When Luke Faraday finally gives in to Emma's charms it is a smutty, hot, dirty talking sexy extravaganza! Emma has been hot for her professor for months and he knows it....but things aren't always what they seem! If you like a dirty talking alpha who is ott, then you should read this! It is very reminiscent to an Alexa Riley read, in my opinion
100% safe read!

Very hot and very much filled with dirty talk. Not a whole lot of a story involved. This was a good quickie.

I tagged this under "questionable virgin hero" for a reason. Ok so when I was reading it, we know the heroine is a virgin, and it appears that the hero is very experienced BUT when we get to the end, the math doesn't work out and there is a bit that confused me, so I thought of only one explanation.

It my thinking that the whole story is a sex game between the H & h. I say this because the hero is 25 years old. The epilogue is 5 years later making him 30. It is said in the epilogue that they knew and loved each other for half their life which would mean he was 15 years old when they met.

It is also said they met in High school at a football game, when in this book we are led to believe they just met in a college classroom. Thus my reasoning that their sexual tryst was all a game. I could be wrong, but this is how I interpreted it.

It also seems that this author enjoys surprising the reader with the hero's virginity. Not revealing it until the end. This has happened in the other two books I've read of hers.

So I did not tag this as a virgin hero read because there is no real confirmation, only my deduction.

With that out of the way...I'd like to mention this is more of a hard core read with the epilogue finally giving the reader the missing tenderness and love I personally crave in a "romance."

I would recommend this to other who enjoy authors like Alexa Riley.

Safety- 100% safe.

POST READ

Short and very smutty read.

This is an erotic fantasy novel where the author featured Emma Armstrong, who's unethically and unhealthily obsessing over her college professor, Dr Luke Faraday.

She seduces him with her clothing preferences.

“My blouse stretches across my chest, the hem of my skirt lifting as I stand tall.”

“I’ve been wanting to rip these tight little tit-hugging shirts off of you since the day you slid into that seat and leaned over to get something out of your backpack.

The way they spilled out of your shirt, teasing me, that cleavage just begging to be fucked by my cock.”

She discreetly stalks him too.

What she didn't know was the feeling was mutual hence the title •**Educating Emma**•

Now, the sexy scenes were

But, really, didn't work for me.

The heroine didn't come across as smart.

The hero, well, there were too much dirty talking from him.

And he thinks he's the top predator when I didn't see anything that supported it.

“She belongs to an apex predator who will rip their throats out if they even think about getting close to her.”

Eh. Apex predator my posterior. He's just a horny, very unethical ~~bastard~~ professor that talking dirty and stroking his throbbing dick thinks makes him one.

Naaah, **NOT** for me.

Rating it **1 Very-disappointed Star**

Ben, I hope you think differently on this one. Can't wait to read your review.

[It's a role playing. Emma being a virgin student who wanted her professor, Dr. Luke Faraday. And her professor wanted her too. (hide spoiler)]

Enjoy!xxx

A little too predictable for me but hot none the less.

Tink Magoo is bad at reviews says

This was certainly hot, and without that slight twist at the end and them referring to each other's parts as 'she' and 'he', it would have been a five-star read.

3.5 - "**Romance with a kinky twist...**" Stars!

Kat Austen delivers up another deliciously sweet and smutty, quick read with *Educating Emma*. This one picks up fast and doesn't really slow down until its sweet epilogue.

Professor Luke Faraday has a secret, one that he doesn't think anyone else knows... he has dirty, dirty thoughts about one of his students, Emma. Emma also has a secret, a secret she's fed up of hiding, and has decided to take some action on it. She has a mad crush on her Professor... Luke Faraday.

It's him or no one for me...

This is alpha male, dirty girl smut pure and simple. You know pretty much from the off what you are getting and the author delivered it in one well written compact package.

If a person doesn't obsess and crave and long for the one they want to the point where dying seems better than living if they can't be together, then fuck that. I don't want the mediocre alternative...

I really liked the little twist at the end, and the epilogue was exceptionally sugary sweet. Another great read from this author!

"You are insatiable, Professor Faraday."

Educating Emma by Kat Austen was simply H-O-T. Right from the opening pages, Kat Austen indulges her readers to one hot erotic romance. This is one of those novellas that was so steamy that I had to make sure no one saw what I was reading while on my train ride to work. This is definitely one of those erotic romance that weaves a fantasy into a reality. I honestly don't want to say much since this story is such a quick read but I will say that Ms. Austen has delivered a story that will have readers blushing, squirming in the seats, and of course smiling at the end. So can an erotic novella end with a happily ever after sweet ending? Absolutely and Kat Austen will have you raising your hand as you ask her when is her next book coming out.

4.5* *dirty professor* STARS!!

"Then next time you think about toying with a man, make sure he isn't one like me." I tip my head at her, knowing what she thought she was getting is a complete contrast to who I really am. "More animal than man. Driven by instinct. Taking what he wants, when he wants it, and right now, I want your shirt off."

My first read and I don't know what to say. This book is downward to raunchy sex. My only problem is the pages was too short and the sex only happened that day. Professor Luke Faraday appear to have filthy mind and lusting after his student, Emma. He's also a sex god with filthy mouth and kinky mind.

"The next day when you came in and took the same seat, I can't tell you how difficult it was to make it through the lecture when I knew my cum was surrounding your body. Well, now it's time to fill that body with it too." I palm my crotch, but it only serves to heighten my arousal instead of temporarily sating it. "You're on the pill, so I can pump you as full of it as I want and not worry about getting you pregnant. Yet. But that will come too."

... And you're going to give him whatever he wants. Whenever he wants it. And like the good slut you are, you're going to like every bit of it. You're going to want my cock in your mouth, pussy, or ass all day, every day. My cum dripping up, down, or in you, marking you, making you mine. You're going to crave me like no drug known to man, and I'll be an attentive lover and give you your fix when you need it.

This student x teacher relationship has very nasty and burning tension. Emma determined to have Professor Faraday not only for sex, but for the rest of life. Her pray has been answered by the professor himself that confessed he harbor some secret desire towards her. This is very recommended for you pervert who dream for your dirty professor. Luckily for Emma, this is her happily ever after. I wish the pages is longer and the sex is more... exploring. Teehee...

"My god, you're a cock slut. It's okay, baby. It's okay for you to get off while I fuck your tits." He wipes my fresh cum down his cock. "Makes me about blow my load all over that cock-loving face."
