The Second Book of Grimm Shiloh Walker

Heroes don't always come packaged in shining armor.

Grimm's Circle. Two more mind-bending tales that will change the way you look at fairy tales...forever.

Crazed Hearts

Out of necessity, Ren hides himself and his empathic ability far away from people. A woman finding her way to his wood is a surprise; his unexpected reaction to her is overwhelming.

Aileas isn't sure what she's running from, but it killed her brother and a cursed book is connected. Then there's Ren, who seems to want something from her. And she wants him right back, shadows and all. At least, until he claims to be a guardian angel. And she thought she was going crazy.

Tarnished Knight

What does Jack need Grimm training for? Perci can see he's a one-man wrecking crew, and something...more. Even covered in blood, he makes her feel more alive than she's felt in three centuries.

Born with a natural talent for killing unnatural things, Jack has an unholy urge to see how fast he can turn Perci's don't touch me into touch me there. When they come together, the cataclysm resurrects memories of a destined love from the distant past. And calls forth the evil that destroyed them once before.

Warning: Dark, sexy, a little bit scary—these fairy tales are only for grownups and are best saved for bedtime.

Four stars for the first story, two for the second.

It was fun discovering who exactly Ren is (though I wouldn't really consider his identity to be a fairy tale character). My only beef with this story was that Ren was made out to be a crazy man, which didn't translate from his personality in the first two stories in which he appeared.

The Rapunzel story was horrid. It started off with a complete deal-breaker for me as a reader, but Shiloh Walker threw in a savior clause at the last minute, which did not work for me at all. Still considered cheating, in my book.

Wasn't too happy with how Ren's story ended. It reminds me of the ending of Hunter's Salvation with Vax. I still enjoyed the story, though.

I pretty much hated Perci in the beginning because I felt for Luc. Once I got the whole story, I stopped hating her, but I couldn't bring myself to completely like her. I just didn't really care too much for her and Jack. If it wasn't for Luc, I think I would've loved their story. I know it doesn't make sense because Luc and Perci weren't meant to be, but still.

Excited for Luc and Sina's story. :)
