When you're hurt by love, it's the last thing that you think about. You try to avoid it at all costs. For six people, they will learn that love may be attainable and it may be like nothing you've never felt before.

Buddah lived by the motto, "Fuck 'em and leave 'em in the dust. He caught himself slipping five years ago and it left his heart and trust broken, indefinitely. For a while he thought this, but soon when he encounters Massika, it will have him wondering if he could love again.

Massika's heart was not in it to be in love. All she was focused on was her career, friends, and family. When she encounters the very rude and handsome, Buddah, things will change. Will she embrace that love could be in the air or ignore all of the signs?

Adreena has lived a tragic life since she was younger. With love, it has always been a miss. When she feels like love has finally reached her in the form of Banks, she will have to do some serious soul searching. Will she be able to see true love or will she let the problems in her life blind her to the possibilities? Banks was a heartbroken soul who finally found the one in Adreena. Will the many tests that come in his way stop his quest for love or will he overcome the obstacles in his path?

Mona was never one looking for the love of a man to make her feel better. She was scared to put herself out there because she didn't want to experience heartbreak. When Bailey comes along, she doesn't know what to do with herself. What would she do when he comes along and tries to show her the love that she deserves. Will she run away or actually realize that love is the thing that she had been running from the whole time?

Follow these twenty-somethings as they go through many hurdles and obstacles as they experience love, heartbreak, and everything in between. Will they find love or will they forever be alone? Find out in this gripping story of love, sex, drama, and violence.

Disappointed

I initially was enjoying this book. It got boring and took me forever to finish. Chock full of errors and a wavering storyline. Why don't they just check the security footage to see who took the kid? Maybe part 2 is better.

Great Job

At first Buddab was so cold hearted and nonchalant I really thought my dude would be single throughout the whole book but Sika came in and saved the day. Lol they are so cute. Let's not talk about Dreena and Banks and Bailey and Mona. Everyone is definitely finding their happiness and peace and it all turns sour in the end now that ending tho who is that?

This is my first read by this author and I really enjoyed it from beginning to end. It flowed at a steady pace and I fell for the characters right off the bat. Well written and the characters were developed with room for growth. Held me interest and can't wait to see what happens next. Job well done Queen Keishii.

Okay then!

I bet that was Major that walked in the room. I will be glad when they do something with that Fendi and Lex! I love how Buddah and Sika have got together and are in love hopefully she's pregnant too. Bailey and Mona took a chance on their friendship and became lovers and they're happy. I know some mess is about to go down with Adrian missing.

??????????

This was a really good book. It's crazy what happened to Buddah. I wonder if Jamari's is going to pop up in the next book. Fendi and Lex need to get handled ASAP. I felt so bad for Adreana, her mama wasn't? I love Mona and Bailey together. Can't wait to see what happens next.

Good book

I loved Buddah and Banks they were a trip. I loved Buddah and Sika together opposites attract. Adreana and

Banks were good together you could feel their love. I was glad Mina stopped playing with Bailey and got with him. I hope Fendi get what's coming to her fake behind. I can't wait for part two.

Bangin'

I thoroughly enjoyed this book. I love the demeanor of Buddah with his rugged ass as well as Banks smoothness. I'm ready for somebody to put that wammy on Fendi loose coochie butt and I hope Major got a good explanation as to where he has been.

Once I really got into this book, I was on edge trying to get to the next part. The couples are sooo adorable. Massika and Buddah are my favorite

Taz Will says

Not bad, a bit slow in the beginning, Buddah behaving the way he did just to flip all that and move her in was silly though. There could've been soo many other reasons for them to come together besides that one. The ending was good so I'll be reading the next one.

Great read!

This was my first book that I read by this author, and I was not disappointed! This book was really good. I loved Buddah's rude self, and think Massika is perfect for him. I hate all that Adreena has been through. Hopefully everything will work out for her and Banks!! I can't believe that ending, but have a good idea as to who that is. I can't wait for part 2!
