## Memories Unwound Ruby Dhal

*Memories Unwound* is a collection of free verse poems and prose that tap into the thoughts, feelings and ideas of the author. Each piece aims to go beyond just words and reveal an emotion; love, pain or happiness and by the end of it, the prospect of attaining solace. The author uses 'memories' as a title to emphasise that it is universally relatable - as readers should find at least one (or more) piece(s) that reminds them of a previous experience that they have had/ emotion that they have felt, hence becoming a 'memory' that is unwound in this book.

Each piece aims to fuel the realisation of sentiments that fabricate our very being, and by the end of the book readers are shown the possibility of hope, redemption, closing 'old chapters' and moving on to make new memories.

### Michaela says

Memory Unwound by Ruby Dhal is a beautiful collection of poetry to be savoured. For fans of Rupi Kaur, her and Dhal have similar writing styles. These poems are certainly not as biting or intense as Kaur's but that isn't to say they are any less meaningful or hard hitting. Instead they are understated and elegant. Dhal writes that "each piece aims to go beyond just words and reveal emotion". The title emphasises poetry that is "universally relatable" and these words are just that. Beautiful, flowery and pleasing words describing common feelings, a universal understanding that I would struggle to put into any words let alone such beautiful poetry. Memories Unwound is life poetry, so many phrases and ideas that I can relate to in my day to day life. This collection was highly enjoyable and is something I can pick up, flick to a random page and find words that will settle my soul. I highly recommend giving this collection a go.

A nice relaxing read. This style of poetry leaves you with few layers to unpick but the simplicity of the language works well with universal themes of love, heartbreak, revival and healing.

A light, pleasant read. I enjoyed most of these poems, although I found the author's use of the dash-italics at the end of every poem was a little forced. I can appreciate it for its style, but I just didn't find it fit every poem.

Was another short poetry book however this collection took me some time to read i actually enjoyed processing the poems and mediating on them. You can really feel the passions and soul of the writer with the collection however, i read it at a rather busy and hectic time period with work and school. It was just what i needed for the time I will note this collection is more so relationship with people(self) not necessarily work or school related but it still made me think.

This was a wonderful collection of prose. As far as most modern poets are concerned, their work is... lacking the emotion and style to pull in the reader.

While this wasn't my favorite collection, I was still impressed with her own unique style and truly enjoyed much of the content. Personally, my favorites were mostly in the beginning of the book, so it kind of fell a little flat. Not that it wasn't good, but – like I said – I preferred the beginning. There were some pieces that I felt weren't really “pieces” but more, a random thought on a page. But many of the pieces in here had substance, and that was what I was looking for!

Overall, a great collection to read if you're like me and want MORE than just those one liners on every page of a book.

No words can describe how beautiful this book is. Everybody has a journey and I felt every word that writer wrote. Her journey she took and came out as a beautiful butterfly. I was touched
