Jobe Synopsis

Alvarez Security Agency

Former Special Forces brothers-in-arms now working together to provide an elite security service in the southern city of Richland.

Jobe Delaro served proudly with his Special Forces squad, but to focus on his duties he gave up the one woman he had planned on spending his life with. Four years later, seeing his friends find love reminded him that he had never forgotten the woman whose heart he broke.

Mackenna Dunn worked tirelessly with the women's center that she ran and assisting her mother who was recuperating from a stroke. She had tried to forget the man who had stolen her happiness, but was stunned to have him come to her rescue when her program was threatened by gangs.

Mackenna must decide if she can forgive Jobe or hold on to the hurt. Calling on his brothers from Alvarez Security, Jobe is determined to make up for the past and create a future with the woman he never stopped loving, but...he has to keep her alive first.

Will the past forever halt their chance at a future or will McKenna and Jobe finally find healing together?

****Due to scenes of an explicit sexual nature and language that some consider crude, please be warned - for 18+ only! If you do not like alphas with heart who fall instantly in love with strong female characters while dealing with real life issues...again be warned!!*****

Renee Entress's Blog: When I stumbled across this author's Love series, she completely captivated me and since then, I just keep coming back. Her alpha males fight hard and love even harder. And one thing you can expect is when they fall, they fall so hard that they will do anything they can for the woman they love. This book is part of a series and is a standalone but I promise you will want to read them all.

Day Reader Reviews: I can not express how much I love the Alvarez Security men and what they stand for. You will not be disappointed reading Jobe. Jobe holds true to everything Alvarez Security represents and the image they have formed. Great family and friends and they all take care of what is theirs and loved ones of their brothers. A must read, and make sure to read the entire series if you haven't already!

More please

I loved it, at first I hated that he left her but now that he tried to protect her I was all in. This has been a great series can't wait to read more by Maryann.

Wow! Maryann Jordan did it again! She sure knows how to mix the right amount of suspense, romance, and the alpha male together to make one heck of a story! One thing is for sure she's got romantic suspense down to a T!!! I can't wait for more stories! I love me some alpha males with a soft side always there protecting their women!

3.5 stars! Not as bad as Vinny's book, but certainly not as good as the other ones.

Like other characters, I met Jobe in the *Saints and Protection* series as Miriam's brother. Jobe is actually the reason I realized I read the books out of order so it's kind of funny that I read his book last.

Jobe Delaro gave up on love after he witnessed something heartbreaking overseas. He was unable to handle the fallout, his PTSD and trauma from the event making him act without thinking, and he sent a Dear John letter to the love his life.

Years later, he's come to terms that he made a mistake and regretted it ever since. So imagine his surprise when his next assignment brings him face to face with that love.

Mackenna Dunn never got over her first and only love. After she received his letter ending their relationship, she begged him to change his mind. She only gave up after her own tragedies had her focus shift and she did her best to never think about Jobe Delaro. However, easier said than done. For years she thought about Jobe everyday, wishing she knew what she did to make him run.

Putting all of her focus on her work and ill mother, she works hard and sleeps little. Working on a rescue

program to rehabilitate women involved in gangs, she's suddenly thrust into danger when those gangs find her safe house. No longer safe, she calls on Alvarez security to help her keep the girls safe. She wasn't planning on Jobe being one of those agents.

With a second chance in front of him, Jobe is determined to win her back.

Sigh. I had problems with various things in this book. In reverse of Suzanne and BJ's relationship, it felt like it took her too long to forgive Jobe. It made the book drag and I was just ready for them to get over the hump.

I felt like the ending was weak in comparison to some of the others. Not as entertaining and (view spoiler) introduction was definitely not as cool as others.

However, at the same time, once they were together I was really enjoying them being back in love. I liked them as a couple and they fit together.

I also enjoyed the side story and I wish it was rounded up better.

Overall, the series was good. Not the best, but I definitely liked it. I think the best thing about Jordan's writing is she gives us books where couples are actually together and in love. We don't spend a book trying to get the couple together - she does that fast and lets us see them in love. It's the absolute best part of her writing.

I didn't want to finish this. I need more Maryann Jordan books in my life!

Another awesome book by Maryann.

Jobe and Makenna's early story was so sad when they split up. Jobe's emotional roller coaster before seeing Makenna's again was rough. After they split Makenna's life got rough also. When the two meet up again things start to get crazy. Love the emotions between them in this book and how they open up to each. Her current job makes him trying to keep her safe. She is so funny with some of the things that she does. Love the ending. The Alvarez security company is so awesome. Love all of them.

RCK says

I didn't feel the love that Jobe had for Mackenna. If he really missed and thought about her for 5 years why wouldn't he have gone looking for her?

And (again) I didn't enjoy the 2nd half.

I loved this book. It was a fast read that I devoured in one sitting. From the first page, I was sucked in and couldn't put it down until the end, knowing they got their happy ending. This book was sexy, sweet, fun, intense, passionate, and had a sweet love story wrapped with suspense and tons of twists. Get ready for Jobe who is going to make you swoon and Mackenna to make you smile big.

This is Jobe and Mackenna's story. They have history and not all of it is good. They were once in love until Jobe cut off all times. Now years later, Jobe is watching his best friends and fellow brothers slowly fall in love and find happiness... something he wants. Jobe desperately wants that with Mackenna. Now he just needs to convince her of that and keep her safe from the danger brewing.

Mackenna was heartbroken once upon a time ago when Jobe dismissed her and never looked back. She has now achieved some dreams and cares for her mother. But when her life becomes in danger, Jobe suddenly reappears wanting more from her than she is willing to offer. Will she be able to forgive Jobe and move on from the past? Or will someone hurt her before they have a chance?

I highly recommend this book and series!

Best finish but still beginning

This series was awesome. I loved every book and even though I'm sad it's over I can't wait for what comes next :)

I loved writing this book (as I do all of my books). This story is about second chances at love. There are times that life intervenes in our carefully laid plans and decisions are made that are later regretted. Such is the story of Jobe and Mackenna.

It is also about family, friends, learning, and growing in a relationship. If you like my other books, I hope you will love Jobe as well!

Jessica says

The author didn't redeem Jobe for how he hurt Mackenna. I somewhat get it but at the same time, he got off easy, he got off WAY TOO EASY. He didn't have to put in much work and Mackenna initially stuck to her word of not just forgiving and forgetting but then caved when she had a moment of weakness. Halfways into the book but not very long after he came back in her life, she completely let him back in and picked up right

back where they left off like nothing. The only thing she didn't give back was that she loved him but other than that, all was forgiven, trust was given back without him having to work for it, they didn't even try to work from being friends to a couple as they hinted at when she still held her ground. I couldn't be happy for them because everything was wrong and happening too fast.

Both his family, her mom, and everyone around them were pushing her toward him, in listening to what he had to say and assuming he had a good reason for what he did. That's fine for his friends and family, but what about the people that don't know him well, why do they assume that there must have been a reason? Why is there coincidentally people who have knowledge of what the military can do to people? For easy plot resolutions, of course. That doesn't work for me. None of these people had Mackenna's best interests at heart, they all wanted her to forgive Jobe simply because there must have been something that happened to him, no one took into account how much she hurt, how his actions affected her, it was all about him.

She started out someone I could respect because she stood her ground and showed him that just because he regretted pushing her away, that if she eventually forgave him, didn't mean that she was gonna want to give him another chance. But right after she finally decided to hear him out and had a stressful situation she didn't know how to handle, she gave in so easily and it made me resent her even more than him for teasing me that she wouldn't be like other girls who don't make an effort to protect themselves by holding out on starting a relationship again, by taking things slowly to make sure they're truly sorry and can trust them not to hurt them again, to teach them from making the same mistake in the future. How are you supposed to know that they've learned from their mistake if you don't get to know them again at your own pace? Five years is a long time and people can change for better or worse, she wasn't that naive college girl anymore, she was a different person then and now. She became a stronger, smarter, guarded adult who knew better than to trust anybody and everybody.

To say I was disappointed with this couple and their story is putting it lightly. I hated how they "resolved" their past, I hated both of them for reasons above, I hated the side characters for their unwanted advice and unprofessional behavior. Particularly, Tony should have reprimanded BJ and taken Jobe off the job for violating a client's right to privacy and their personal life that had nothing to do with the job. They reminded me of Jennifer when she divulged private information pertaining to Sherrie to Tony and Gabe with an ulterior motive in trying to set them up when she had no business telling them of her plans. These people have no problem violating other's personal lives and thinking that they know what's best for someone when really they all just need to back off and let the couple work things out themselves instead of getting involved and trying to "help" them so they can be happy.

This series was a huge drag to get through and now I'm questioning if I want to even take a chance on her other spinoff series. I think I'll take another break from this author and come back to the other series sometime later this year.

DNF

Did not work for me but may work for you. I loved the premise, but the writing and execution of the plot did not work for me. It felt like too much effort to get into the story. Reading for me is supposed to be mindless...where I can get lost. When I found myself struggling to get through scenes, it was time for me to quit.

The hero sees his friends getting married and having kids and that is when he decides he wants his old girlfriend back?!?!? The one he wrote an email to and told her he did not want her anymore. She wrote him several letters after that, but he ignored them. Now, he is hired to watch the facility she works at and he wants her back BUT THIS IS only after, I feel, like his friends had to talk him into it. The hero is not an alpha if his friends tell him not to give up. It would have been a great second chance romance. (loc 699) This is my opinion. You may have a different opinion.

Multiple POVs. The switch would happen in a paragraph. I do not want to know what the gang members are thinking. That could have been the suspense of the story. I do not need everyone's thoughts and feelings at every moment. I am not telling you not to read it.

Lynn Smith says

Jobe Delaro's whole world changed after a mission. He went from that laid back man, to the man that focused only on the squad. He couldn't and didn't allow anything else in. Including the women he was in love with. Now five years later, he is still focused but the one the men go to for advice on the women each of them have found and fallen in love with. He tells them do that they can to keep them, don't let them go. Mackenna Dunn would do anything to make New Beginnings a success. To get the girls out of the gang life. She would even threaten the gang members themselves if she had to. When Mackenna's friend Jen mentioned the company her husband worked for maybe being to help her out with security. She never thought it would bring back the one person in her life that hurt her the worse.

I loved Jobe in this series of books. He seemed to be the one who had his life in order and the guy to go to about issues of love. When all along he has been covering up his broken heart. Mackenna is a strong women, he went through so much when she lost Jobe, father issues going on at the same time. She picked up the pieces and was doing a job she loved. She is feisty and jumps before. Plenty of suspense and mystery in the story and steamy hot sex scenes. The book can be read as a standalone but you can get so much more enjoyment from the characters from reading the books in order. I was gifted a copy of this book.

Maryann Jordan has given us another amazing read. I was lucky enough to have gotten a copy from the author and she does not disappoint in her latest alpha male Jobe!

Mac is a social worker who's goal is to help young women make a better life for themselves. Providing a safe place to learn skills to be independent. She is total badass!

Jobe is former special forces and works for our guys at Alvarez Security. He is the cool calm controlled one of the group but it's his past that made him need such control.

These two have a history that will pull at your heart strings but both are strong will individuals.

When local gangs come knocking on Mac's door it's the guys we have come to love in Maryann's previous books that show the bother good we love and look out for this women and her dream.

This book is about second chances, life choices and above all Love that can overcome everything

Get ready for your next five star read. I can not wait for the next book!

Another Hot Alpha

I have been impatiently waiting for Jobe and he did not disappoint. He was a strong and sexy Alpha who still carried the scars from his past. He was tortured by his lost love. I love the Alvarez Security series. Each man was more intriguing than the last. They are so strong and protective. Perfect book boyfriend material.
