Pucked Up Love Lili Valente

Wanted: Discreet Dominant gentleman to teach maybe-submissive woman the rules of the game. No whips, chains, paddles, handcuffs, ropes, or toys. No nookie. No creepy stuff. No butt stuff.

No gluten. Just the facts, Sir.

Serious enquiries only. –CuriousCat4

When I see the ad in the Portland Alternative’s “Love Wanted” section, I can’t resist the urge to respond. Yes, it’s dangerous—as a star forward for the Badgers I have a reputation to protect—but I miss the thrill of calling the shots in the bedroom and reading that ad is the first time I’ve laughed in months.

So I reach out to Curious Cat about the “educational” opportunity...

A few sizzling—and hysterical—emails later we arrange to meet. I’m hoping we’ll have chemistry, and I might finally be on my way to getting over my ex-girlfriend.

And then the gate to the beer garden swings open and in walks Hailey.

My ex is Curious Cat, and this experiment just got a hell of a lot more complicated.

?But I never back down from a challenge—on or off the ice.

I keep my educational offer on the table—six weeks of submissive lessons. Six weeks to learn how to drive a Dominant man crazy, and then we part ways as friends.

What do I have to lose? Except what’s left of my heart?

Both still reeling from their recent breakup, Will and Hailey deal with it in different ways. As a player on the Badger's hockey team, Will pushes himself on and off the ice. Hailey falls head first into her job working at a gym, teaching self-defense classes, and spending time with her little sister/best friend.

Feeling a little curious, Hailey places an online ad to find someone to teach her about the BDSM lifestyle. She emphasizes that the lessons will be platonic, information-only ones. Will sees the ad, and decides to respond to this student to offer her lessons. After getting a reply to her ad, Hailey and her "Gentleman" professor exchange a few emails before meeting. Neither of them are prepared to come face to face with each other. Both still hung up on the other, for their own reasons, they decide to proceed with the lessons, and see where things go.

I love this second-chance story. Lili gives you all the feels in this one. There are lots of laugh, plenty of dirty talking, a few years, and your heart is filled with gooey goodness. I absolutely loved this, and can't wait for the next in this awesome series.

Oh my gosh!! This is by far, my favorite book in this series!! This is book 5 in the Bad Motherpuckers series and just when I thought it couldn't get any better, it did!! This story is SO different!! I was definitely captivated from the beginning!!

Hailey loved Will so much, but decided to walk away. Why would she do that? Well, you must read this book because what a journey Lili Valente takes the reader on!!

Will is into BDSM. However, he loved Hailey so much that he gave up that lifestyle just for her. He never told her he was into it. When she broke up with him he was crushed. After a year, he thinks he's finally ready to try his BDSM lifestyle. He gets sidetracked answering an add on a website to be a "teacher of BDSM". No sex, just a lesson. For whatever reason, he decides why not!

I love this story for so many reasons! Second chance love is always a good thing, and the scenario that this author sets up has me not wanting to put the book down!! Will is hot, patient, loving, and so in love!!

Pucked Up Love is the fifth book in the Bad Motherpuckers series from the great Lili Valente, and it continues with Will and Hailey. The night Will was ready to propose, Hailey went running before he could get down on one knee. Left stunned and confused, Will had to go on living without the love of his life. What he thought was a done deal was anything but.

Hailey was so happy with Will and a future with him was everything she ever wanted. That was until she discovered Will's secret desires, and the man she thought she knew was anything but. Questioning whether she could meet all of his desires, Hailey became Curious Cat. A woman in search of finding answers about a

world of dominance and submission. So when Discreet Dominant answers her ad, Hailey and Will are thoroughly surprised to find themselves standing in front of each other. Could this be their second chance at love or will Hailey go running for the hills for good this time?

Will and Hailey turned up the heat and their relationship was a great addition to this series. I couldn't put the book down and loved how they both uncovered a side of each other that was intriguing, riske and exciting.

I can't get enough of these Portland Badger hockey players!!! Just when you think that one of them is your favorite, Lili Valente goes ahead and makes you fall in love with another one:)

Will Saunders has it all, a successful hockey career, great friends and a woman that he's about to propose to. But when the moment comes and he's down on one knee his girlfriend Hailey does the unexpected...she turns and runs. Now almost a year later Will is still trying to move on and get back to his normal life, which just happens to include a little BDSM. After keeping that part of his life a secret he decides it's time to get back in the game.

Hailey Marks wants to make Will happy more than anything but when she accidentally discovers his secret she freaks out and bails. But after living without him she begins to rethink her stance on the D/s lifestyle. If only there was some way to learn about it and see if it's for her. Maybe she could find herself a Dom teacher to show her the ropes...

This book is equally as sexy as it is funny. The characters are lovable and a pleasure to read and throw in some of the other Badger players and it's bound to be a good time. I would highly recommend this contemporary romance.

Such a great motherpuckin' series!

I am always in stalker mode for more of this author and series. Discreet Dominant and Curious Cat were worth the wait as this second chance romance ticked all the waiting boxes! All was well, great in fact, or so Hailey thought. When they broke up, they both were left with many, many questions and a feeling of loss so profound, it couldn't end that way. It just couldn't...

How they reconnected and rebuilt those intimate ties was a lesson in self-control and soul-searching that was hot and emotional satisfying. So many questions – and answers to them all – came slowly, as they built back the bonds of honesty and trust. There were tears and laughter plus a chance for me to connect with the characters as they went through it all. I devoured each page much too quickly as I felt their pain, and experienced their joy.

With sisterly love and support and a friend for Will when needed, they weren't alone in their journey. So while I didn't want this story to end, I admit, Bree and Shane are on my radar and I can't wait to read more about them! ~Diane, 5 stars

****My thanks to the author for providing me with a free copy for an honest review****

It's books like these that make me want to watch ice hockey on You Tube as we do not have it where we live, especially if they are anything like the Badgers in this series.

This book will have you with yet another favourite member of the team in Will and the fact that he was willing to deny a part of him for Hailey.

After a year apart Will and Haley meet up again after an ad in the paper, not knowing who will be there after the initial email exchange. It is through this that the pair reconnect and Will patiently teaches Hailey what it would be like should she wish to have him as her dominant in the bedroom.

Poor Hailey has had a bit of a rough time after battling leukaemia and the thought of BDSM initially scared her away as Will was her first.

The characters really pull you in and you cannot help but hope they get together and are able to iron out the little kinks that stop them from being properly happy.

I really hope there are more books in this series as each book becomes my new favourite.

Sandra Shipman ~ Two Book Pushers says

Pucked Up Love is the fifth book in the Bad Motherfuckers series by one of my favorite authors, Lili Valente. I recommend reading the previous books because they kickass but you don't have to to enjoy this sexy, fun, and sweet story. The synopsis sums up the story wonderfully so I will try to make this short.

It has been almost a year since Hailey walked away from Will. The only man she has ever loved. She had her reasons. He had to accept them. He didn't like it. She was the love of his life and he thought he was hers. They were not together for 5 months. It was five years! And one year later after the break up, he was edging closer and closer to going back to the BDSM lifestyle that he was apart of before he fell in love. And what better way than to give guidance to a woman who wanted to know about being a submissive. No sex. Just lessons. He could do that. Easy, right?

It would have been if Curious Cat, the woman he had been emailing for weeks wasn't his ex. She wanted to learn more about the lifestyle for another man. He hated thinking about Hailey with someone else's hands on her. Especially, if she was going to be with another Dom. One who could hurt her if she didn't know what she was getting into. They decide to move on with the lessons. Six weeks to show her what kind of pleasure and pain she could be getting herself into. Will she graduate top of her class or drop out?

I do love a good second chance romance and is definitely one that I loved. Will and Hailey's story is full of heat, laughter, friendship, and heart. They definitely have aspects of their relationship to talk about. They want to be happy and to do that they need to be themselves. One hundred percent. To be honest with each other. To communicate. To trust. Can they get everything out in the open if they decide to give their love another chance?

Overall...I loved these characters! Will is fucking hot, sweet, supportive, and fun. Hailey is a badass who is trying to find her way. They made me swoon, flushed, and cry! I loved every minute of it and can't wait for the next book.

P.S. yeah...I know, it wasn't short.

Quotes:

"I didn't know you played the piano."

"I didn't know you liked tying women up and spanking them," she says, her breath rushing out before she adds, "Sorry. I didn't mean that. At least not the way it sounded."

This kiss stakes a claim, makes demands, and issues a warning—back away now or prepare to be taken in ways I may never have been taken before.

"Yes, Curious. I will make you sorry for being such a bad girl, and then I will make you come so many times you'll forget your own name."

"Never been fond of my name anyway, sir." She presses a kiss to my cheek that is every bit as sweet as she is.

Marybeth says

Funny, sweet and sexy as hell, you will absolutely fall in love with Will Saunders! When Will and Hailey were together he hid something pretty important about himself, mainly his dominant tendencies in the bedroom. She thought she was holding him back so she left him. They have been apart for a year now and Hailey has decided she wants to see if she could be everything Will needs because she still loves him. She puts an ad in the personals for Submissive lessons and low and behold guess who answers the ad? The shock was something else to say the least but since Will never stopped loving her either, this seemed like fate to him. This is such a good story that had me laughing, swooning, tearing up and smiling so much! Their banter back and forth through email and their interactions in person both in and out of the bedroom are chock full of sizzling chemistry! Can their lessons turn into a lifetime? Can Hailey be what Will needs? Will she want to once she sees what is involved? Does he really need that to be happy with her? Will she truly enjoy it and want that life for herself given that she is such a strong independent woman? Will he still respect and love her if she does? Don't worry, no cliffy here. All these questions will be answered in this sexy story.

I love this series and all the bad motherpuckers!!!

A Review of Pucked Up Love by Lili Valente

Will and Hailey - 5+++++ Stars

If you've read any of the other books in the Bad Motherpuckers series, you will already know Saunders (Will) and have read a small bit about Hailey. We finally get to find out what happened with them and how they ended up in the position they are currently in. Like the other members of the Portland Badgers, Will is a lovable character with flaws of his own that make you want to pop him upside his head one minute and kiss his boo-boos the next. Without giving any spoilers, this is one book that you will want to pick up at your earliest convenience. Well worth the price!

Pucked Up Love is the fifth book in the Bad Motherpuckers series but the fabulous and talented Lili Valente. Lili is one of my go to authors. I always know she's going to hook me from the first page and keep me hanging on and flipping pages until the very end. This is one of my favorite series! Sexy hockey players are a definite must for me! Lili's early books are sexy, erotic romance with dominant alpha men. Pucked Up Love bridges Lili's early books with her romcoms. Sexy, hockey playing Dom? Yes, please! Will and Hailey broke up a year ago. Will still hasn't moved on, but after seeing an ad for a Dominant gentleman Will can't help but respond. He wants to help Curious Cat. He wants to be that man again. The one who needs to dominate. But when Curious turns out to be Hailey, he doesn't know if he's happy or mad. Why does she want this? Who does she want to be submissive for? Will can't say no. Maybe this will be the closure he needs. Or, maybe it will be their second chance. Pucked Up Love is an epic second chance romance with a side of Dom/sub and I loved every word. I laughed, teared up, had to fan myself and just wanted more Will! If Lili wrote an entire book of just emails, I would be the first in line to buy it!

I don't want another woman. I want this woman, this sweet, sexy, delicious woman.

"I get it," I say.

"What do you get beautiful?"

"Not knowing what comes next is part of the fun," I say as he sets me on my feet. "The uncertainty and being just a little bit scared - it makes everything so much more intense."

Tami Talbert says

Once again, Lili Valente has penned a puckaliciously fun, hot and sexy hockey romance. We had a little glimmer of Will and Hailey in earlier novels in this series but Pucked Up Love gives us the completion of their story which I know we have all been anxiously awaiting.

Though their hearts were joined for years, when she learns that Will has been holding something back in their relationship, Hailey runs away from the match she always believed was perfect. Now it's a year later and neither Will nor Hailey's hearts can let go of the love that had always consumed them. So she's decides to open her mind and take a chance on learning about the world of dom/sub relationships in the bedroom to see if the perfect fit she always believed they were goes even deeper. But when the ad Hailey places in hopes of delving deeper into new experiences, she is stunned to discover that Will is the one who answers it. Now as they both try to keep their feelings shielded as they begin to partake in the "lesson plans", their hearts become more entangled than ever before. But is this new world in the bedroom which ignites passions in Hailey she never knew existed what she is really looking for, and can they both find a way to make this change in their relationship bring them back to the happily ever after they've always wanted to share together?

As with each one of the couples which came before, Will and Hailey quickly pulled me back into the Bad Motherpuckers series and kept a tight hold as a turned each page. The shenanigans they share in the bedroom virtually set my iPad aflame as the heat of passion ignites their souls helping them to discover together a world they've never experienced with each other. It's always fun to revisit all of the Badgers and their lady loves that we've met in the past which remind me each time I pick up a new addition to this series how much fun, hot and sexy they all are. Wow Ms. Valente! Pucked Up Love is another score (puck in the net if you will) for this series.

Sassy Southern says

Ok I think this is the most intense book I've read by Lili. The intensity of the love that Hailey has for Will to do the research in his lifestyle choice once she finds she can't live without him. After 6 months apart, they were together for 5 years and she found out a secret of his and she felt she wasn't good enough for him. So she set out to fix it of course she didn't expect him to answer her ad. Then the intensity that they had will he was teaching her the lifestyle of D/s was off the freakin charts!! It was so freakin hot and steamy that I needed my hubby plenty of times!! I highly recommend this book!!! - By Tina

Will and Hailey

This was an ok read for me. I loved the story line. They were together four years before breaking up. Will was into the Dom/sub scene before Hailey and put that life behind him for her. She didn't know about this past life and when she finds out she breaks up with him thinking she's too "Vanilla" for him. Fast forward one year later. Hailey decides to seek outside help to educate herself to see if she can be a sub and win Will back.

I loved that she wanted to try and educate herself to see if the lifestyle could be for her but I hated Will's approach. He is completely in love with her and never stopped but he tries to keep it just sex between them at first instead of having a more intimate connection, something they both miss and crave. I get he's committed to teaching her the Dom/sub ways but I think they had a strong relationship to begin with and they could have incorporated his lifestyle slowly into it as opposed to it being all or nothing.

I find I either LOVE the ones in this series or they are just ok. I will still read others.
