These stories spark you imagination and they get you Hot! The stories all center around anal pleasure. The stories include some D/S, three somes, gay and lesbians scenes. Some of the stories include anal toys.

My favorite story was the married couple with the wife learning about anal training.

I wish that I would have read this book earlier in my sex life. Anal sex can be very pleasurable and it doesn't have to be painful. These stories emphasis the pleasures that can be had.

The stories show consensual and responsible sexual play.

Here's my uncensored review of Baby Got Back, anal erotica edited by Rachel Kramer Bussel. It's yet another classy collection of well-written and very sexy short stories in the Cleis Press "Best of" tradition. Cutting to the chase: Let RKB do the heavy lifting and buy this book. She sifted through the bad and mediocre to come up with a bunch of stories that hit the mark. Yes, that mark. (Uncensored? Yeah, you wouldn't believe what Amazon won't allow in a review of a book about anal sex. Laughable.)

Even if anal isn't your thing, or not your main thing, these stories are fun. I'll highlight some that really stood out for me.

Here's the best: Vin Rouge Pour Trois by Erobintica is excruciating (in the best way) in its erotic buildup to three-way sex. The sexual tension leaps off the pages. Great lede, always a good sign: "I dressed for undressing," says the lucky woman as she readies herself for dinner at a nice restaurant with her dates, to be followed by a lot of attention from the two handsome, attentive men. Back at the apartment, prepped for a three-person orgy, her fantasy of being fucked by two men at the same time is fulfilled in exquisite detail. The final line is good, too: "And the night was still young." Hot.

In Lights Out, author Angela R. Sargenti shows us that a power outage isn't a problem, it's an opportunity to explore. Specifically, her boyfriend's anus using a strap-on. Nice touch: She lubricates him with her own juice. More: she uses a glass dildo stored in the freezer, spansks him and sprays his ass with whipped cream, which she licks off. He's totally in her thrall. The power stays off. It's a long night.

In Rectified by Tiffany Reisz a woman who has only experienced pain during vaginal sex is picked up by an experienced man who promises her he can fuck her pain-free. She's frustrated and angry and his approach is so exquisitely timed that she agrees. The story is believable and the sex is really hot. Yeah, a guy like this is probably too good to be true. That's why it's fiction.

Delivery by Emerald: Lovers overlap in Vegas at their respective conferences and only have a few minutes to connect, if you get my drift. The buildup is good for an extremely hot, semi-public backdoor quickie. "I want you to fuck my ass" get the action going.

In A Winter's Tail by Veronica Wilde, an amateur porn shoot on a snowy day gets interesting when the star's secret barista crush shows up for an anal sex scene. Does it go well? Yes, and Vanessa's first

experience with a full penis is preserved on video.

A high-tech butt plug is the focus of *No Rest for the Sick* by Medea Mor. Just over the flu, Becky inserts a toy into her ass to please her dom. Pretending not to be pleased, he punishes her with a spanking to puts her on the edge. He determines she's too weak for sex, but allows her to masturbate for him. Nice guy, for a dom. Hot.

The Support Group by Fiona Curtis illustrates that AA meeting don't have to be boring, at least if you find the right subgroup. Like the one where multiple couples disrobe and fuck their brains out, sans alcohol. I won't spoil the ending. Fun little read.

In *Bar None* by Mina Murray, a waitress is willing seduced by a married Eurotrash couple. Lucky and adventurous Kate gets all her holes filled. Fun group sex

Seat Belts by Kate Dominic may be the most graphic story in the collection, an in-depth (sorry) exploration (sorry) of a married couple's road trip featuring anal dilators, which I keep meaning to Google. They're a loving couple who work hard to prepare her sphincter for the big moment—in Bismarck, North Dakota, of all places.

Better Than a Massage by Annabeth Leong features a lesbian couple and lesson in stress reduction. Okay, no surprise about the main topic, right? The sex is hot, but it gets even better. It's a love story. Nice.

Hard Astern by Thomas S. Roche: great title for a compilation of anal sex stories, right? This one's really fun: fast, furious public sex on a cruise ship by a very compatible MF couple. Hell, they're so compatible they're married. She's dressed like a slut, so access is easy as he introduces her to anal sex while she's pinned against the ship's railing. Good fun.

Asher and Stephanie are the subjects of *Everybody Knows* by Giselle Renarde. They're both transsexuals and I couldn't keep track of their current and former sexes. No matter. It's a million firsts for both of them in this touching love story.

More two guys/one girl group sex in *With Lucy in the Middle* by Kathleen Tudor. Total satisfaction for this sexy woman (wink wink) who gets all her holes filled by her considerate lovers. Very sexy, very convincing, very hot.

More trans fun in *Two Timing* by Laura Antoniou. Our hero used to be a woman (I think) and he's taken on a straight woman lover whose husband spends too much time at work. Snarky, fun writing. The husband gets in on the action, somewhat reluctantly. And that's part of the fun. No one gets hurt.

In *Plugged In*, RKB wraps up the collection with a story about a loving couple and silver vibrating butt plug. It's all about comfort zones and moving out of them. Perfect for this collection. Fun and sexy.

5 stars.

I just completed reading *Baby Got Back-Anal Erotica* edited by Rachel Kramer Bussel. This is an erotic anthology where Rachel has gathered terrific entries from some of the best and hottest writers of today. Stories from Tiffany Reisz, D. L. King, Shoshanna Evers, Laura Antoniou, and Rachel herself contribute some of the finer tales in the book.

Saying that this book is hot and steamy really doesn't do it justice. It goes way beyond that. The book is tale after tale of pure pleasures, both anal and otherwise. These stories aren't just about anal sex but about love and relationships, trust and adventure (in a sexual way).

Tiffany Reisz's Rectified is a perfect example. In a short story, she paints words in vivid colors for two characters who come together and create a perfect chemical reaction between them. The conversation is real and their interaction is like nuclear fission.

Shoshonna Evers 'Body Heat' is more than just heat. It is scintillating. It's about a woman's self love and exploration of a machine designed for self play used in a new manner, the taking of her anal cherry.

D.L. King's delightful sexy tale has a DS twist in a trade of anal training for house cleaning and Laura Antoniou's story adds more than a spicy lesbian DS flavor to a threesome.

Even if anal play isn't your thing, or if you haven't tried it but were a bit curious this book is still wonderful. The stories are stimulating and even if they don't send you down a new pathway, they just might light the roadway for your imagination.

I also have to note the care that Rachel Kramer Bussel takes in her note that these stories are not a training guide or how to for anal sex, they are just fanciful tales of anal loving. For a 'how to' Rachel does make several suggestions in her introduction and those books are worth noting as well.

I received a free copy of this book in exchange for an honest review.

Wow, what a collection! This book certainly covered the entire spectrum of erotica and all of them were worth reading. Whatever your erotic reading desires this one is sure to please. Everything from m/f couples wanting to add some spice to the bedroom to m/m couples looking to change things up, this book has everything in between.

My favorite story was about the woman in the bookstore that was searching for a way to enjoy sex after being diagnosed with endometriosis. HOT! to say the very least.

Every story contained in this anthology is well written and no two are alike. I would recommend this to anyone who enjoys reading erotica.

Backdoor enthusiasts buy this book! Ms. Bussel is always a winner for me. She picks some of the hawttest stories and brings them all together in one book. She's clear on her theme and makes sure every story delivers. What is nice is that the stories are all different. While they focus on anal sex, the characters, plot and sexual combinations are unique. This allows readers to enjoy a good variety and perhaps find new authors to follow.

It is no surprise to those who know me that I love stories with anal play in it. I love pegging stories. I love rough anal ravishing. This anthology will satiate those with an anal fixation. One could say this is just a penthouse letters porn collection. It is not. It is hotter and better written. First of all, each of the stories contain a plot. It may not be elaborate, but it is there. Second, the characters are more than just a stereotypical male finds female and bangs her up the anus. While the character development isn't complex, it is enough to give a different feel for each short story. Third, the sex in here ranges from sensual to burning hot.

For those who enjoy a bit of mental foreplay before getting in on, this book is highly recommended to stimulate the senses. The erotic scenes to the kinky BDSM bondage will cause panty wetting goodness. It is also suggested to have a sex toy handy to relieve the arousal induced from this book. The collection of stories can easily be read in one sitting. It's better to savour a story at a time. Reading it all at one time could cause uncontrollable pouncing on a lover and taking them hard in the ass. This book is definitely going into my spank bank material. Highly recommended to kinky readers who love anything anal.

I was thoroughly impressed with all the stories. This book has definitely inspired me!

For fans of erotica, no one can pull together such a delicious selection of stories like Rachel Kramer Bussel. And ANY book that boasts a selection from Tiffany Riesz - "Rectified" - attests to the highest quality of writing & beautiful storytelling that I know this anthology contains ! Cannot wait to wiggle my behind in a big soft comfy chair & enjoy the adventures !

It would be a really long review if I commented on every story in the Baby Got Back: Anal Erotica anthology. So I'll only touch on my some of my favorites, keeping in mind that I loved them all. Usually I don't write spoilers in my reviews but you'll find in this one that's not the case.

But I'll try not to spoil too much ;)

My husband would probably be pretty appalled to find that my favorite of the entire collection is In Training by D. L. King. Who wouldn't want a submissive house boy to wax and polish?

Rectified by Tiffany Riesz was really well-written and well-plotted for such a short story. I loved the story because I could commiserate with second hand knowledge as a friend of mine has that particular condition. It's nice to see a bookstore as a setting for pick-ups. It has me thinking I should be spending a little more time perusing mine.

Considering that I like my kink comingled with my paranormal and fantasies, I was drawn to Her Kingdom

For Her Ass by Maggie Morton. The anal goddess in me started kicking and screaming about half way through that no way in hell is anyone going near my backdoor when they have no idea what they're doing. But thank god for wizards, right? ;)

I found Body Heat by Shoshanna Evers and A Taste of Jamaica by D. Fostalove to be the most creative and original stories out of the anthology. Although, I'll probably never be able to look at Cricket Dolls quite the same way—then again I always did think she was a little freaky.

And I enjoyed Plugged In by Rachel Kramer Bussel because I found the openness of their reciprocal relationship to be uplifting. Being able to trust in your partner to try new things is paramount to a healthy relationship.

Sara says

A nice collection of stories about, let's face it, taking it up the back door. I did find the stories interesting, ranging from the informative to the kinky. The action was all over the sexual spectrum, m/f, f/f, m/m and I appreciated the variety. I like a collection of stories done this way, I can pick and choose what I want to read and not follow them in a straight line. Hell, a book of this nature shouldn't be read straight anyway.

This is not a read for every one of course but I like to push my boundaries to see what I can read. It wasn't that far considering I read mostly male/male romance but I was interested so I tried it and to quote one of the stories "Plugged In"...

Honey, if you can't even say what it is you like, you're not gonna get very far."

Terri ♥ (aka Mrs. Christian Grey) says

review to come.

Tom Armbruster says

I'm not really the audience for this sort of thing, I don't usually seek out blatantly erotic stuff to read, but even so (If you will pardon the expression), I was willing to step outside my reading comfort zone to see what was out there.

I came away pleasantly surprised. Lots of good stuff here, all very positive experiences, no real rough stuff, as anal sex is usually portrayed. Everyone is acting sanely, safely and consensually, and if every story wasn't exactly my cup of tea (The guy/guy stories didn't work for me), there is plenty here to enjoy.

Top marks to Mina Murray, who's "Bar None" made me put the book down and dwell on that situation for an amount of time I'm not comfortable talking about, and Rachel Kramer Bussel herself, for putting this

collection together and going out on a high note.

books are love says

Holy sweet baby monkeys this was amazing. Each story in this anthology are unique in their own way. Tenille Brown's dealt with a woman who was adamant about this type of play until Lewis came along and changed her mind.

In Rectified by Tiffany reisz we see the confident and sometimes arrogant Brad Wolfe show a woman what pleasure really means. Go Lela enjoy the lovely Wolfe for all he is.

Delivery shows us why the phrase What happens in Vegas stays in Vegas really needs to be Sin City's mantra and what one can do with a short period of time in a Men's room at a restaurant. I do love Wesley though he is very swoony.

A Winter's Tail spins us around and on our knees in a twist of unusual fate. I must say if my barista was like Nate I would be happy to be serviced. Heaven help me Hanna

My turn is sweet how it starts with Steph giving advice to her friend about what to do with James but holy toledo how it ends. go James and the pout that came about was so cute.

Medea Mor gives us a tale of a Sub and her dominant and how they play once she is well. Poor sub she didn't quite get all that she wanted but she did get a smile on her face and her Dom was happy.

But seriously the I need a fan and shower came from Jared, tory and Doug. SWEEEEETT they were so amazing in Vin rouge pour trois.

the support group will give you new meaning to the concept of AA wow! That is one giving sponsor.

Lights out shows us wonderful new ways to fill our time during a blackout. You go Sabrina. Show brian who's boss.

My favourite I have to say is Kavi and Spark. That is so sweet and sexy at the same time. Kavi you devil you topping from below and giving Spark what you feel when you pleasure him. Spark is so cute in his shyness and is apprehension and Kavi with that take charge attitude just made you see how much he loved Spark.

Ms. Bussel's story to end the book I have to say really brought it full circle. That was a cute couple. One afraid of toy stores the other of the intimacy she gives her husband that he wishes to give her. The end though that is one beautiful night of passion and love.

Overall this is a terrific collection of stories. All the stories are unique in their own way and I just highlighted a few of them for there are too many to write about but are all wonderful to read.
