"There's a little string" - he pointed at his chest and then at hers - "from here to here. I don't need to tie you. We're bound to each other, wherever we are, whether we like it or not."

He'd been her one and only love. He'd been her safe haven. He'd freed her from hell and taken her to heaven, and then he'd left her for three years.

Andrew Fairchild fell for Whitney Donahue hard and fast. He knew right away that she is the only woman for him. Their love was strong and he knew he would do anything to protect the fragile woman that he lost his heart to.

But three years ago when a tragedy strikes Andrew was forced to make a difficult decision that took him away from her. But now he's back and all he wants is the woman that is bound to his soul.

Andrew was Whitney's first and only love, and she knows that she will never love any other man the same way. But Andrew broke her heart and her trust when he left her, and she is no longer the broken and fragile girl that she once was. But no matter how much her mind might fight it, her body and heart know that she still belongs to him. She may try to deny it the connection between still exists after these years, but the passion between them never burned out.

When a madman threaten's Whitney's safety, there is only one man that she trusts to keep her safe, and Andrew will stop at nothing to protect the woman he loves.

This novella was packed with action and suspense, and enough steam to set your e-reader on fire. I loved that Andrew didn't hide his feelings or was the typical male slut hero. He loved Whitney with a passion and he wasted no time or words in proving it to her.

The story never felt rushed and it flowed very nicely. I enjoyed the characters and the plot. I am not typically one for serial novellas, but I love that these books are all pretty much stand-alones. You don't have to wait 5 books to get a HEA. It hits the spot for whenever I need a quick and steamy read. I also liked that it had a story line beyond just Andrew and Whitney's relationship. There was the added mystery behind the madman that blackmails Whitney. It was great that it wasn't another one of those fluffy and quick novellas. I'm really looking forward to the next book. If you're looking for a quick, steamy read with a great story, a sexy as hell hero then definitely give this one a try.

A solid 4 stars from me.

I am loving this series, each book seems to get better and better and gets me more and more excited about the books to come. I said before that I wish these books were longer and I do but thats only because they are so good. Red Garnier knows how to not only write but how to write the perfect novella. I don't feel like her books are novellas, I never feel like I was missing important information or a connection to the characters that sometimes happens in short books. I'm always left with a smile on my face and excitement for more Red Garnier.

Whitney and Andrew were in love and planned to be together forever Andrew saved Whitney from an abusive home life and they became each others everything. There was never anyone else for Whitney Andrew was her everything. Then Andrew left for three years, Whitney agreed to wait for him but after two years the letters stopped and Whitney didn't hear from him till he walked back in her life a year later.

Andrew loved Whitney with his whole heart. Once he saw her she was it for him and he happily waited for her till she was old enough. Andrew would do anything to protect her and make her happy, And he did. He would never voluntarily leave her for a day let alone three years. But Whitney has been through enough so Andrew keeps the reason for his absence from Whitney. Now back in Chicago Andrews only thought is getting Whitney back.

Whitney can't deny her feeling for Andrew but her distrust is just as strong, she knows he will have to work at getting her back and gaining her trust. As Whitney and Andrew reconnect Whitney can't deny that she never stopped loving Andrew, and Andrew can't help but see the changes in Whitney and he starts to question his decision to keep the reason for his absence from Whitney. When Whitney gets a letter blackmailing her Andrew and Whitney's life together will be threatened and Andrew will stop at nothing to make sure Whitney is safe.

I can't wait to read the rest of this series and other books from Red Garnier. She is so talented and has a way with words.This series is one that I know I can turn to for a great quick read. Her heroes are the perfect mix of demanding, strong, possessive heroes that I want to take home, and the wide range of heroines is a nice surprise. This book surprised me, it was nothing like I thought it would be. I was so surprised by the story line in this book, and it was executed perfectly it makes me want to find more books just like this because it was just so good.

We've heard the boys mention Andrew Fairchild, but this is the first time we will meet him. Returning after being away for three years for mysterious reasons his first need is to see her. Whitney Donahue. The girl that he would do anything for, to protect, to love her, the one that he would give his own life for.

Whitney's life changed after her parents died and she was sent to live with her Uncle. And this move changes her life. It brings with it a great pain but also brings Andrew into her life. But what happened all those years ago is about to come back to haunt both of them. And Whitney finally knows why Andrew left her three years ago.

"Say it, Whitney. Say that every inch of you burns for me. Screams for me. Say that your body is my home. Welcome me the fuck home."

Although we don't have much back story from Andrew or Whitney from the previous two books, you can't help but cling to these two characters instantly. Their connection pulls you in completely and you realize you didn't need the lead in to this story through the prior stories. After three installments of the "A Billionaire's Club Story" I am hooked. I can't wait to get to Cade & Daniel's stories and hopefully get a glimpse into what has come of Luke and Peyton since the conclusion of book two.

Awesome hero who was crazy devoted to the heroine! She annoyed me so I can't say I loved it and I also skimmed through the sex scenes, maybe I just wasn't in the right mood.

The third book in the Billionaire's Club featuring Andrew and Whitney.

I was intrigued in the first few pages of this story. Andrew has been away from the love of his life Whitney for three years. We learn why and I must admit it's a bit of a far fetched story. I felt the explanation of how they fell in love was a bit rushed and it seemed a bit glossed over. However, I did like the idea of their joint tattoos.

This story is filled with hot steamy sex...and lots of it. Andrew makes up for his time apart from Whitney by making love to her five times in one night. Four of those times are one after another...if only men in real life could manage to do this (!!). Andrew's an alpha male...he is possessive of Whitney and although she has changed and is a stronger person, he definitely doesn't like it when she tries to make him jealous!

Graves and Chloe from book one feature in this book but I was disappointed that Luke and Peyton from book two were not featured and we got no update on them. Daniel and Cade whose stories will be the next books feature. I must admit I'm most looking forward to Cade's story..he's an enigma!

I did enjoy this book but found the whole storyline very far fetched! Due to the storyline it had a more serious tone than the other books which were more lighthearted. I like this authors writing style and she can defiitely write great sex scenes!

3,5 Stars!!

I will never get tired saying how much i love this series..

Great stories mixed with amazing characers.. Always a winner..

Andrew was an incredible hero and Whitney was so cute..

This one has a darker twist than the rest.. It deals with a very disturbing, serious and sensitive theme, but it works out pretty good with both of the main characters.. The back story is heartbreaking but they work it out in such a delicate manner.. Not offensive at all.

He was so possessive of her but in the good way.. Also a bit jealous like all alpha males.. And hot like hell..

We are talking same tattoos and a piercing in a very WOW place..

Seriously now what Andrew did for her was out of this world.. He sacrificed himself for her.. So romantic...

And it was nice seeing some of my favorite characters from the previous books..

THOUGHTS ABOUT THE BOOK

- I missed Luke..

- The sex was hot!!!

- The tattoos!!! Awwwww!

- A bit of suspense towards the end..

Favorite Quote: "Say it, Whitney. Say that every inch of you burns for me. Screams for me. Say that your body is my home. Welcome me the fuck home."

What a fun, cracky, erotic read this novella is. This is the first I've read of this series (all are stand alones) but I'm definitely going to go back and read the first two. My only complaint about this book is that I wish it were longer. I wish we could have spent more time with Andrew and Whitney and their emotional drama.

Years ago, Andrew and Whitney were hot and heavy. But Whitney's parents die and she is forced under the guardianship of her uncle, who abused her. After a freak accident, her uncle is killed and Andrew takes the blame. He doesn't tell Whitney this detail, rather he disappears to the middle east for three years. She thinks he had just up and left her, which devastates her. Instead, he is really serving time in prison, just so she can keep her name clean. Oh the sacrifice Andrew!!

Now he is back and he wants his woman back.

"I've been waiting a thousand days to look in your face, Whitney Donahue. Will you dance with me?"

He may be back, but Whitney is wary about why he was gone for three years and how they can move on from here. She also receives a threatening blackmail note, and wonders if she is strong enough this time to take care of it on her own.

Andrew is a wee bit possessive and alpha. Okay, actually is an EXTREME alpha. I loved it about him. When he comes back to reclaim Whitney, and she thinks he has been gone for three years just getting richer, she doesn't take it too well

"Fuck you, Andrew."

She shoved past him.

"No." He spun her around, then ushered her out the door and toward the elevators, anger roiling off him in waves. "I just bought you, Whitney. I flew across a goddamned ocean to come back to you. I rearranged my entire business to make it happen, To make us happen. If I'm fucking anyone, tonight, it'll be you."

I found the fact that he sacrificed three years of his life so romantic. Such a big gesture. Andrew is full of over the top gestures and sayings in this book.

"When did you get pierced?" she asked, frightened and excited by the novelty. His cock glinted with the gold hoop, thrilling her so powerfully, she quivered to her toes.

"The day I left you, so that every erection reminded me I couldn't have you."

His words both confused and mesmerized her. "What do you mean?"

"When I left, Whitney...I wanted to mark my cock for you, so that every time it hardened I would dream of all the ways I would pleasure you when I returned. I imagined the ecstasy you would feel....how you'd be undone with it. We both would."

How can you resist this guy?

I really, really wish this had been a longer story. There is so much we could have dived into – Andrew and Whitney's past. More about her abuse. A longer reunion. More on the blackmail plot. But for the time I spent reading this, I had a lot of fun.

SERIOUSLY HOT

Third book in this series about a group of friends who are all billionaires. This edition features Andrew Fairchild and Whitney Donahue. Andrew and Whitney had been in love, then three years ago he had disappeared. Devastated Whitney tried to carry on with her life. Now out of the blue Andrew is back and claiming Whitney still belongs to him.

I liked the characters especially Andrew his intensity was really hot. Whitney was angry with Andrew for his disappearing act, but she still found him hard to resist, frankly I didn't blame her.

This has a darker edge to it than the previous two books, but the underlying premise was a bit hard to believe! Even with that in mind I am really enjoying this series from Red Garnier. I'm really looking forward to the other books especially Cade West he's a troubled and damaged man.

Actual Rating: 4.5 Stars

This is definitely my favorite story in the series so far. It was so full of heat and connection and fire and emotion, and I could not get enough of the story. It was a second chance romance, which is my absolute favorite to get. I loved every word of Andrew and Whitney's story, and getting to be with them as they tried to put themselves and their hearts' back together. Just like the other stories in the series, this novella was quick, well written, and definitely made me blush, and it was a great read. I can't wait to get more of the series!

Jamie *Gypsy Smut-a-teer* says

I am in love with these hot possessive billionaires from Chicago.

Andrew had been madly in love with Whitney three years ago, but a situation had him secretly leaving the country for three years without her. She had no idea why he left or where he went, she just knew that when he left he broke her heart and she would never let a man hurt her like that again.

When Andrew shows up out of nowhere they can't deny that they still feel the attraction for each other, but Whitney won't let herself fall for Andrew again so easily.

This was really really good to be just 112 pages. The story moves fast but nothing seems to feel too rushed. This series has been the perfect in between series between longer reads. Great characters, great stories, hot hot hot sex scenes and of course all of the characters from the other stories make appearances, and happily ever afters!! I honestly think I like each story a little bit better than the one before as well.

This book cannot be rated below 5 stars, for real. You can't find a flaw nowhere. It's perfect how it is. In this series, which I have only read the first 3, I can say that this one is my favorite. It didn't make me laugh like the second one with Luke, but this one have something I can't put a finger in it.

It's totally uncommon for me to find a book with this kind of plot. It's not the typical book where they don't know each other and fall in love at the end. In this book, they do know each other and they were in love for quite some time. The problem was a murderer, then the prison and at the end a kidnapping. What a story! In the series, we didn't know Andrew, he was only mentioned and that made it perfect. I missed Luke, Peyton and Cade, though. I love how their friendship is based and no matter what they are there for each other. I love the humor in the books and how everything fits at the end.

I can't express how much I love this books and I know that if you read them, maybe, you will love them too as much as me.

Loved this third installement of this erotically charged series.I esp enjoyed this couple in which the heroine had gone to hell and back due to a past abuse by a family member and the percieved desertion of the hero by the heroine.

This hero was so possessive and in love with his heroine,I just ate it up ! This couple truly deserved their HEA .My only complaint is that these installements are just too darn short! Anxiously awaiting the next in this series.

Eve Recinella (Between The Bookends) says

[So he takes the blame for her self defense (first this dude is a bazillionaire with connections, he couldn't get a decent lawyer??) and ends up having to go to yuppie jail for three years. So no one tells the heroine, cause, well, there really wasn't a good reason not to tell her. She is a frigging adult in a relationship with another adult, but hey we will all lie to her! Great relationship skills there! S
