Give Me Something I Can Feel B. Love

Charlie White is probably the most bubbly, charismatic, and friendly person one could ever meet. After getting a second chance at life via a new heart, Charlie vowed to make the most out of life – no matter what cards she has been given.

Knight Carver is probably the most angry, guarded, and anti-social person one could ever meet. After losing his mother because of diabetes complications, Knight vowed to never lose another person he loved – he detached himself from the rest of his family completely.

When Knight returns to Memphis during the NBA off season, his 16-year-old pregnant sister needs all the help she can get. Charlie's bedside service for expecting mothers is just the help Knight and Harlem both need.

Although he fights it, Charlie's personality and beautiful smile immediately melt Knight's stone heart. He refuses to let her or anyone else know that, though. It doesn't matter how attracted to her he is, or how drawn to her he finds himself, Knight has no plans of loving someone only to have them ripped from his hands like his mother was.

Because of their meeting, one of their hearts will be changed forever. Charlie has the chance to use her love to give Knight something he hasn't felt in years, or allow the stress of his pessimistic attitude to damage the heart she waited anxiously for. That's what love does, you know? It fills you with empowering strength, or makes you devastatingly weak.

What will be the outcome for these two?

*The spinoff for supporting characters is Saving All My Love for You.

sigh 74% through and I can't do it. I made a promise to live in my literary truth, which is to read what I wanna read when I wanna read it. And the truth about this particular book is, I no longer want to read it.

I'm really disappointed because it started off so promising. It was funny, I enjoyed the characters, I was into the plot and then it kind of just fell apart. The thing about contemporary romance novels and me is, I need for the story to feel authentic, for the characters and their journey to and with one another to feel organic. Otherwise, I might as well read an urban fantasy or science fiction novel.

The characters in this book kind of went from not knowing what they wanted, to being thrown into the fairytale whirlwind romance and that to me just isn't realistic or interesting. Everything between them was just too perfect and the pending conflict was telegraphed from the very start of their relationship.

To be honest, I was just bored with the story because I wasn't enjoying what was happening currently and I already knew what was going to happen in the coming chapters and I just didn't see the point in finishing.

I was going to try and force myself to read the last 30% of the book so that I could at least give it a rating (I don't think it is fair to rate books if I can't finish them) but that would have gone against the promise I made myself at the start of this year...

So with that being said. DNF - My search continues.

So Good

What an enjoyable read! I really liked the story. It was well written and played out in a way. I was rooting for the couple to have their happy ending.

Charlie was in for the fight of her life but was given a second chance by a gurdian angel. Fast forward years later, and she's afraid to use her gift to love a man...any man. When she meets Knight, the sparks are instant and unexplainable. When certain truths are unearthed, can their love survive?

This is my first book by B. Love and I must say the plot is very unique. It kept my interest for sure. I haven't seen such a topic taken on in many AA romances so kudos to this author on that. Knight and Charlie's chemistry was evident from the beginning and I liked them as a couple. However, this timeline is off for me with the instant-love: in no time these characters profess love. I'm not saying that's not plausible, but I didn't feel it in the words so it wasn't realistic for me. Maybe more detailing would have helped me feel it more; idk. And even with the conflict, it occurred and then was solved lighting-fast. I get this isn't a very long read but I just needed to feel that what I was reading was actually happening and in some scenes I didn't get that. The end slowed down somewhat and I liked that at least some time had past and the epilogue was concluded in a way that left no questions about Knight and Charlie unanswered.

Awesome Story

I loved Charlie and Knight's story. This was a heartwarming and touching story and I thoroughly enjoyed it.

This was my first time reading something from B. Love and I was not disappointed. I'm looking forward to reading more of her stories. Can't wait for Harlem's story.

In this book, it was less about the story and more about the meaning.

The underlying love of God and love of love and the love of one's self makes this novel stand out.

Of course, I loved Charlie and Knight, who wouldn't? But it's what was weaved throughout the story that endeared the story to my heart.

Knight lost his Mom at a young age. It caused him to lose his faith, his ability to love, and it had him running from the only family he had left.

Charlie is all sunshine and bubbles but life hasn't always been good to her. Heart problems almost took Charlie out but by the grace of God and through a random stranger's kindness—she has a second chance at life.

With a budding business, and a heart of gold—Charlie through a teenage pregnancy captures the heart of Knight—the anti-social, gentle not-so-gentle giant—and what we're left with is a love that will touch even the hardest heart of readers.

I liked this story—B. Love has written some decent stories, and this is no different.

A slow-building but obvious romance, a spunky soon-to-be teen mom, and a couple dead set against love made this story enjoyable to read.

Love that takes effort and is not easy makes for the best kind of romance novels. I'd take a hard slow build over a quick satisfactory insta-love novel any day.

The conflict comes very close to the end of the novel—though the characters give us some push back, you don't have to deal with a lot of useless or ongoing arguing—which is a plus in my book.

Though this is not my favorite of Love's, it was worth reading and I feel invested enough to read Harlem's story—which comes after this, so that's a win.

Short version: Slow-build romance. Two bleeding hearts meet, a pregnant teen eggs the two on, familial issues lead to conflict, love brings a resolution, and a baby brings the happy ending.

Recommended for romance lovers.

Each book I read by this author just gets better. From the chase- to the romance between the couples, these stories are ones that capture & hold my attention & have me anxious to read the next. Highly recommended!

Good read !!!

OK this story was out of the box for me different but in a good way . The love that Charlie and Knight felt was magnetic from the beginning . The only thing I didn't like was when Knight found out what Charlie was hiding from him and acting like a fool and she took him back so quick I wanted Knight to sweat a little . I can't wait to read Knight sister story .

Give Me Something I Can Feel

Whenever I read a story I'm always looking for something profound and unique. Well, I found that uniqueness in Give Me Something I Can Feel. Charlie and Knight's story was beautiful, real and honest. I felt as if I were a part of their story, I was not just reading a book, but I was living the story with them.

The beautiful friendship they had and their honest conversations made me smile several times. The charity gala and the things that took place after the gala made me exhale. I did not realize I was holding my breath until Charlie revealed her secret to Knight. And this conversation ("You can't love her with all of your heart. You've got to love her with your soul. Love her with your spirit. Your heart is the seat of your emotions. Emotions... feelings... they change. They waver. They're inconsistent. Your soul is how you connect with humans. It's your morality. It's who you are. At the very core of your being. Your spirit is how you connect with God. Love her with your soul by connecting with her mentally. By being the man she needs to lead her. Love her with your spirit by growing closer to God and leading her to him. Above all... keep in mind every day of your life that every day of your life is not guaranteed. Every day is a gift. A present. Make the most out of every day that you have with her. Don't worry about losing her. Don't worry about materialistic things or things that don't matter. Things that hold no true weight in your life. Make memories.") between Knight and his father was icing on the cake for me. It's what made the story uncommon and special. There were other moments similar to this one between other characters in the book that will make your jaw drop to the floor and have you saying, "Did I just read that? Let me read that again."

I read a lot, mostly Christian fiction, but the godly wisdom that is expressed in this book is better than some of the Christian books I have read. I can't wait to read Harlem and Tage's story, it will be interesting.

Faith and fate

Knight stepped up for his baby sister, which lead to him meeting his world. Both Knight and Charlie were closed off but their connection opened them up. Her unique situation with his mom was beautiful and serene. He almost let his words that were said in anger lose her. Charlie was just the sunshine needed to make his world brighter. They learned how to trust, love, and be vulnerable and honest with each other. Faith and fate is what brought them together.
