Heart Racer Marian Tee

With the elections coming up and his father wanting a seat in Parliament, Leandro Christopoulos needed to reinvent his public image from playboy underground motor racer to boring upright role model.

The solution: Bobby Granger. Bobby, which was short for Roberta, supposedly the smartest girl in school and recently voted as Young Philanthropist of the Year.

Unfortunately, she was not his type - snarky, old-fashioned, bookish, and most importantly of all – the kind who needed to be in love before going to bed with a guy.

High maintenance was his first thought. Find another girl was what his initial instincts told him. But then Leandro accidentally saw her naked, and he knew he was just going to have to lie about falling in love with her.

Alphas Prefer Curves: Volume One

I received this as an ARC for a honest review in a box set called Alphas Prefer Curves: A Curvy Girl Romance BBW Anthology (Volume One) I will attempt not to post any spoilers but there is always the chance!

This book is broken up into two (2) parts and I can say that it is SUPER hot!! I am loving the lead lady's spirit in not falling for the Greek hottie .. and love it the way she kicks his butt ... man oh man what I wouldn't give to be in her shoes just for a minute!

The twists and turns in this book are completely amazing!! I can honestly say that this book was super enjoyable and I can not wait to read more of these books. When normally I do not enjoy Biker books!

Megan Fall says

Oh my god, I loved this book. Unfortunately it's a cliffhanger! I am keeping this short as I am starting the next one now!!!

Emily Mimi says

El final me hizo llorar. Saco todos mis sentimientos a flor de piel. Me identifiqué tanto con la protagonista. Una encantadora y conmovedora historia. Siento que le faltaron algunos detalles y hubiera podido tener más trama e intriga pero fue una bonita lectura.

Vani says

¿Qué es ese final?

Está "bueno" para pasar el rato, pero en serio, ¿qué final es ese?

Sara says

Pasable! jajaja

Definitivamente ayuda con el paso de las horas en un viaje...!

Leanne Crabtree says

2.5 stars.

This was your usual contemporary romance where girl meets boy, falls in love with boy, boy does something wrong--breaking girls heart...and then usually they make up again and live happily ever after. Only this ended with the boy--Leandro--breaking the girls--Bobby's--heart.

I know it's a series and that the author needed to continue it somehow but I kinda feel cheated, there didn't seem to be a proper ending.

As for the rest of the book, I can't say that I ever really got into it. I was unattached from the characters and the storyline. I don't know if it's because I've read too many books that are similar or if it was the style but something stopped me from liking it. It was just "meh" for me.

I don't think I'll be continuing the series.

He's only 21 and I guess that's why he's such a fu*king idiot! Leandro Criss-Cross, lol, is basically a rich kid who gets into heaps of trouble and can't think for himself...I mean really, WTF is he thinking listening to Valerie of all people? Doesn't she hate Bobby with a passion so intense it borders on insane? Yet he went and believed her? What a loser...

Bobby was only 18 and was way more mature than many of the characters in this book, she had spunk...I liked that, I liked her. I felt bad for the way people felt the need to treat her,she came from money but you wouldn't even be able to tell, she cared about helping others, such a shame all the crap she was put through...

FYI: Book ends on a cliffhanger...

Sue Parker says

Ever get the feeling that you have read a book before? Well with this one it didn't matter I would have gladly read it twice. Leandro wants to find a good girl to pose as his girlfriend so he can help his fathers image. He knows the only way a good girl would go along with the facade was if she didn't know he was just using her. Bobby is just that girl. Only Leandro didn't plan on actually falling for her. She finds out about his plan and

things go really bad. After a year apart they are tossed together again. The Sparks are still there but can Bobby trust Leandro again? He knows that she is the one for him and will stop at nothing to prove it to her.

Why break my heart

Alba M. says

No iba a darle buena nota porque la verdad es un poco... cutre el libro.

Va muy muy muuuuuuy rápido. Ella o es tonta o tan ingenua que casi llega a ser tonta. Porque se monta cada película romántica en su cabeza que no sé de donde las saca.

Peroooooo, la autora consiguió dejarme enganchada en las últimas páginas porque hizo un final de: oh joder!!!! Y ahora necesito leer cómo acaba esto... muy lista Marian, muy lista con ese final jajajaja

Rodgine says

What an idiot.

Elaine Wilson says

The Shrew and The Jerk

Leandro needed a girlfriend and decided on a particular type of girl.

Roberta 'Bobby' Granger wanted nothing to do with the arrogant Greek. So why do his kisses make her feel like everything else disappears.

But what she doesn't realise, is that he has a political agenda.

And then he says those three little words. I love you.

What will happen when she says the words back, but then finds out she's just a political pawn?

Deborah says

Prequel to Driven by Love so ends on cliffhanger.

This book is currently free on allromancebooks.

When I started reading this I didn't realise that it wasn't a stand alone so the ending was a huge disappointment I hate to read a book just to find it left on a cliffhanger.

Cliffhanger aside I actually enjoyed this book, it wasn't without its faults some of the characters for example I felt were a little cliché and Valerie was almost like a cartoon baddie and bits were unrealistic but on the

whole apart from the ending I enjoyed it.

Leandro Christopoulos is a Greek playboy and underground racer his exploits have caused his father to have a heart attack and with elections coming up Leandro is determined to change his image and help his father. To do this he needs a nice wholesome, smart girl, the type of girl he could take home to meet his mother and Bobby Granger is just such a girl after all she's just been voted Young Philanthropist of the Year. Sounds like the perfect plan but feelings become involved and the simple plan turns out to be anything but.
