## Amor en subasta Emilie Rose

Holly Prescott había rechazado la riqueza, con todas sus ataduras, a cambio de una vida más sencilla. Pero una irreflexiva promesa de “comprar” a un soltero en una subasta benéfica la llevó hasta un hombre inesperado: el exitoso banquero Eric Alden.

Eric se negaba a someterse a la puja más elevada. En su lugar, eligió a Holly, una mujer en la que podía confiar, como pareja. La transacción no podía ser más sencilla: ninguno se comprometería a nada. Sin embargo, la atracción entre ambos era demasiado fuerte para ser ignorada... y demasiado explosiva para poder continuar.

### **Paige says**

Holly Prescott knew she was going to have to suffer through 10 dates if her firefighter didn't go over her price limit at a local charity auction. An auction she shouldn't even be bidding on thanks to her unstable final situation she found herself in even since she invested in an old boyfriend who she hasn't seen in over a year and shunned her family's wealthy company. The biggest shock of it all was when her best friend's brother asked her to buy him.

So now, Holly found herself facing 10 dates with Eric Alden. Not only was he against the friend code to like, but he also lived in the world she had given up.

Throughout the dates they gain appreciation for each other and try to deny the feelings building too, but finally they must confront them and learn how to balance what they each offer to the relationship.

---

### **Trudy Miner says**

Holly Prescott has shunned her wealthy background for a simpler life but promised her friends to participate in a Bachelor Auction. There, banker Eric Alden talks her into "buying" him to escape the clutches of the grasping socialites present and to satisfy his mother, even offering to pay for her purchase. The dates would be simple, uncomplicated just like he and Holly wanted. Unfortunately, neither counted on celebrity gossip columnist Octavia Jenkins lurking around every corner, forcing them to take drastic measures to avoid her. The enforced togetherness also had unintended consequences as well. Soon nothing was simple and uncomplicated as passion blossomed between them. A great beach read!
