Sam Candace Ayers

A Paranormal Werebear Bear Shifter Romance Series

This is a standalone of about 150 pages with a Happily Ever After ending and No cliffhanger. This book also contains several additional bonus stories to enjoy!

Sam has watched his buddies go through the mate bonding process, and he couldn't be happier for them. Really. He can't help the little twinge of jealousy, though. He's been waiting a long time to find his mate, and he's more than ready.

Presley Grey grew up in an authoritarian household run by her father, a fire and brimstone preacher in the small religious enclave of Macon's Edge. Now that she's free, she feels a little like a calf that's just learned to stand on its own.

When Sam finally comes face to face with Presley Gray, he is overjoyed and relieved to have finally found her. His mate. There's only the small problem, she's already dating his cousin.

NOTE: This is a series centered around the small southwestern town of Burden, Texas, where good ol' bears, Hawthorne, Wyatt, Hutch, Sterling, and Sam are living easy. With jobs they love, beer flowing freely, and pretty women in abundance, the last thing these shifters are thinking about is finding a mate or settling down. But, fate has its own plans....

WARNING: THIS BOOK CONTAINS GRAPHIC SCENES OF A SEXUAL NATURE AND IS NOT INTENDED FOR READERS UNDER 18.

Bears of Burden: SAM is an adult bear shifter romance that will appeal to lovers of paranormal, urban fantasy, shapeshifters, contemporary, and, of course, spicy, sizzling, hot romance.

Amy Hannagan says

I make no secret of being a big fan of the Bears of Burden series. But I have to say, they just keep getting better with each story. Sam has been in the background of the previous books always lamenting that he hasn't found his mate yet. That is why I was so excited to get my hands on his book finally. Sam is a fireman and bear shifter hungry to find his mate. Presley is a lost soul. Her strict preacher father was the law, not only in their home but in their town. Presley, having been lead astray by men, is cast out of the family home, and town, with nothing. We have met Presley in other books and she wasn't the most endearing, but we only knew part of the story. To finally get all of her story and read her connection to Sam is so much fun. This is probably my favorite of this series. I love how the women mated to the other bears always pull together to welcome the new lady even before the stubborn bears accept her. I hope this series continues with more stubborn bears and the women that love them. I requested this as an ARC so that I could post an honest review.

Kiki says

3.5 stars rounded up.

I think sterling probably takes the manwhore of the year award.

But throughout the series Sam has been portrayed as a semi-manwhore as well. The usual cocky too hot for their own good fireman.

However, the supposed manslut which his cousin has adoringly accused him of, also the last one of the series most likely, has turned out to be the only decent one in the group.

As the other guys managed to sleep with OWs the night before meeting their mates, one managed to reject his mate so he can go his merry ways with the buffet sampling and let's not talk about Sterling at all, this one was actually tired of this immature shit, and rejected the OW's advance even before meeting his mate, as politely as possible. May be it wasn't blatant since he was actually a gentleman and he was trying to be polite but he has NOT taken her up on her advance!

And once he figured out he has a mate, no matter who SHE was dating, as far as he was concerned HE was taken, his loyalty comes to her first, even before his friends. He belongs to HER first. He lives to protect her and cherish her.

There was a little safety trigger, (view spoiler)

Heroine was also amazing. Once she realised what she wants, she had a solid backbone. If Sam had cheated on her, she'd have been beyond hurt but she'd have lived. She'd have survived very well. She didn't give him a single backward glance, he had to grovel for something he didn't even do.

As I said, this guy missed the memo on how to manwhore 101.

I think he got how to domesticate a bear memo instead!

?FREE on Amazon today (5/2/2018)!?

Sandi Ramirez says

One Hot FireBear and more

Sam is one really hot FireBear! Presley was raised is what might as well have been a cult from the sound of it. She was kicked out by her father. The small town she was raised in was basically all the religion's folks so she was cast out and sent away. She had it rough for a while until she met Matt. Which led her to her job....

But where does the hot FireBear fit in? Well, he recused her from her house fire and let's just say the fire inside the house was not the ONLY heat that shifter felt.

Love that Candace Ayers gave us extra reads too so if you are not familiar with her work, you get to enjoy some of her other shifter takes too for more bang for your buck.

Nancy Bodie says

Great story

I really enjoyed this well written book. These characters and storylines are easy to like and enjoy! I looked forward to starting each book as soon as I finished the book before! Highly recommend this series!

Cynthia Henry says

Sam

I enjoyed this story; the author didn't make the characters some rich, hopelessly romantic lost millionaires. They appeared to be hard working people, and the mates came from somewhat everyday lives. Sam was a typical good-looking man with no commitments to one single person, until he meets his mate. His mate has issues, but who doesn't. It was an enjoyable read.

Vickey Mcgee says

What a Bear!

Wow! The bears just keep getting better and better in this series. Loved it! There is some sexual content and violence. Sam is so loveable as are all the bears. Superbly written and very memorable characters. Need Mark's story.

LuDena Radford says

Sam

Candace Ayers delivers as usual. Sweet and Spicy romance with a bit of not sex thrown in. The story ends with a bit of a mystery leaving readers to look forward for the next installment of the bears of Burden.

Sarah Justi says

I voluntarily read and reviewed an advanced copy of this book. This series is amazing! Great shorter story PNR! I can never put The Bears of Burden down & this one was no different! Presleys character was new, inventive & I just loved her! Can't wait for more.

Elizabeth Jensen says

Presley is a woman thrown out of the only home she's ever known by her over protective zealot father, after he finds out she was engaged to someone not of his approval and faith. At 27, no longer under her heavy handed father's control and dumped by her supposed cheating fiancé, she settles in Burden, hoping to finally learn what's it like to be an adult and to have choices in her life. Sam is a bear shifter and firefighter, answering a call to a burning residence, only to find that the woman inside is both his mate and is trapped inside. After freeing her, he learns he needs to win her trust before he can win her heart. This book is sweet, has heat and lots of 'aww' moments... it's a great addition to the Bears of Burden series and I would certainly recommend it!! (I was given an arc of this book, in exchange for an honest opinion. I do love this book, this series and would honestly recommend it to anyone who loves a good shifter book with a heal!)

Vintage says

Silly and sweet as a cotton candy.

Reminds me of a *Northern Exposure* episode, "Wake Up Call: where Maggie may or may not have met up with a bear in human form.

BJ says

This had the right elements, H is a bear shifter, h has left awful family of religious zealots. But it went downhill due to silly plot devices, ridiculous characters, especially the h who is selfish and stupid. She had the potential to be interesting, but I could not finish.

Jo-ann says

Can she overcome her father and ex to trust in her new lover?

Presley comes from a strict puritan family and town. Sam is a bear shifter firefighter, who happens to be her

mate. Can Sam get Presley to trust him and overcome her fears?

Come enjoy this and other stories of women finding themselves with the help of their mates.

Lisa says

Fast, feisty, steamy read

SAM is a quick read, with an immediate combustible connection. Full of steam and drama it's not hard to read this in one sitting. I know I couldn't put it down. This is the first Best of Burden book I've read, but after reading this I will definitely be going back to check out the others. Great read!

Becky Baldrige says

A sexy fireman and a bear - what's not to love about Sam? I am thoroughly enjoying this series and was so glad to learn Presley's story. Sam and Presley's tale is so fun and kept me turning pages. I love that the story works as a standalone, but for those that have read the series in order, we get the added bonus of seeing past favorites. I can't wait to see what's next for this series.
