## From Reader Review Claimed by the Wolf Kings for online ebook

### **Kristy says**

I was gifted a copy from Liv Brywood in exchange for an honest review.

Once I started reading Claimed by the Wolf Kings, I was quickly drawn into the story. This is the first book of the "Sexy BBW Pagan Holidays" series, it is a stand alone, so you can read anywhere in the series... but I'll be getting the rest.

Standing out in a crowd of lithe, petite virgins, offering up their bodies for the ancient ceremony, to ensure the fertility of the land & animals... Kendra stands out to the Wolf Kings once they arrive. There is just something about the buxom witch that draws the kings to her, they'd never seen someone with the body of a goddess before...

Everything in this short story was just as it should be, easy to read, enjoyable, unique & just a twist at the end to bring it all together. I only wish it was longer.

This is the first short sexy story in Liv Brywood new series ( Sexy BBW Pagan Holidays, #1 )

I Have read other books by Liv Brywood and have always loved them so when i got hold of this sexy short story i was excited :)

Kendra, a BBW witch, is for sure she will not get chosen and is stunned when twin wolf kings choose her for an ancient ceremony. She has never imagined that these sexy virile wolves would pick her over the other initiate witches, but the kings are determined not only do they want her but they also want to claim her as their mate.

As the fiery hot night progresses, she descends into a sinfully hot night unlike anything she could have ever imagined. The men intend to not only explore every inch of her sexy willing body, but will this shy untouched virgin be able to satisfy their overwhelming lust?

I was quickly drawn in to this fast paced story i found the concept of the story line unique and easy to follow, the characters are very likeable even though i no this is a short story i definitely think it had the potential to have been a full blown story instead of a short one and then we could have felt the character development a tad more.

never the less still a good sexy read.

I received an ARC of this book in exchange for my honest review

Hot and spicy, this short book is chalk full of excitement and steamy sex that entices you to keep reading until the end. The plot is unique, but not dull by any chance. Even though I would have like to have had more to read, (only because it was so good and I wasn't ready for it to finish), I still give it a 5+ rating. I am looking forward to reading more of this series.

#### **Awesomely hot short story**

I enjoyed this short read. It's only 27 pages, but it's to the point and it's hot. It's a fast paced love story with witches and werewolves. What's not to like?

Sexy BBW Pagan Holiday Series by 8 different authors Book one Claimed by the wolf kings by Liz Brywood

Kendra is a virgin witch who is one of a selection to be chosen by the twin wolf kings to celebrate their most important time of year Beltane or May Day festivities.

Kendra doesn't believe the kings would ever want a curvy May Day Queen and is shock when they stand before her and announce they want her.

Hot and steamy especially with to hot sexy Alfa wolf shifters.

Would have like a bit more emotion between the three when they decide to stay together and a epilogue just to finish it off but otherwise throughly enjoyed.

Claimed by the Wolf Kings -Liv Brywood

Kendra is a witch from the Yellowstone coven and a virgin. She attends the gathering which will ensure the

fertility of the land and animals. One of the twelve virgins who attend will be picked by the twin wolf kings, Kane and Raff. Kendra goes through the ritual with the twins and they form a bond. But will one night be enough for all of them or can rules be changed!

Enjoyable short story. The concept was unusual and interesting and the characters were likable. It would have been a better story if the storyline and characters were more developed. And with the length it felt a rushed in parts. But still not a bad little read!

Claimed By the Wolf Kings  
Liv Brywood

A story with magic, wolf shifters and a ritual that needs to be fulfilled. Can Kendra go through the ritual of Beltane? She thinks she is not of the likening of the wolves from past rituals, because of how she looks. She believes she will be passed over for one of the beautiful witches that are skinnier than her. So what would happen if she is picked by the two Alpha Wolf Kings?

Hot May Pole festivities - Kendra is a witch from the Yellowstone coven and one of 12 virgins there to over themselves in the fertility ritual to the twin alpha wolf kings Kane & Raff.

“You have the hips and body of a Goddess. Women should be round and soft. And you... you’re absolutely what we’re looking for.”

But will one night be enough for all of them or can the rules be changed!

It was a very enjoyable short story, I just wish it could have been longer.

Claimed by the Wolf Kings (Sexy BBW Pagan Holidays, # 1)  
by Liv Brywood

Kendra is a witch. She turned 18 not to long ago and she is a virgin. All the young witch initiate's are virgins. They stay that way until they are picked at one of the ancient ceremony's that are preformed. The ceremony that is happening this night will ensure the fertility of the land and animals. It also involves mating with the Twin Wolf Kings.

Kane and Raff are experienced in doubling the pleasure of women. On this night they get a witch initiate (a virgin). They love women, but this one has a much more intense affect on them.

Normally, witch's and werewolves don't live together. They preform the ceremony's, the witch's carry their young, but they live separate lives. Is this a rule? No, not really. Can it be changed? Should be able to and maybe now is the time to change it.

#### **What an awesome tradition!**

Whoa, this was fast...and got so hot so quick! I love the idea of the fertility tradition, and I motion that we start this thing like right now. There was very little exposition, and the conversations just related to getting busy. It was so refreshing! We knew from the start that somebody was going to get down and dirty, and Lacey Harper got right to the details...you know, the important ones that involve logistics and heavy breathing techniques. She promised a short, hot, erotic story, and she delivered! Buy the book. Pay the lady. Organize to start a fertility ritual in your town! It's on my list of things to do. I read this so fast, I still have time to read the next book in this series! Bonus!
