# His First Noelle

*Rhonda Nelson*

**His First Noelle** Rhonda Nelson

*Ranger Security Employee Files*

## **Employee #13: "The Protector"**

Name: *Judd Anderson*

Trademark characteristics: *Tall, dark and deliciously handsome, this former sniper has wicked aim.*

Weaknesses: *Saving girls who are trying to save the world.*

Joining his twin at Ranger Security is Judd Anderson's first step toward a new life. But when he's assigned to protect a key witness in a murder case, the last thing he expects is a rather sexy Christmas angel to land in his lap....

Humanitarian Noelle Montgomery dedicates herself to helping others, so having someone take care of her is completely different. And now that she's in hiding with her hot bodyguard, Noelle is finding her niceness taking a decidedly naughtier turn.

But when the line between protection and seduction is crossed, Judd is compromised. Will he be able to save Noelle...in time for Christmas?

## From Reader Review His First Noelle for online ebook

### Book Dragon Forever says

The book was a bit too quick for the character development that was needed. The lead female was a bit weird.

---

### Amanda Chomiak says

I love every single Blaze I read, including this one. The lovable hero, Judd, and the amazingly selfless Noelle are characters we want to have a happy ending, especially because of their hardships.

The problem, though, was the secondary plotline. It was brilliant and I liked it creatively. The graphic violent threats from Tubby towards Curtis' family, however, left me chilled. I get it, we want to hate the bad guy, but it was disturbing to the point that I was so worried about Curtis' family, Judd and Noelle fooling around in the honeymoon suite seemed insignificant at times. Only for a page or two, but still. I didn't like rape as a threat in a romance novel.

On the whole, a great book, though. Makes me want to read the first in the series to learn more about the twin connection. Oops. I won this book...didn't mean to read them out of order.

---

### Jessie says

An enjoyable holiday read about a former sniper who joins his twin at Ranger Security. His first job is protecting a humanitarian who witnessed a murder in the small town she lives in until the trial starts.

---

### Jean Tallman says

I REALLY like this series but this book started out slow for me. It was the typical, "I am starstruck the first moment book" and it took 200 pages for it to work itself out.

That being said, I read this book in a couple of hours and it was enjoyable. If you are looking for something to pass the time, I would recommend. If you are looking for a "Beautiful Disaster" type book, you should pass.

---

### Bobbi Dodge says

**Great**

I've read the first 2 books in the ranger security. I've noticed that quite often you replaced the capitol I with the numerical 1? Why is that? It there my reading off a little.

### **Malinda says**

Pretty good story. I liked Noelle and Judd very much. It was humorous and enjoyable story.

---

### **Kathy B. (Tx) says**

I'm just such a sucker for military romances and Rhonda Nelson's Men Out of Uniform series is a favorite of mine. This is a great Christmas romance featuring an extremely likable couple. The romance was hot and it was laugh out loud funny.

---

### **Saly says**

Well, this is the second twin's book, the first one was The Professional and now, the hero's brother has quit as well, because he can no longer pull the trigger( he was a sniper). This book is not as good I must admit. The heroine is a do-gooder whose parents don't understand her and then she becomes a witness to a murder. I found the heroine a bit dumb in the beginning especially when it came to her safety, yeah she was a control freak and in times like hers, she should have left it to the professionals. Honestly, I didn't just click with the book and the chemistry was just okay. Though I did like that at the end the book didn't wrap these two in a bow, with ILU's dripping all around because that would have been unbelievable.

---

### **Sheryl says**

A tidy plot line, predictable yet fun and roughly lovable and stable characters.

---

### **Lea says**

Men out of uniform - Book 13  
Paperback version

---

### **Tessie says**

Loved it. :) A quick little getaway with some serious chemistry and a little bit of suspense. I love all of Rhonda Nelson's characters, and this one is no different.

---

### **Melissa Wehunt says**

This was actually a really good reads. It's been a long time since I've picked up a Harlequin novel...too much to read and all that... But I was in the mood for a straight-forward Christmas-ish romantic read...so this one fit the bill. And I was pleasantly surprised. Actually, I was thinking of looking up the author and reading some of her other "Men Out of Uniform" books. I think they are part of this series. So, yeah...if you like ex-military types as your leading men, then this little series might be for you!

Oh, actually, I was reading some reviews and a girl mentioned that the mere mention of "Magic Mike" was enough to bump up a star on her overall rating...and that made me remember how much I liked the author's voice in this book. I can't really think of any examples off the top of my head, but there was a lot of sarcasm and wit in this read. For being just a little Harlequin there was a lot of good dialogue back and forth...and the author's naughty sense of humor came through a lot as well. So, another positive.

## **Goth Gone Grey says**

### **Well done, but I preferred Book 1**

I had to go to this book immediately after the first in the series, which was a fun read. I will be reading more from this author.

An example of the writing, which also serves as a plot recap.

“I mistook you for a stripper when you first walked in and I’m passably attractive. Two hot-blooded single people—one of them newly returned from military service—forced under threat of death into close proximity.” She lifted a lazy shoulder. “Alas, the odds were not in our favor.”

As in the first book, the male lead is a hit, formidable former Ranger immediately entranced by a beautiful woman he's working with. This time it's attempts on her life, not a theft under investigation, which amps up both the plot and the electricity between them. The majority of the book is smoldering, teasing foreplay between them until they can't wait any longer and... (Let's Get It On starts playing). This made for a decent character study, though a bit too isolated from the secondary characters.

---

## **Puna says**

No rating because I DNF. On the first page of chapter 2 "she did work—hard, dammit—but she was paid in kindness rather than cash, satisfaction in lieu of a check." That was enough to make me drop the book.

---

## **Sheryl says**

A DEFINITE 4 star read, but for the MERE MENTION of Magic Mike, I'm bumping up the rating to 5 stars! LOL!
