Laura Rachel Wesson

Recently widowed, Laura has no intention of tying herself to any other man. She is finally free of the life she choose after leaving the orphanage. But when evil catches up with her, she is left with no option but to run to Clover Springs. There her friends will provide some protection and safety.

Paul Kelley needs a wife. His Ma agrees with him but the lady she has chosen is not the girl for Paul. He wants a mail order bride, a fresh innocent girl just like the other mail order brides who arrived in town. When Laura arrives with danger hot on her heels, he marries her for her own protection. Now they can live happily ever after

But someone from Laura's past has other ideas...

Laura

Was an interesting outline of living in Clover Springs with some outlaw touches. The story doesnt end there, as it moves on to the next book.

Scarlet Fanning says

Laura Murphy was called a witch by some of the nuns at the orphanage, because of her birthmark and red hair. This made her sore on hopes and dreams that the other girls in the orphanage had over becoming mail-order brides. Yet, as her friends created happy homes in Clover Springs with loving husbands, Laura realized she was mistaken.

Laura met her husband Johnny in a Boston shop. She thought he was a gentleman, till the first time he beat her. Johnny ran a gambling house and used Laura's amazing memory to cheat the other players. When a player caught on and shot him dead, Laura had her chance to escape. She was also shot with the bullet that went through her husband, but Father Molloy found her in the hospital and started his campaign to get her to Clover Springs. She needed a husband FAST.

Paul Kelly needed a wife FAST. His mother was trying to match him with the neighboring woman who was a sore gossip and ten years his senior. Once seeing Laura and recognizing her wounded spirit, his heart was captured. Likewise, Laura was drawn to this gentle man.

Tender story of building trust and fighting gossip, plus kidnapping adventure.

Another visit to Clover Springs, with a story that will activate almost all of your emotions. Laura is not your typical heroine and Paul needs to cut the apron strings-which he does with a flair. Laura has to be one of my favorite heroines. Mistakes made, yes, but she owned them and made the decision to be the best person she could, no matter what the obstacle. Paul did still have a bit of "growin up" to do, but when he did, he was such a perfect hero.

The author also expanded the role of Little Beaver-a secondary character that I hope will eventually have his own HEA in Clover Springs.

A great, uplifting, smile on your face when you reach the end of the book kind of read.

(I received a copy from the author for a review.)

Wonderful

I loved this book. It was a bit different than the normal mail order bride story. Laura got hooked up with the worst of men and desperately wanted out but was too embarrassed to ask her friends for help. Then she long came a priest and helped her get back to her friends.

Memory

It's time for a bride and Paul wants one. Laura is in trouble and Father Malloy needs her to get out of town immediately. Where should she go? Clover Springs of course. You love the trials of this match. Enjoy!

This is another wonderful story in the Clover Springs series. Laura and Paul are not the usual romance get married couple. This story will bring out the emotions in you that these two have to go through in their lives. Will they be able to love each other and be free to show their love?

You do get to visit with old friends and that makes this series special.

I was given this book for an honest review and I love it and highly recommend it along with the other books in this series for great reading.

Start with book one and read your way through them all. The stories are wonderful and take you to a place you will know and love in each story.

Great read

I loved this story! Laura is one strong willed woman determined to do what is right, no matter what. Paul is there to help her, he just needs to convince her that they can be good together.

Paula Melnyk says

Cute novella. I like series where you can get to know the characters and see how they've progressed in the next book. The plots were fairly similar.

The novella was interesting and the characters from the previous books in the series were evident without repeating what had already occurred.

Loved it

Another wonderful book in an amazing series, thank you so much for your words, not so patiently waiting for the next one

Patti Brennan says

Great read

I enjoyed this book it is a story of courage and love and unlikely love. I look forward to another book by this author

Exciting read

Rachel Wesson has written another winner! Laura, one of the girls from the orphanage, has grown up and after a rather sad detour is headed to Clover Springs. She will meet Paul and in spite of his mother they will start off on a new life together. All of the characters are so real you feel transported to the old West. This will also serve as a reminder to all the mothers-in-law out there to please support your sons and their choices!!

Debbie says

Exciting and lots of twists and turns.

Laura never had it easy growing up. Hard to believe a mother superior and a handful of nuns can be so twisted that they are cruel to God's children. Having to leave the orphanage and meeting a man with no morals was bad for Laura. But thankfully karma happened. Very thrilling story. Well thought out. Could not put it down.

A beautiful story

Rachel Wesson has a pretty good grasp of our little inanities, our abilities to overcome even horrid wrongs and the way friends strengthen friends.

Laura: Clover Springs Book Five by Rachel Wesson

I was given an advanced copy of Laura in exchange for a true review!

Wow! Another winner by Rachel Wesson! This story of Laura is heartbreaking! How we get into bad situations and how evil seems to permeate our lives, BUT, true love triumphs! Good wins over evil! Poor Laura has been through so much in her young life but like every good romance, this had a happy ever after! Looking forward to the next book by Rachel whether in this series or a new one! I can't get enough of this new writer!

A way with words

Another wonderful creation made especially for sharing. Rachel Wesson can spin a story to make you cry and laugh all within a few short chapters. Love all of these characters!
