## Georgia says

I'm giving this story a five even if its not out, because of his bravery through out the first book makes me want to save him. -spoiler- his punishment of having sexual 'encounter' with Angela. I wish there's more hope and luck in this book.

Sweet Josef, he's a loving and attractive character even though hes been through a lot, he gives positive vibe around people that's why I've warmed up to him. even if Jill likes him... what to know more about them...seem interested

Its upsetting how in the first book -Spoiler- that the slaves (Jill and him) could have been in the boat the same time to save themselves when Colin last day, I bet they were punished brutally after weeks of Angela & Colin escape (hope they understand), such a deep dark devastating book its probably going to be. I hope he finds love, great guy to be around. Bless him!

Can't wait longer, going to feel emosh but the adrenaline feeling of what will happen in this book \*suspense\*
