## **Stepbrother Inked** Violet Blaze

Forbidden love shouldn't feel so good.

It also shouldn't hurt so much.

How could the one person I can't have be the only person I truly need?

Florian Harper Riley has my heart and he doesn't even know it. I used to think that was okay, that I'd get over him, but no matter how hard I try, I can't purge his sharp green gaze from my thoughts.

He's a tattoo artist, the love of my life, the man of my dreams.  
But he's also my stepbrother.

Fate can be wicked cruel.

**I've finally lost my stepbrother virginity, and it wasn't too painful apart from the inevitable angst probably associated with all such stories!**

As this book was recommended, I found myself thinking "why the hell not" so I one-clicked and settled down to read all about Abi and her stepbrother Flor. Brought together at 5 and 8, respectively, Abi knows, rightly or wrongly, that she loves Flor and as they get older her feelings towards him only increase. Flor, being the older step-sibling, tries to fight his feelings for Abi but as she gets older his fight becomes more and more futile as Abi sets her sights firmly in Flor's direction.

The first half of this story was quite slow and for me, a reader who loathes angst, all too pushy and pulley as Abi fights for Flor's heart and he repeatedly pulls away, but not before teasing Abi, and us readers, with the hope that he is about to drop his defences, metaphorically speaking! That said, the story is still captivating, if albeit slightly frustrating, as we get to see the hurt and pain Abi endures on a daily basis as she watches Flor with girl after girl and shamelessly parading them in front of Abi without any remorse. Abi assumes that she has finally won her battle at 15 only to be spurned once again but this time she knows she will fight with all her heart for Flor, even if it takes years to prove her devotion to him and what they share.

Along for the ride in this story are a sweet collection of misfits in Abi's best friend, Addison and her boyfriend Patrick and the loveable side-kick drag queen duo of Theo and his/her partner Yuu. To add to the complication Abi faces on a daily basis we have Max, Flor's best friend and Abi's boyfriend/booty call and Flor's girlfriend, Rhonda. Addison, Theo and Yuu know about Abi's feelings for Flor but Max and Rhonda are unaware, well at least for the majority of the story!

I have to say, this was a really well written story, packed full of emotion, heartbreak, angst, and passion and despite the ongoing drama and less than appropriate relationship, on the face of it, you can't help but pull for Abi and Flor as they try to find a path through life without hurting those around them.

I know if I went back to read the story again I'd probably give it a 5 star rating but first time around was just too painful and cruel to me as a reader that I'm taking off the 0.5 star for the sleepless night the story gave me (mean I know)!

If you love your heroes tattooed, mouthy, on the fringe of common decency then you will love Flor. Despite being a stepbrother, he is drool worthy and just what every 18 year would want in their lives!

I asked for that ARC because of the title. After i read Did i mention I love you and was a bit disappointed of the book i wanna give these Story concept a second chance. So i tried to dive in to the story without any prejudices.

Thats had been a grate problem for me because i allready thought in the beginning Oh my good i will get a typical drama Story for these kind of Story. The Characters in these Storys always doing to much drama about their Love. Thats so annoying because i'm not understand why they handle these. In the most cases I'm like Ok what the fuck is wrong with you. You aren't related your parents are just married.

To be honest the start of these Story was a bit hard. For me the Jump to past was not able. because form past whats at present there hadn't been any more reasons me why what they want isn't allowed.

Even if the style of wriitng was easy to read i had my problems with it. Especially all these intensiv feelings couldn't get to me. Most time i was like girl why are you pissed at him?

Most time of the story i was like ok why do act like acted. Both of the main characters did many things I wasn't able to understand.

The heroine have had positive characteristics but there where shown more negative ones. I wasn't able to get trough her thoughts.

Also Flor the Love interest wasn't really interesting for me he always wanted to have the last word and he was so stubborn.

As you can see this was definitely not my book. The fact that there was not the addeiction effect. I gave that book tow off five Horses.

ARC Proviedet by the Author.

???? 3 Stars ????

**\*\*\* SPOILERS \*\*\***

◆?BOOK: Standalone. Kindle loc: 4137. 98,000 words, 340 pages.

◆ ?POV: first person - heroine

◆ ?WRITING: very good

◆ ?EDITING: no errors found

◆ ?HERO: Florian Riley, 21--tattoo artist. black hair, green eyes, tall, muscular, pierced and tattooed, including pierced junk. bad boy, smoker, manwhore.

◆ ?HEROINE: Abigail Sharp, 18--Brunette, curly hair, blue eyes, mocha skin, good girl. Plays the cello. Just moved in with her bestie and attending college. Absolutely obsessed with her stepbrother.

◆ ?PLOT: After crushing on her stepbrother for years and sharing a hot kiss with him at 15, Abigail, now 18, just can't break her obsession with him and move on (she's a borderline psycho obsessed stalker, complete with a shrine to him, but it's kinda sweet). Nothing is working. Step-siblings since they were 5 & 8 years old, Flor and Abi were very close as kids and their parents are still very much happy and in love today. Florian admits he has feelings for her as well but they can't act on them so he tries to continue ignoring his feelings. They then go back and forth, back and forth, torn between loving each other but knowing a relationship is impossible so they continue to date other people. They finally give in and have sex. Their other relationships end and the two decide to give their love a chance but still have to face their parents. Of course the news doesn't go over well.

◆ ?WHAT WORKED:

?unlike other stepbrother books I've read, the parents are in an established, happy marriage when their children enter into a relationship and they remain together

?Florian was very sweet to Abi the last 1/4 of the book

?Abigail's best friend Addison was a great friend and gave some good advice

?Florian's fondness for cats and kittens was adorable!

◆ ?WHAT DID NOT WORK:

?Florian & Abigail's OTT wishy-washy, back-and-forth feelings make your head spin

?Florian dates another woman for 70% of the book and they only break up bc she ended it with him, he didn't have plans to break it off with her at all

?Everyone cheats! Florian cheats on his gf with Abigail - without remorse and they have unprotected sex!...with absolutely no discussion about protection...EW! Abigail cheats on her bf (Florian's best friend) with Florian. The gf and the bf cheat with each other.

?Florian is just cruel to Abigail for 3/4 of the book--he knows how she feels about him and he torments her. Just when she tries to move on, he says or does something to reel her back in and keep her hooked. Her bestie even tells her...

"He purposely picks at you, Abigail, and you rise to the occasion. He knows you have a thing for him, and he likes it."

He has sex with her with their significant others down the hall, then angrily tells her to "Get out!" Luckily, his sweetness does come out at the end but it's a little too late.

◆ ?STEAM: medium, 2.5/5

◆ ?ENDING: HEA, Epilogue - 3 years later, No Cliffhanger

This was a recommended read for me.

I am happy that I took the advice.

Always a big lover of taboo love stories, this one did not disappoint.

Believable characters, endearing story line, and although at some points it felt draggy, it was a overall solid read.

Debut novel for Violet Blaze....I look forward to more from her. :)

Abi and Flor have been stepsiblings since she was five and he was 8. They have loved each other for almost all their lives.

**“I love you Flor.. and I’ve been hurting since the day I met you.”**

Their parents are in a long-term and loving marriage but family dynamics are sometimes tense with their parents adopting a “your kid, your problem” parenting style and Abi’s father being less than approving of the tatted up Flor and the many girls he takes home.

When Abi is fifteen, Flor drags her from a party and takes her to their home where he kisses her. After the kiss, 18yr old Flor does his best to stay away from Abi and moves out shortly after. Soon after Abi turns 18 herself, Flor slowly re-enters her life.

**‘Because it hurts too fucking much’ he breathed, voice dark and low. ‘I feel like there’s a knife lodged in my chest and every day that I see you, that I can’t touch you, somebody turns it a full rotation. I’m bleeding from the inside out, Abi.’ “**

The story is told from Abi’s POV and we get to see her struggle with the feelings that borders, and sometimes completely falls over, the line of obsession but we are mostly clueless as to what Flor is feeling. The author did an amazing job with this book and the taboo subject. She explored all the complexities and realities one may face in such a situation. Nothing was tied up in neat little bows simply for the sake of the story and there were no clear bad guys in this book. Often in stepbrother romances you’ll find an evil parent or a neat and tidy solution for them to be together, this definitely wasn’t the case here. At times I got extremely frustrated with the decisions Abi and Flor made and I wanted to smack Abi more than a few times for her constant pining. There were a few plot twists that added to my frustration.

**“ When you touch me, I fall apart. You’re all I think about. And I... you make me so crazy, my stomach is always twisted up in knots. When I see you with other girls, I want to die. No, I.. I want them to die, and I hate myself for it, so stop. Just stop and let me go. “**

The secondary characters were amazing too. Abi's best friend Addi (yes, I know) was the supportive best friend constantly trying to pull Abi back up again after Flor destroyed her in some way. Their drag queen best friend, Theo, and his boyfriend Yuu were there for some much needed comedic relief and cheerleading in-between all the emotional drama.

I've read a good few stepbrother romances recently and mostly the relationships never felt taboo to me. I never felt like they did anything wrong or were ashamed in any way or even that anyone would judge them for their feelings. Many authors conveniently shy away from the actual gritty elements in these books but again, this was not the case here. I very much felt uncomfortable at times.

If I'm honest, the real reason I like reading these book is for the sexiness of the taboo. The stolen moments, secret looks and sexual anticipation appeals to me and there was definitely more than enough of that. This book was sexy as hell and their chemistry burned off the pages.

**“If I stay, it's not going to be as your brother. Instead of squinting my eyes and pretending that you're a nun, I'm going to be wastefully wicked.”**

Flor as the hero was great. He was sexy and mysterious with a touch of adorableness. He was protective and jealous but never really controlling. He was struggling between his feelings and trying to do the right thing.

**“ ‘The smell of your skin, your hair, your breath,’ he whispered, ‘ it undoes me.’ “**

I loved the ending (with the exception of the epilogue which I found to be a bit silly). It felt really realistic.

I really loved this book, not only because it was hot but also because the author dealt with all these issues so thoroughly.

Definitely recommend reading it.

### I don't know how

I don't know how this book got so many 5 stars. The storyline had great potential, but I got really bored and tired of all of Abi's begging, not to mention chasing her step brother. His back and forth was just as bad, I have feelings for you but we can't be together, then kissing her..ugh.

## Annmarie says

I really hated the H for most of the book. He loves his step sister but has sex in front of her for years (leaves his door open at his house for her to see) when they live together and then has sex with his new gf when she is at his shop getting a tattoo and comes back in with a hickey on his neck (16 years old anyone?). The h loves him and obsesses over him for years. She finally gets with his friend and loses her virginity but the friend is an asshole cheat. Anyway, she does all this stuff with the h, his stepsister but still sleeps with his gf. I just hated him most of the book. I don't really care the motivation, he broke her heart so many times. Also, she was so desperate. I wanted her to find someone else, he obviously had NO problem doing it. Anyway, you know how it ends. HEA and epilogue 2 years out. Hmm

What a horrible little sh1thead.  
I love him.

What a wimpy heroine.  
I adore her.

Probably one of the most **impenetrable, enigmatic, frustrating, INSOLENT young** heroes I've come across.  
So much so that even I can't connect with him.  
But slap me silly and call me Milly - I LOVE HIM.

She's immature & probably one of my best written frustrating tsstl-waxing-lyrical-about-his-beauty heroines.  
I wanted to slap her upside the head and drag her away from him.  
Then I wanted to hold her close and tell her all will be well.

**WARNING: Stepbrother Inked contains a shit ton of annoying ass shell of a human-heroine, a dumb as sticks, slutty, can't-make-up-his-sick-little-mind male protagonist, an almost groundbreaking amount of**

*eye rolls, and so much purple prose and filler you forget there was an actual story to go along with it (if you could even call it that.)*

I must be a closet masochist. I knew going into this book that it wasn't going to win any awards. I read the reviews, the synopsis itself did nothing to entice me, but I still cornered myself into reading this steaming pile of sweaty ass that is this book.

*(If I used gifs here's when I would insert one with a woman banging her head against a desk, or wall, or floor, or chalkboard or anything of friggin weight that would get the job done.)*

**Stepbrother Inked** is your run of the mill taboo "romance" story about girl meets boy when they're both young because boy's mom is doing the humpety hump with girl's dad and thus becoming step sibling's, but they both want what they *feel* they can't have. *how riveting*

I contemplated DNF'ing this sonofabitch but I pulled through peeps. I friggin made it through. -victory fist pump-

*As for this bland story...*

Abigail has always had the hots for her stepbrother, Florian. She constantly compares every single XY chromosome to the "all encompassing," "belly fluttering," "bad boy" that is Flor.

I will be the first one in line to admit I have a thing for bad boys. Tatted? **God yes.** Alpha? **Mmhhmm.** Arrogant and cocky with a twist of sweet? **Gimme gimme.**

Flor was what was "supposed" to be considered all those things but failed and fell short in so many ways. I did learn that his cigarette that dangled from his lips constantly fell to the floor though. And he rescues kittens. It would almost be endearing is he wasn't such a mutt. Other than being a tattoo artist, Flor has absolutely no substance whatsoever.

As for Abi, of boy. She was a real damn treat. Definitely the worst of the two, and that's saying something. One of the many things that really got under my skin was her inability to think for herself at all. Every time she was around Flor it was as if she became a robot incapable of coherent conversation. I can't even imagine what this idiot would actually have looked like "in real life." I get being nervous around a guy you like, flustered, shy, even getting the itch that he needs to scratch, but holy balls batman. This dimwit was a mess. A helpless, insignificant, infantile, childish brat. Her thoughts **always** centered around Flor. It wasn't sweet. It was obsessive and creepy as hell. Thank goodness for her friend Addi, who seemed to have the only functioning brain in this whole entire book and one of the only characters that I whole heartedly actually enjoyed. Addi was my breath of fresh air in an otherwise potentially rotten book.

Straight from the horses mouth - ***"Good thing I had Addison there because my mind just flat out refused to work right in Florian's presence."***

**Also, she has a shrine box in which she keeps a lock of Flor's hair.**

Yup. Not creepy at all.

The main problem with this book (aside from all that damn purple prose) was the execution of it all. The author did not make me feel anything aside from contempt for these characters. I wasn't rooting for them, I didn't like them, they sickened and disgusted me and I could honestly care less about anything of substance happening in their lives.

The story itself was boring and predictable. There was no *real* spice. It was pretend/forced spice, like when

you know you have to sprinkle something juicy in to add some "drama" but it just seemed half assed and thrown in like a second thought. And this "spice" didn't even happen until the end. Other than one speckle of drama, Stepbrother Inked is literally all about how hot Abi finds Flor, how swoon worthy his eyes are and how much they could never be. Blah blah blah.

Also, the back and forth that went on between these two assholes had my head spinning so much I would have given Linda Blair a run for her damn money. A dual POV might have helped *somewhat* because Flor's actions were so all over the place and a cluster bomb.

So alas, I'm done wasting my precious time with this crap. I wasted quite enough as it stands just reading it and even more time reviewing it. It just didn't do it for me. That doesn't mean it will be like this for everyone. If the synopsis is of interest to you then have fun and dive right in. Unfortunately this one fell very flat.

**For people with hard limits, cheating is also involved.** There also is a HEA.

### Fre06 Begum says

Want to read about a shameless "heroine" who chases after her stepbrother, has sex with his best friend and cheats with "hero" while his girlfriend is in the kitchen??? Well this book has all that and more!

---

### Syndi says

I have several problems with this book.

1. Where is the connection between the characters? I do not get it why Abigail attracted to Flor. It seems the whole story is Flor abusing Abigail with his treatment to her. He shows up, then he disappears. He keeps hanging a carrot in front of Abigail.
2. Flor. He feels guilty having this attraction towards Abigail because she is his step sister. But he is playing with Abigail's emotion anyway. What a dick!
3. The secondary characters do not enhance the story or the chemistry. I do not even know why the secondary characters are placed in background.
4. What is it with the Japanese slang?? Does not enhance anything or explain about the characters at all.

What I like:

1. The whole forbidden love is promising. Promising a lot of steam. The steam is delivered alright.

3 stars.

### Sue says

This book was my July free read with Amazon Prime and OMG was it ever good. Better than I thought it would be considering I'm very picky about this whole "stepbrother" book thing happening now and want a

really good story to go along with the taboo subject matter.

It was actually very down-to-earth and dealt with the real emotional and ethical issues and consequences of two people in a blended family, having a sexual relationship.

The dialogue was honest (as were the reactions of friends and family) and although at times it veered too much into the area of high melodrama and hysterics, it had a solidly good plot and the characters were well developed.

Flor was mega-sexy and just the kind of bad boy who looked dangerous on the outside, but was really a softie on the inside. Abi was a bit childish at times but strong willed... she knew what she wanted and went after her happiness, while trying to please everyone else.

If you want to read a stepbrother romance that was not written for just the sex and shock value, this is the one for you.

\*\*\*\* 4 \*\*\*\* "yours, mine and ours make it all right" stars

### **Vaso says**

Abigail has a huge crush on her stepbrother. Flor on the other side fights his feelings for her. At some time, they reveal their feelings for each other and they admit that they want to be together. On the background, there is their parents, who are still together and happy. This is when things get interesting. For her debut novel, Violet Blaze did a nice job!! I really liked the fact that there weren't so many detailed love scenes...
