It only took me a few hours to read this book but I immediately connected with the characters.

(There are some typos throughout the whole book and also when they use Italian expressions.. I noticed them just because I'm Italian, but I think that for American/English readers it's not a big deal! :))

It is a nice quick read! I really enjoyed this short story and I just added the sequel to my "to-read" list! ;)

I won this book in a Goodreads Giveaway which didn't influence my review.

I received a copy of the book in exchange of an honest review.

I've been into short stories recently and I really enjoy this book. The characters are well described and the feelings and emotions are too. There are some spicy bits here and there and they were a nice addiction to the story line. I really recommend this book for those who are looking for a good story that makes you appreciate family, friendship and love. Will there be an happy ending? You will have to read it to find out.
