## Double Plush Velvet Leanore Elliott

“Good girls go to heaven, but bad girls go everywhere...”

Meet Bren Plush, shy, a bit heavy and tired of her dreary life— When an irresistibly hot cowboy starts coming into the diner where she works, her world started to shift. How could she get his attention? Follow Bren through her obstacle-filled journey to win the man of her dreams and jump-start her life.

## From Reader Review Double Plush Velvet for online ebook

### **Beth says**

Such a great read, new to Leanore's writing ... I'm 1st read from Leanore. love that name. Can't wait to see what else this author has to read. Bren is just too much, she is priceless!! Love her style, her attitude. She will make you laugh over and over!! A very fast sexy read. Who doesn't lust over a fine looking hot hard working cowboy ... what a great read, it will pull ya right on in. loved it. must read! ( :

---

### **A.R. Von says**

A short, sweet and different sort of romance by Leanore Elliot that gives off a real feel which many of us woman can relate to from one point or another in our lives. She wrote us a romance with humor, surprises and intense sexual attraction that can be felt through the pages. Hot cowboys, home cooking and a brand new meaning to M & M's are just a few things that you'll gain an appreciation for from reading Double Plush Velvet. I feel many fans of the romance genre and an all around great and touching story will enjoy this read.

Bren is a treasure of a woman. Tough, witty, smart, a touch shy and definitely determined. After months of admiring from a far and serving a hunk of a man that has yet to show interest in her and the need to have some... more in her life. She takes the plunge and goes to apply for a job opening on the farm where he works hoping for nothing but the best outcome. After all, she has nothing to lose but give it a try :)

Our hot cowboy is a man with a huge heart, lots of lickable muscles, and a taste for... sweets. He's very family oriented and works very hard on the farm daily. He's one man that's chock full of glorious surprises for all to witness.

I LOVED all of the characters within. They each had their very own personality and added a perfect touch to it as a whole. Be prepared to be touched and possibly addicted to Bren's story. I know I cannot wait for the next one to be released :)

### **L.M. says**

Omg!! I LOVED this book! A woman looking to obtain confidence, twin cowboys, a momma who's witty, a sister who's fierce, a housekeeper that doesn't know her elbow from her ass and more cowboys on hand! Yum!! I couldn't put this book down! It made me laugh so much I almost peed my pants! A love story that I will read over many more times! I can't wait for the next book in the series to come out? Thank you Leanore for writing such a wonderful story that kept me on my toes!!

---

### **Nessie Smith says**

Can anyone say Stalker? She is a clumsy stalker that isn't even funny in any way. I read the first 10 pages and with a disgusted but inevitable sigh but the book down.

### **Christine says**

Oh golly Miss Molly you have outdone yourself Leanore! A hot, sexy cowboy who likes to eat, a mouthful. Bren is one lucky gal. I love that she cooks and enjoys bubble baths. M&M's anyone?

---

### **Jadzia says**

It was fine, but too rushed. Sometimes it was as though there were some parts missing. It would do this story a lot of good if the events happened during a week or two and not one evening and one day. And a little bit more dialogue maybe?

---

### **? Rhiannon ☆ Mistwalker ? says**

Too folksy for me. A lot of inner monologue that was kinda repetitious and a bit silly for my taste.

---

### **Teresa says**

I enjoyed this book tremendously!! I love when the bigger girl gets her romance and the guy in her dreams! I loved the twist of twins. It was a surprise, but made the rest of the story much better. I felt that it progressed a little too fast. In my opinion, I would have liked it to go a little longer before they fell into bed.... Just to give them more time to get close. Other than that....loved it. Great job.

---

### **M. says**

I thought this short novella was pretty cute and definitely pretty steamy. I enjoyed the twist the author added to the story. All in all, if you're looking for a quick, cute, steamy erotic read, here you go.

---

### **Malinda says**

3.5-4 stars

This was pretty good. I really liked Bren and Trevor and enjoyed their story. This is the first thing I've read by this author and based on this I'd try more of her work.

Bren Plush is a waitress at a diner in a small town Texas. She's full figured and tends to be on the shy side but she's also sweet and quirky as well. She hasn't had much luck with men but has been semi-stalking one of her customers at the diner, trying to pluck up the courage to do something about her infatuation with the tall, handsome cowboy. She knows that they need a cook at the ranch he works at, so she gives herself a pep talk

and goes out to the ranch to apply for the cook job.

Trevor is a cowboy and the son of the owners of the ranch. He likes curvy women but has had relationship problems in the past that's made him skittish. He saw Bren at the diner and has been interested even since but she always seemed so shy that he never made a move. Trevor is a sweet guy and I really liked him.

Bren drives out to the ranch but before she ever get there, trouble starts when her brakes go out on the way there. She manages to stop safely after almost running over a cowboy and his horse...her cowboy as it turns out. She's even more shocked when he flirts with her. There's some misunderstandings and a mistaken identity having to do with twins that makes the start of the relationship between Trevor and Bren rather halting, but it does start. Being along for the ride was a fun way to spend an hour or 2. I liked the ending and Trevor's confession, Bren and Trevor make a cute couple and you get the feeling they'll make it. But since it ends with the relationship so new, maybe it's more of a HFN ending (instead of a HEA?).

This was a very enjoyable read. The author managed to make the story both funny and sweet and with a dash of the unexpected. I loved Bren and Trevor and enjoyed seeing them get together. I'd recommend this story. :D

---

### **Fclit says**

This is basically a long monologue of the heroine's inner thoughts. There is very little dialogue, little plot and no character development really. The 'what my momma would say' sayings coupled with the most tepid solitary sex scene produces a forgettable short story. I really wanted to like this book but it just made me cringe.

---

### **Liz says**

Waitress Bren has the hots for Travis, the hot cowboy who comes into her diner. She hears his ranch needs a cook, so she high tails it outta that job in order to take that job and go after the man she's been lusting over.... only to find out that he's a Twin and now she's not sure who's who.

She figures it out right quick with her keen observation skills but doesn't realize that these two guys are kinda crazy in terms of sibling rivalry.

This is a cliffhanger.

---

### **Rachel says**

When I choose the books I read, sometimes I find myself making a bad investment, so when I went to amazon and saw that I had a new recommendation and didn't recognize the author, I hesitated... but boy am I happy I clicked one-click and took the plunge.

This is a short erotic romp set in a dusty little town of Fontaina, Texas. Most of us have been exactly where

---

the heroine is in the beginning of this book, feeling like life hasn't exactly been a whirlwind of activity, working a thankless job, a car that breaks down more than it runs, and not a romantic prospective in sight, unless you count then man she lusts after daily.

Our hero is a cowboy, he arrives daily at the the diner only to ignite the fires of Bren Plush's desires, she waits on him, he smiles and leaves... and she can't help herself she watches him in silence. She doesn't believe a man of his caliber, would ever deem a "plush" woman like her as attractive.

It's the long given advice her mother has given her over the years that leads Bren to get a job at the ranch that our Cowboy lives at... be through out the line, when he mentioned it. But once she gets to the ranch everything isn't what it seems.

This was a sexy, sweet read and I was sad to see it end, the author was subtle in the beginning that I didn't see the big reveal that was to come.

I'm happy to say this author will be adding to her curvy series, she's got two more in the works. Yeah BBW writers and readers everywhere!

---

### **Viridiana Dimas says**

I really did enjoy this book. Loved the fact that the heroine was curvy and awkward around a certain hot cowboy. She's shy and insecure, and that leads to self-doubt about her job and especially about going after Trevor.

This story begins with Bren stalking and fantasizing about Travis who never even seems to give her a second look when he comes by the diner she works at. Sometimes he'll talk to her but she never seems to have the guts to pull out a conversation. Tired of living in hiding and never going after what she wants, she decides to pursue a job as the cook at the Kincade Ranch. That's where she accidentally meets Trevor.

Trevor has insecurities of his own especially when it comes to his brother Travis. Now that Bren has been hired as the new cook, will Trevor be able to stay cautious or will he give in?

Even when I found the story a bit rushed even for an insta-love story, I still can't wait to see what happens in book two. Both Bren and Trevor have an easygoing chemistry and makes their story easy to follow.

---

### **Future Slayer Girl says**

Oh, you just had to do it to me again--didn't you Leanore??

Cowboys?!

Really?!

I hate cowboys!! I great up in Sunny California where the wanna be cowboys hung out at Montana's in San Dimas and all the 'popular' girls still, and do, hang out there. My loathing began.

OH! And then Leanore had to write an awesomely hot book, with a super hot, sexy, and sweet cowboy--who

also happens to like women with more cushion for the pushin'... Yeeeeahhhhhh, I'm totally sold! Hook, line, and sinker, I'm ready to go on a cowboy erotic romance buying spree!

Although, there is just something about Leanore's men--and women that I really relate to. They are easy to get to know, they bleed off the page their emotions, and I find myself thinking (this chick is totally cool, I want to be her friend) and the men are big alpha lugs on a page. Oh, they are Alpha, don't get me wrong--but they also have a vulnerable edge--a kryptonite if you will--that makes them all the more appealing!

The clever one liners, and internal musings had me laughing out loud with people staring at me in my house! I jumped right into the second book, because of course Leanore had to throw me for a loop and totally leave it to where I screamed like a crazy woman at my Kindle! Well, on to Kande! Oh, and making sure Bren smacks Trevor on the back of his big bullhead!
