His Man Susan Ward

His Man is the second installment of Graham Carson's story in the Locked & Loaded Series. Please read *The Manny*, an Amazon #1 bestseller in gay fiction, before reading this book.

Everything changed after we moved. All things in Mexico became things of the heart for Leland and me.

He was a different man.

I was a different man.

And we became different men by being together.

Is that really so different than what happens to any of us when we find the person who completes us? It perfects who we are, our existence, and we become our better selves.

Our life meshed into a comfortable routine so normal we were nearly blasé. Two men—a corporate mogul and his bodyguard—committed to each other, to our work, and to raising a little girl together.

Normal. Average. Boring. Wonderful.

True, we didn't start that way.

But that's what we became.

And Leland is definitely my right guy.

My everything.

Our life was perfect—until it wasn't...

Exciting! Full of twist and turns!

I loved His Man! I don't know what I was expecting but it sure wasn't this. This is one of the most exciting books I've read in a while. There's FBI, CIA, mafia, terrorist and all kinds of stuff going on. Who did what, who is lying and a bunch of I didn't see that coming. And oh yeah, its hot!
This is a great series!

Every Single Book

By Susan Ward makes me weep, in a good way. This is no exception. I have been waiting for this title to come out for months, and was so excited to see it in my Kindle library yesterday. I immediately put everything else aside and jumped in. Holy hot beautiful story. Graham is a hot beautiful man, and I can't get enough of him. Excellent read.

Christina Bowling says

I have mixed feelings about this book. There's a lot of things in it that bothers me, both about the plot and the characters themselves. I wanted to like it, but... it just isn't the book for me. I was gifted a copy.

Sandra Leblanc says

OMG

I loved it, Susan Ward has a way of writing that draw's you in and don't let you go, this book will make you made, cry and can't put it down.

Let me start by saying that this is simply my opinion and nothing else. I have a horrible memory for authors's names and titles so it was not until I had started the book that I realized why the plot and the characters sounded familiar (I read the first one in the series). So, why my low rating for the book:
** The two main characters provoked extreme dislike in me, almost a visceral nausea feeling. I cannot stand attitude and I cannot stand game players. One of the main characters is a total egomaniac and the other manipulates the so-called love of his life with sex. In my books, two people I would avoid at all costs
** Even if I had not disliked Graham's arrogance, rudeness, and totally deluded self-image, it's hard to respect a character that's supposed to be the hero when he acts like a chihuahua, all bluster and then you pat

him on the head and he's totally docile. That's all Leeland had to do, get naked, offer him a BJ, and it was like Dory from Finding Nemo... "shiny object, shiny object"

** I gave the book two stars and not one because I thought the ending was pretty classy (the letter) and the author brought the whole mess together and tied it up pretty well with a nice bow

Obviously, the book did nothing for me and that doesn't necessarily mean it's a bad book or that the author is bad, it simply means that I was not the right audience for it. I'm sure there are plenty of people out there who enjoyed it based on many of the reviews I've read

Karen Lane says

4.6 stars

I really enjoyed the second book, but one thing stopped this one from getting a higher rating, and that's because of the fact Lee always got his way, and I thought Graham acted like a girl at times, he gave in all the time when Lee threw sex at him, and never confronted him with the real issues. I liked the espionage theme to the storyline but again I felt Graham lacked gumption at times, he kept saying he'll deal with it later sort of thing. I'm not sure whether I'll read the next book, cause I'm pretty happy where it ended especially with the excerpt from book 3 in the back.

Graham Carson has always been a favourite of mine, but I really didn't like Leland in the first of Graham's series of books away from the Parker saga. However, I think this book greatly redeemed him. He's kept a lot of secrets and been a huge douche at times, but once we find out what he's been up to and why, I think I have to concede he's worthy of our Graham. Once again, any scene with Patty and her neighbours is a hoot, and I look forward to reading more about them in the next in the series.

Ashley N Stephens says

Loved it.

I really enjoyed the plot of this story. Although, I was frustrated with both Lee for his lies and Graham for always caving to Lee in bed. All in all, great ending. Will be fun to continue their story when All In is released.

Robin says

Great read

I really enjoyed this book. It had me on my toes for almost the whole book. Books don't make me cry but this book made me cry at the end. But it is a great book! I recommend it.

Cheryl says

I really enjoyed this follow-up to The Manny and hope that there are many more books in the series. Wow, it was really hard to like Leland in this book. Graham was lovable as always. I felt really sorry for him and how much he struggled. He has such fierce commitment and to see him torn between Lee and Ella was difficult. This one had quite a bit of angst but with great story resolution. And, there is definitely room for more adventures.

I voluntarily reviewed an ARC of this book.

This book was so great. It was very easy to seriously dislike Leland until literally the last couple of pages. This book was totally different than book 1 of the series, The Manny. The feel has totally changed. It's a year into Leland and Graham's relationship, they're living in Mexico, and Graham is still guarding Ella but is also her father-figure much of the time while Leland is gone traveling for work. The real problems begin when Leland brings his work home and things go downhill quickly from there. Between the CIA, FBI, terrorists, cartels, and his mother, Graham has his hands full.

LOVE, LOVE, LOVE THIS BOOK.

Linda says

Loved it!

Renee Page says

I loved The Manny, and loved the depth of the characters, particularly Graham. I was hoping for more insight into Leland in this book but you really don't get that until the very end. Ella is so adorable, I love every scene between her and Graham. And Patricia...she is hilarious and yet always seems to get to the heart of things, in a round-about manner.

There is much to love about this book. I just wished for a little more about Leland. A third book that really delves into their relationship would be great.

I voluntarily received an ARC of this book.

Graham and Lee

I'm loving this couple. Loved Patricia and her no nonsense actions. Loved the action and how it all turned out. I did hate when the book ended? great series.

Pamela Mitchell says

This book continues the story of Graham and Leland and is so beautifully written, I felt a real connection to the characters. I devoured His Man in one sitting and laughed, cried and sighed through the humorous moments, suspense, intrigue and steamy moments. Graham's mother, Patty, was so wonderful and rounded out the plot. Susan Ward doesn't disappoint and I look forward to reading more this talented author. I voluntarily reviewed an advance reader copy of this book.
