wild side of me, the part that will fight to the death to protect the things it holds dear, that part that is both beautiful and vicious, as terrifying as it is intoxicating. This love is a spark escaping from the bonfire, and Gabe and I were the sun, burning hot enough to light the world.

"I love you not only for what you are, but for what I am when I am with you." ~ Elizabeth Barrett Browning

Caitlin isn't a woman you fence in; she's a woman you set free, and run like hell to keep up with.
