The SEAL's Little Virgin Blythe Reid

I see the way everyone in the bar watches her. Most of the men in the f*cking place old enough to be her daddy. Hell, I'm no different.

Except she doesn't give any of them 'f*ck-me eyes.' Only me.

The sweet little thing better watch herself, or she's going to find her knees sore, her lips swollen, and her body owned by a big mother f*cker like me.

She thinks she can handle herself in the bar, but I wonder how quickly she'd cry out in the bedroom.

After a long couple of years overseas, I want two things.

Time with my son and a long week of being f*cked nice and hard by the pretty little virgin down at the base bar that's finally legal.

I don't want her to cry Uncle. I want her to cry Daddy.

And she will. Over and over and over again.

A single father navy SEAL and a virgin romance. He's 16 years older, and she's dying for a chance to experience a night with him. She has been for most of her life. Poor thing. One night will never be enough.

This book is short and sweet, but is also steamy hot. This is an older man and a younger woman romance. Trace is a Seal, and Embry is a virgin, saving herself for the one. Is Chase that one? At first, I was a little upset over their first night together. My thoughts were that Embry should not have to go through two firsts on the same night, but then I told myself, if she didn't care and was very happy with what happened, then who was I to be upset about it. From then on out, I just sat back and enjoyed, and enjoy I did. I voluntarily reviewed this advance copy, and I highly recommend it.

I love single dad stories, but this didn't hit the spot. There was barely any scenes involving his son, and by the end of the book the heroine was more of dad's new wife than a stepmom to a motherless child. I didn't like the flow of time. It could have been described passing in a better way. It was like something would happen, and the next paragraph would be describing the next morning. I just really couldn't get into it. Two stars for finishing.

He's Her Last?, For The Very First Time??

This is a hot sexy ?read, with plenty of xxx scenes, but I have a problem with the premise of the book. Embry?? is a virgin at 22, and she comes on to tall, ripped,? handsome, Navy Seal, Trace????, like a pro. At least like a well experienced woman?. That makes the whole story have a false ring to it. Trace???? tells her he's a huge guy, and proceeds to pull out a duffel bag full of toys, saying he needs to stretch her for him. Then, the next ?night, it's like nothing. They're doing it ?for her very first time, and it's a piece of cake. No pain. Nothing more about his size. Then! To make matters worse, Trace does her in her number two hole, then goes right into her number one hole! No cleaning up, no putting on a condom. Can you say bacterial infection!? Please don't try this at home! That's a real life continuity problem! Guess I need to add stupid to his description.

We all know that a lot of this stuff in romance ??books is science fiction, put in there for effect, for shock value, to help create a fantasy.?

I felt like Trace's son, Ben, was an extra in this x rated movie. He is conveniently shuffled out of the way to his grandmother when Trace's sexual needs gets the best of him. Ben is an inconvenient truth! The book left me feeling uncomfortable about Trace?????. He seemed like a guy who was all about himself and his job first, then his son second. For all the years that Embry?? was saving herself from the sizzles at the ?bar, she gives it up almost instantly to Trace.???? That is inconsistent with Her character.

Trace???? is a naughty spankster?, a binder, and the proud owner of a huge Johnson!?
YEHAW! Ride em Bareback?, Cowgirl!????

A quick read about an older man and younger woman, sixteen years apart, falling in love, getting together and staying together. Navy seal Trace has been waiting for his weekend off for a long time, waiting to see his mom and son Ben and ever since the hot kiss they shared, the hot little bartender, Embry. Embry has had a crush on Trace for as long as she can remember and after their kiss last year, she can't get him off her mind. When Trace finally comes home, and comes to see her, sparks fly between the pair. As the new couple begin to discover the chemistry between them, they realize that they both want more than just a fling. I voluntarily read and reviewed an advance copy of this book.

I received a copy of this book for an honest review.

Trace is a Navy Seal. He is looking forward to this weekend wit his son and mother. He does after all leave for periods of time on missions. He adores his family but he also has caught he bug for Embry. Embry is the young woman who runs the bar along with he granpa and has caught Trace's eye. Last time he was home they kissed and now he is hoping for a reunion. Will Trace get the reunion he is hoping for?

I really enjoyed this short story. There is a lot of story too packed in the pages and I like that it did not feel rushed or like something was missing. Trace and Ember. This story also packs the heat and will melt your kindle and your heart at the same time.

Blythe Reid has done a great job on this short story. I can't wait to see what comes next.

Anne Baker says

Fantastic taboo read of an older Guy and a younger woman. Trace the navy seal was the father of 12 year old Ben he took custody of 9 years ago. He had given Embry a hot kiss a year ago whilst on leave and he had been saving himself ever since. Embry loved his dominant nature and their instant attraction. A really hot melting panty read. This is my honest review of Kew of an ARC I received.

Modern says

I received this book for a voluntary, completely honest and non incentivized review. There's something to be

said about a man who knows what he wants and goes for it. In this case, Trace is said man and Em is the target. Their chemistry is hot, sexy, deep. There's not a lot of opposition or drama in this book. It's more the quick evolution of their relationship. Still a good read.

Kristen Lewendon says

Holy...! Turn up the air conditioning because you're going to need it. The age difference between Trace and Embry is an important part of the story, but it isn't the central part and I really appreciated that. In fact, the only times I really noticed the difference in their ages was when another character brought it up. When the pair are together, outside of the bedroom, they're really sweet together. Almost from the beginning Trace talks about forever with her. Sure it's sometimes a figure of speak for a guy to get a girl where he wants her, but this SEAL is a man of his word and when he says "forever" he truly means it. When this pair gets together in the bedroom, be prepared for some ultra-steamy 'adults-only' scenes that are going to leave you reaching for the ice water.

I received a complimentary advanced copy of this book.

Di says

A short steamy read about an older SEAL, Trace, and the young woman, Embry, who works at her granpa's bar at the base. Their first kiss was one night before he left for a year for duty but now that he's back he's going to make her his and makes her his he does.

An enjoyable steamy read with no one trying to break them up, no exes coming between them and no over the top drama. A read with the right amount of steam, a man who doesn't brag about his conquests and isn't a man wh*** during the year he's apart from the woman he wants and will do anything to make that woman his. Along with a woman who doesn't shy away from him and doesn't play games and who is mature enough to handle him. The perfect read when you need a break to put a smile on your face and make you feel tingly all over. Can't wait for the next one from this author.

This was a really quick read that was full of heat! I really enjoyed this sweet and steamy romance between Trace and Embry. I loved Embry's self confidence and the fact that even though she was a virgin she didn't shy away from what she wanted. Sometimes I struggle with stories when the girl is a virgin and then she is sex crazed, but it felt natural in this story. I think that had a lot to do with the way Embry felt about Trace. I also loved that Trace could be so sweet and tender, and then be aggressive. And thank-you, Blythe Reid, for making the story about them coming together instead of someone, or something, trying to tear them apart. I LOVED THAT!

Jacqueline Ellison says

A hot SEAL and a spit fire virgin who are so sexy together. Trace has a twelve year old son he is raising after his wife cheated on him. Trace's mother helps with raising and caring for Ben when Trace is deployed.

Embry works at her grandfathers bar and is a twenty two year old virgin. She gets hit on all the time working at the bar but tells the guys off. Excellent storyline and characters that are well written. A very fast read that is enjoyable and a definite must read. I voluntarily received this book to review for my honest opinion.

Viper Spaulding says

Wow - quick and dirty meet hot and steamy! This little book really packs a lot of heat inside. Trace sets his sights on Embry, and it's a good thing she's already been crushing on him because he doesn't have any time to waste! This is a great insta-love romance with a lot of heart and plenty of steamy action. I voluntarily reviewed an ARC of this book.

Laila Viking says

This is a very well written book. I like the story line and plot. It is very fast-paced but in this case it suits the story. It is an enjoyable read that keeps the reader captivated from the first to last chapter.

It is a very short but easy read. It is written in dual POV which gives the reader the thoughts and feelings of both main characters.

This story has hot scenes and great chemistry. There are aspects in the book that are worth the read and makes the reader think about them. It is also a fun and sexy read. The characters are relatable and the age gap - older man/younger woman - is in this cage no problem.

I received a free copy of this book and am voluntarily leaving a review.

Deal's little virgin

Could you call in love with a man 16 years older than you? Well that's what happened in this story.

She has known in for a very long time and had a crush on him.

He has a son, his ex-wife, he found her cheating on him with another man, so he kicked her out, she wasn't much of a mother to their son anyway.

Their just something about her that he finds to be genuine, soft and caring, one night when they both had a little too much to drink they shared a kiss, and neither can forget about it.
