The Zillionaire Vampire Cowboy's Secret Werewolf Babies Nine Naughty Novelists , Juniper Bell , Meg Benjamin , Kate Davies , P.G. Forte , Kinsey Holley , Kelly Jamieson , Skylar Kade , more... Erin Nicholas , Sydney Somers ...less

Theirs was a love that nature never intended. Bigger than Texas. Hotter than Hades. Weirder than...a lot of other things you might have read about up until now.

Self-made zillionaire Rock Fangsworthy is your typical Texas cowboy. Well, sort of. Typical in that the only thing this lethally sexy lady-charmer with the hair trigger temper loves more than his horse is his ranch, The Double Fang. Or maybe his boots. Less typical in the fact he's also a four hundred year old vampire with a shocking secret: he can't stand the sight of blood.

Buffi Van Pelt is just your average girl-next-door winery owner--or is she? The spunky single mom to twin boys also happens to be a winsome werewolf with secrets and troubles of her own. The winery that the gutsy good-girl recently inherited from her grandmother is on the verge of ruin.

If Buffi can't find a use for the mysteriously tainted wine before time and her pantry's limited supply of red meat runs out, she and her pups will be left homeless, destitute and very, very hungry. Worse yet, her baby-daddy is the same hunky, bad-boy vampire rancher who's out to steal The Best Little Winery in Bloodsuck from under her paws.

Once upon a time their passion flamed hotter'n a summer's night in Dallas with three Cheerleaders and a side of habanero sauce. Tonight, love's lightning might just strike them twice--but only if the wine don't kill them first.

From Reader Review The Zillionaire Vampire Cowboy's Secret Werewolf Babies for online ebook

Diane ~Firefly~ says

Fun tongue-in-cheek story by 9 authors taking turns writing the chapters. It took a ton of cliches and put them all in one story. Just the character names themselves are hilarious - Rock Fangsworthy, Buffi Van Pelt, Chastity Feelsgood and Billy Bob Bobson. Rock can't seem to ever remember if it's been 3 or 5 years since he last saw Buffi, plot points just conveniently occur (and mention the fact). For 99 cents, it is a fun, short read.

Troubletail says

I downloaded this because the first chapter had me cracking up, but while there were a few really funny scenes here and there, most of the jokes wore thin awfully fast. The authors' choice(s) to load down the romantic rival with cliches didn't help, either- the frequent goldigger/'bimbo' jokes at her expense got tired and irritating even faster than the rest of the humor.

Of the Nine Novelists, the only two whose chapters I really enjoyed were PG Forte and, to a lesser degree, Juniper Bell- the others may very well be fine romance writers when they're taking themselves a little more seriously, but their comedy left me wanting less.

Tina "IRead2Escape" says

The Zillionaire Vampire Cowboy's Secret Werewolf Babies by Nine Naughty Novelists is an absolute joy to read. This book was written by nine different authors (Juniper Bell, Meg Benjamin, Kate Davies, PG Forte, Kinsey W. Holley, Kelly Jamieson, Skylar Kade, Erin Nicholas & Sydney Somers) each taking a chapter or two and adding their own brand of style and humor to the story. Don't get me wrong, if this book was an attempt at a serious story it would be epically bad. By the same token, since it is a parody it's a masterpiece in cheesiness, stereotypes and pun worthy lines.

Rock Fangsworthy is a self made millionaire. He's not the typical Texan, though. He's a vampire with a blood phobia. He has a couple hundred year old grudge against the Van Pelts and he's never forgotten it. The Van Pelts not only stole his land, but they turned it into a winery, for the love of Texas. Now, the oldest Van Pelt is dead and he's going to make the new owner and offer they can't refuse. He'll finally have his land back and settle the score.

"If it has tires or testicles, it's gonna give you trouble."

Buffi Van Pelt is not the typical girl next door. She's a single mom to twin boys and, oh yeah, she's a werewolf. She's, also the new owner of The Best Little Winery in Bloodsuck that she inherited from her grandmother. The winery is in trouble, but Buffi is determined to turn it all around. She quickly finds that she has more problems than a failing winery. Her summer love, Rock Fangsworthy, is back and wanting her land and business. She can't let him find out that she is keeping a very big secret from him after all this time.

“He was a moth to her flame, a marshmallow to her campfire, a redneck to her bottle rocket...”

This book is laugh out loud funny in some parts and smack your head groan worthy in others. I really, really enjoyed the clueless Rock and how he struggled figuring out the most obvious things. I found myself uttering really? constantly throughout the book. God love him, I'm not sure how he has made it 400 years. The bad guys were even more clueless, but in such a good way.

It was fun to read in each chapter the different writing style of each author. You'll love this book as long as you don't take it seriously.

You can find this review and others at <http://tinar1121.blogspot.com>

Kellie Maddox-Ward says

This book was funny as! 9 different Authors wrote a chapter each, but they all maintained the "funness of it" are were able to take "the piss" out of the genre's. It was classic. Some of the stuff had me literally Laughing Out Loud or giggling out loud.

The main characters names are
Rock Fangsworthy- You Hero Cowboy Vampire Zillionaire
Buffi Van Pelt- The werewolf next door
Billy Bob Bobson --The Vampire Slayer
Chastity Feelsgood-- The Buckle Bunny who wants Rock

Here's some of the line's that make it an awesome laugh

“Yeah your adding two plus two and getting three hundred and sixteen!”

“But Rock, If were you, I'd have sex with me.”

"Rock no. think of the twins!" (she meant her twin boys)

"Who told you?" Rock gasped, gaping openmouthed at her like a carp. "Forget the twins! They meant nothing to me! I sent them back to Dallas over a month ago. Along with the cheerleaders."

“Well, then we'll Gooble some different ways to murder someone and you can pick your favourite,” she cooed.

“Gooble??”

“You know, that internet thing where you look stuff up.”

“You mean Google?”

“ Yeah, whatever.”

“You have such a big...buckle,” she purred.

"Oh Buffi, baby. You slay me."

"Enough with the telepathy. If only he had a cell phone. things would be solved so easily with one simple call. But that would ruin the whole story..."

"Rock Fangsworthy was a man of action-- gruff, manly actions like boldly striding across rooms and

menacingly narrowing his slate-blue eyes."

She rolled her eyes. "Real vampires sparkle when they're out in the sun. Everyone knows that."

"We belong together. It doesn't matter to me if you're as sharp as a cue ball or have slightly uneven boobs or that your master plans are about as useful as a trapdoor on a canoe."

..the man who's love pole had vaulted her into motherhood? The man who's seed had sprouted within her, bearing such beautiful, furry fruit?

"You want to talk about appropriate TV programmes while we could be playing Ride the Fangy Stallion?"

Betty Lambert says

This book was soooo funny in spots and also very stupid in spots. I like the story line and there were like 8 authors, each doing a chapter and continuing the story line. Was a short pick me up story. There could have been a lot more editing done here but it didn't detract from the story. I recommend if you want a quick, funny, pick me up story...Quite interesting the way it was done.

Alexis says

Fun! A silly parody that mixes romance genres with hilarious results.

Shurn says

I've heard that laughter is the best medicine... If that's true, I'm officially as healthy as the horse Rock Fangsworthy rode in on. I laughed constantly & loved every ridiculous moment of this absurd book!

It feels good when a book exceeds your expectations!

This book is written by a collective of authors known as the Nine Naughty Novelists, the authors took turns writing full chapters and I can only imagine how much fun it must have been for them to pass their work around to each other... I'd like to take a moment to share the Warning listed at the front of the book:

Warning: The book you are about to read is a parody. Any resemblance to serious literature is accidental, unintended and should have been excised by the authors prior to this point. Readers who attempt to find a deeper meaning within these pages put themselves at risk of developing Brain Cloud, Brain Fever or, at the very least, serious confusion and existential despair. Read responsibly. Prepare to laugh.

This is like the book equivalent of a cheesy B-Movie. I got the distinct impression that the authors were deliberately attempting to pack every paranormal romance cliché into 116 pages. Mission accomplished! There's a lot to talk about, so let's get started.

Rock Fangsworthy

A Zillionaire Vampire with a fear of blood, owner of the Double Fang Ranch

Rock Fangsworthy was a man of action—gruff, manly actions like boldly striding across rooms and menacingly narrowing his slate-blue eyes.

Buffi Van Pelt

A Werewolf, owner of the Best Little Winery in Bloodsuck, and mother of Rock Fangsworthy's secret twins

When he kissed her like this it set off a firestorm of lust and longing deep inside her. Not an actual firestorm, of course, just something that felt like one without all the messy burning, charring smokiness that would have accompanied the real thing.

Chastity Feelsgood

A human gold-digging idiot who is hoping to take Rock for his Zillions

Chastity closed her eyes and counted to ten, which was about as high as she could reliably go without dollar signs...

Billy Bob Bobson

A wannabe Vampire Hunter hoping to prove himself by taking down Rock

“We belong together. It doesn't matter to me if you're as sharp as a cue ball or have slightly uneven boobs or that your master plans are about as useful as a trapdoor on a canoe.”

How awesome are those names, by the way? All of the characters in this book are over-the-top caricatures of the folks we typically meet in Paranormal Romances, and they're perfectly crafted in their silliness and interactions. The sex in this book was equally lampooned, the authors took the time to carefully spoof the sexytimes we've come to love with awkwardness and absurd euphemisms. Speaking of which...

THE ABSURD EUPHEMISMS:

I'm only listing some of the laughable moments, because we would be here all day otherwise...

(For Sex)

*his mighty tool plowed her tender furrow,
playing Ride the Fangy Stallion,*

(For a Vagina)

*passion chamber,
throbbing lady softness,*

(For a Penis)

*manroot,
icy lovecicle,*

Yes, I loved every single stupid moment of this book, and I even gave it FIVE STARS which is rare for me... Read it. Love it. Tell me all about it!

Some of My Favorite Moments:

(view spoiler)

Malinda says

3.5-4 stars

This was a pretty good story. Fair warning...this is not what I'd call a serious romance/erotica. This story is a fun and cheesy read. I give you the first paragraph of the story as an example:

"It was a dark and stormy night in Bloodsuck, Texas—the kind of night vampire cowboy Rock Fangsworthy

loved best. All except for the stormy part. Too much rain made the brim of his Stetson go limp. And if there was one thing Rock wasn't, it was limp. He was rock hard, through and through, from the flinty gaze in his slate-blue eyes to the diamond-tipped spurs on his custom-made, hand-crafted Lucchese lizard skin boots. In fact, Rock had only one soft spot, and that was for his ranch, the Double Fang."

Rock Fangsworth is a vampire (who faints at the sight of blood) and is the owner of the Double Fang ranch. He wants to buy out the winery next door but when he goes to try to buy it from the new owners he finds a past lover, Buffi Van Pelt (who is a werewolf), is the new owner. They had been together 3 years before and split up due to a fight (details unknown). Buffi is torn about seeing Rock after all these years, especially since it's only to try to buy the winery so things don't go well on their first meeting. As you may have guessed from the story's name, Buffi has a secret she hasn't told Rock about and with him only seeing her to try to buy the winery she's not sure she should tell him the truth.

At this time, Rock actually has a gold-digger named Chastity, as a house guest. She's willing to do whatever it takes to sink her claws in to Rock because all she cares about is money and sparkly gifts. Chastity isn't exactly smart and uses her implanted boobs to try to get her way with men. Things get even more messed up when a vampire hunter named Billy Bob Boberson comes to town looking to stake Rock. Billy Bob isn't real bright either but he does add some interesting twists to the story as he and Chastity end up in cahoots trying to scheme their way in to money they didn't earn.

The story takes place over a couple days so obviously Rock and Buffi get things worked out pretty quickly. There's a number of back and forths as they try to stay away from each other but can't resist each other. Eventually they manage to forget about the past argument that broke them up and realize they want to be together. They manage to take care of the situation with Chastity and Billy Bob and (once the secret has been shared) start their HEA.

This was a fun, enjoyable story. It is cheesy though so this story is not for someone looking for a serious romance. I totally intend to read the Nine Naughty Novelists other book *If You Give a Duke a Duchy, Or, Love's Savage Whiplash*. I'd recommend this for anyone looking for a fun read. :D

A couple more quotes to give you a feel for the story:

"Chastity Feelsgood had been told—more than once—that she wasn't the brightest bulb in the box. But that didn't mean she wasn't bright at all. At least, she was pretty sure that's not what it meant."

"She gave him a sultry smile, that sexy wolf smile that had haunted his dreams and fantasies for the last three years—or was it five? Whatever.

"You have such a big...buckle," she purred.

"It's custom made," he moaned. "With the Double Fang logo."

Then she flicked the leather belt against his ass with a bite of stinging pleasure.

"Ah! Buffi! You vixen."

She paused. "I'm a wolf," she corrected him. "And don't you forget it."

"No. Never." He kissed her once more.

She dropped the belt to the floor with a clunk of the heavy buckle. Then she dropped to the floor, too, her

fingers now working at the fly of his jeans. When her fingers closed around him, her touch on his throbbing manroot almost brought him to his knees, and once again he gasped her name. His jaw clenched. The vein in his temple throbbed. He threaded his fingers through her pelt of golden hair and held her head as she used her mouth to take him to paradise, used her lips, her tongue, even, dammit, her teeth, those sharp, predatory, meat-eating teeth that made him just a little nervous when she was having lunch downtown. He groaned."

"Sometime later—much, much later—Buffi drifted back down from another delicious cloud of bliss she'd been floating on. Something was digging into her back. She slipped a hand beneath herself and pulled out the handcuffs then, with a secret smile, tossed them aside. She ran a hand up and down over Rock's rock-hard muscles.

"Mmmm," she said. "Oh, Rock. That was so good."

They lay twined together in her bed, sheets tangled around them. Her body ached with sweet satisfaction. He was the only man who could ever make her feel this way. It had always been like that between them. Uncontrollable. Undeniable. Unclothed."

Jocelyn says

Hilarious!

I had the privilege of meeting 6 of the Naughty Novelists when I attended the RT Booklovers conference this year in New Orleans. After talking with them, I downloaded this book just for kicks and grins. It. Is.

Wonderful.

This is not a "real" romance, this is a parody of bad romances. The character names, the terms they use for body parts, the blatant over acting, it all comes together like a bad soap opera, and I loved it. Honestly, it takes talent to be able to write that badly and still have a decent story. I laughed the whole time I was reading it.

Thank you, Naughty Novelists for this book! I look forward to reading your other collaborative works as well as your individual titles!

Sexyladi says

Kooky

It was Unbelievable, very corny, laughable and a waste of time to read. It was unbelievably hilarious not to mention very predictable storyline.

Krissy P (Kris) says

This book made me laugh my ass off. One of these days, I will give it the proper review it deserves.

Jae says

I did not enjoy this at all. Too silly (not in a humorous way) to even contemplate to call it a story. What a waste of my limited time. :(

Mrs. Badass says

:shakes head: *blames Mandi*

Funny book though :P:

Best .99 on Amazon right now. This extremely funny, parody of all things Romance and Paranormal, had me giggling the entire time I was reading it.

I can't even begin to review it, other than to say that if you need a good laugh, and mindless entertaining fun, then pick up the Zillionaire Vampire Cowboy's Secret Werewolf Babies...

OMG the title :Dies;

Laura the Highland Hussy says

<http://www.demonloversbooksandmore.co...>

When I saw the title of this book I giggled a bit, as it is pretty ridiculous. Then I read a few reviews. "Oh, game on!" was all I could think.

I wanted a fun and fast read-I got it, boy did I get it. My cheeks hurt from smiling and laughing to myself. Obviously this book is poking fun at some of the stereotypical Romance novel cliches. There are 9 authors who each took a chapter, and it is so much fun-I can only imagine how much fun each author had emailing her chapter to the next one.

The basic plot is that Rock Fangsworthy, vampire cowboy, pardon, *zillionaire* vampire cowboy, wants the neighboring lands for his ranch. The owners, the Braveheart brothers, have made it into a winery. But the last of the Bravehearts dies, and he thinks he can sweet talk the new owner into selling. How was Rock to know that the new owner Buffi Von Pelt, was his one and only love?

Buffi had moved to the winery her grandmother had left her to raise her twin werewolf/vampire boys Ivan and Vlad and to make a fresh start. But when Rock shows up at her door accusing her of trying to kill him, and demanding she give him the winery, the sparks they are a-flyin'.

Features a zillionaire vampire cowboy who faints at the sight/thought/scent of blood. A single mom

werewolf who never told the vampire cowboy of her dreams that she was pregnant with his twins, and two very inept bumbling villains.

I'm adding all my favorite quotes from this book. Trust me, you'll laugh! All the euphemisms for Rock's manhood had me cracking up-icy lovecicle, love pole, his love spuds...you get the picture.

"Rock Fangsworthy a vampire? Ha! ...Rock can't be a vampire at all."

Billy Bob crossed his arms. "Oh yeah? Why is that?"

"He doesn't sparkle."

His brows scrunched together. "What are you taking about?"

She rolled her eyes. "Real vampires sparkle when they're out in the sun. Everyone knows that."

"Rock Fangsworthy was a man of action-- gruff, manly actions like boldly striding across rooms and menacingly narrowing his slate-blue eyes."

"Enough with the telepathy. If only he had a cell phone. things would be solved so easily with one simple call. But that would ruin the whole story..."

"He smirked. They'd been wild last night. He looked to the trash can by her bed, pride sweeping over him at the two--count em, TWO-- condom wrappers at the top. He'd rocked her world, alright."

"Rock no. think of the twins!" (she meant her twin boys)

"Who told you?" Rock gasped, gaping openmouthed at her like a carp. "Forget the twins! They meant nothing to me! I sent them back to Dallas over a month ago. Along with the cheerleaders."

"Oh Buffi, baby. You slay me."

For just \$.99 this is so worth the laughs. It's a fun and since it's short, you never get tired of the silliness (you know how with Austin Powers the first one is funny, but 3 movies later you're over it?) And next time I need a laugh, I'll read If You Give a Duke a Duchy, Or, Love's Savage Whiplash which is the next book by those Nine Naughty Novelists.

VampireRomanceBooks That'sErotica says

With such a crazy title as, The Zillionaire Vampire Cowboy's Secret Werewolf Babies, I wasn't sure how I was supposed to take the book seriously. Well, you aren't supposed to! The authors actually have a warning in the book letting the reader know it's a parody and not to be taken too seriously. Once I read that, I decided to just sit back and enjoy. I'm glad I did. I was already laughing before I got through the first paragraph. With character names like Rock Fangsworthy, Buffi Van Pelt, Billy Bob Bobson, and Chastity Feelsgood you just know you're in for a wild story.

Even with the hilarious names, and the fact each chapter was written by a different author, the story wasn't all fluff. The entire book flowed well from author to author and never went beyond a level of silliness that made it painful to read. Rock and Buffi's storyline had depth and even being presented in a comedic way kept me reading to make sure they got their HEA.

If you're looking for a good story to lighten your mood and make you laugh out loud, then you need to pick up The Zillionaire Vampire Cowboy's Secret Werewolf Babies! You'll love the way these characters interact with each other. Who wouldn't want to be serenaded with KISS' "I Wanna Rock N Roll All Night" by a drunk, sexy vampire named Rock Fangsworthy?
