James Lawner says

This was presented as a "graphic novel" but all it does is use screenshots from the episode that this was based on and slap on speech balloons and sound effect words. This is a poor attempt at a cash grab and a graphic novel. And since this doesn't qualify as an actual graphic novel, I won't even put it on the respective shelf! Also, this book is based on 2-part pilot episode, but they only adapted the first part! *groan*
