**Bound Sorcery: A Shadows of Magic Book** Natalie Grey

**I'm being hunted. And I don't remember why.**

700 years ago, a sorceress decided to subjugate the entire human race. You might recall the first step of her plan - they called it the Black Death.

Since then, anyone with magical talent is brought to the Acadamh, an ancient magical university, to be trained ... and people with dangerous magical specialties tend to disappear there. And my specialty? Well, I've never been able to use my magic as far as I can remember, but they tell me that it is rot, and death. So I've been hidden, passed from safe house to safe house.

But the Hunters are on my trail now. Specifically, the very worst one who could have found out about me: Daiman Bradach, legendary druid - ruthless, powerful, and absolutely devoted to the Acadamh.

I'm going to have to get good with my magic. More than good. I'm going to have to become just as much of a legend as he is - fast.

Or I'm as good as dead.

*From the author of RISK BE DAMNED, a new fantasy series full of magic, snarky druids, kickass heroines, punch-in-the-face worthy villains, and just a dash of romance! Perfect for fans of KF Breene and Rachel Carter!*

## From Reader Review Bound Sorcery: A Shadows of Magic Book for online ebook

### Persnickety says

#### Brava!

Kindle Unlimited - Yay!

I discovered Natalie Grey via her Kurtherian Gambit universe series Trials and Tribulations. I really like her work and was happy to find she's doing a totally separate series. Can't come up with anything negative. Pristine copy. Well written characters that you want to follow. And a truly imaginative and interesting storyline that never drags or wanders off into rambling descriptive detail.

Special mention for the poster worthy cover art. Perfect model choice. She actually matches the character description. The rich eye candy colors and background truly suit the storyline.

What if you were to find out that you truly qualify for the title of "world's worst person"? So where do you go from there? Looking forward to seeing where she takes this story.

### Stephene J Heiden-Cilley says

#### A mix of ideas from Harry Potter and Arthurian tales of Merlin and Morgana

This was such an awesome story!!! Its about good magic versus evil magic, and the grey area in between!! It is an original idea that has ideas that are similar to those seen in the Harry Potter series, with touches of Merlin and Morgana Le Fay from Arthurian legends. The story was gripping, and just the right pace to not be boring and to not leave you confused as to what happened!! The characters are all very real feeling, with wonderful growths and inner turmoils!!! I'm afraid to even try to type an actual review of the story for fear of getting too excited and spoiling it! You just need to read it and find out for yourself!!!

There was only a few small hiccups here and there in the authors attempts to describe some of the magic happening, but what the author was trying to convey did get across to the reader, just not as smoothly as it possibly could have..

I am obligated to mention that I received a complimentary copy of this ebook from the author via Voracious Readers Only, but I ended up reading it through Kindle Unlimited.

### Sara Madariaga-Zittel says

The storyline was pretty good and I enjoyed that aspect of it. There were some aspects of the writing that just tainted it for me. It lost some of the magic for me with all the "staring at abs" type lines that felt out of place and much of the cursing did as well. I felt like several of the characters were too similar. There were also just some errors in the writing here and there which negatively impacted the story flow a bit.

### **Rhiannon Kennard says**

I received this as a free copy through Voracious Readers and I'm glad I picked it! I've been into the fantasy genre lately and this really filled that craving!

Bound Sorcery is an interesting take on magic versus mundane. It takes philosophical topics and twists them into the storyline with ease.

It's a story of rediscovery and illustrates that we are in charge of our own destiny. It has a strong female lead who takes us on the journey through spells and druids - kicking ass along the way and standing up for her beliefs.

The only reason I didn't give it five stars is that I found the resolution to the climax came too easily. It felt a little like all the build up ended in half a page. I would have liked there to be more of a challenge or more description; however, I'm very intrigued by the prologue of the next book and can't wait to read it!

---

### **Lee says**

Great story. I love the characters, well written and developed.

Nicky is a strong character with convictions trying to right her past wrongs. Her struggle was well written and realistic and I liked how she kept on track.

Daiman was a great character and he complimented Nicky well.

I'm going to enjoy reading the rest of this series.

---

### **Buttercup77 says**

I thought this novel was absolutely stunning.

It took a little bit of time to get into - Nicky, the main character, has spell-induced amnesia so she isn't able to reveal much of herself. She's thrust into a world she doesn't understand (which means that the reader learns with her), which has its own rules and politics. She must learn who she can trust and decide for herself which path is right for her.

I thought all the characters were well-nuanced and, generally, very human (in spite of the elements of fantasy incorporated). The world itself is extremely vividly rendered.

The writing itself is very evocative - I found myself in literal tears - twice. The wider themes this novel explores are very well handled without being preachy. I can't overstate how much I enjoyed reading this book. I really look forward to reading more from this author.

I received a copy of this book through Voracious Readers Only.

---

## Emma Coombes says

This was a fun, enjoyable story. I enjoyed the magic aspects and the interesting background of the main character (not to give anything away). Personally not into the romance side, but it wasn't too overpowering. I'd certainly look out for the sequel.

I received a copy of this book in return for an honest review.

---

## Chelle says

A well written, and enticing read. I don't usually delve into fantasy series that haven't been recommended by friends, but this one caught my eye and I'm so glad I decided to give it a try.

An likeable protagonist with a secret she doesn't even know she is carrying. A disturbing past. Two factions opposed. A love interest. A choice.

Familiar storylines remixed into a lovely tale that kept me reading well into the early hours of the morning, and has me eager to read the next two installments.

---

## Maureen Ryan says

I received a free copy of this book via Voracious Readers for a review.

I really liked the world that Natalie Grey created. Sorcerers, druids and magic with a history that goes back hundreds of years and kick ass heroines which is what made me choose this book.

I only gave it 3 stars because it felt like parts were missing that would have made the character and story development make more sense. As an example, the development and tension of the romance between the two main characters was missing for me. Also, in my email description of the book, it says that there are kick ass heroines. There were a couple of other women in the book but they were not part of the story for long. You see a hint of it with Nicky at the end, but only at the end. Part of that will surely be because of the lack of memories but I was hoping for more kick assery from her throughout the book because it is part of her nature.

Also, my copy shows in Google Play Books as only 185 pages long while Goodreads and Amazon both list it at 242 pages so not sure why such a discrepancy. It was a quick and enjoyable read in that I wanted to see what would happen next and wanted to be invested in the characters. However, it very much reads as part of as a larger book that was made into two or three smaller books and that filler was added to make it a series of books and not one book. I hope that is not the case in the rest of the series because if it is tightened up a bit, it will be an enjoyable trip.

## **Clare Peacock says**

### **A good solid captivating read**

I've been bored, looking for a new author who is the complete package. Natalie Grey is it. She paints a world that you can see and a fresh look at an old conflict. Good character building, h is strong but not brass. Hopefully a whole series yet to come. Couldn't put it down so I finished it in one day. Looking forward to more.

---

## **Rea Gorman says**

This is a really good book!

I received a complimentary review copy of this book from the author via Voracious Readers only. This book had me hooked from page one. The character development in this book is fantastic and I enjoyed learning more about each of the characters as I read more of the book. The book has a brilliant moral undertone regarding being who you chose to be, not what other people think or want you to be. I think that is very relevant to everyone's life at some point and the way the book explores this is really great. The environments created in the book were wonderful and I enjoyed mentally visiting each place throughout the course of the reading the book. After reading this book, I will definitely be getting the next book in the series and I can't wait to read it.

---

## **Sam Katz says**

A fantastic follow up to Bound Sorcery! Exciting, and full of twists and surprises! Natalie Grey's gift of showing the fight between good and evil is full of gray areas is amazing. The characters motivations are all so deeply layered, and as soon a we learn something about one of them, it's clear that there is so much more to learn. I love the added humor in the dark moments that make them real. As expected, I have no idea where book three will lead us, but I'm hooked and can't wait to find out!

---

## **David says**

### **This was surprisingly good!!!**

It's the first in a series. The dilemmas were well laid out and thought through. The resolutions were equally well done. There's enough of the gooey eyes and throbbing hearts stuff to keep the romantics happy, but the magic was really exceptionally well done... the Druidism and Sorcery subjects are handled with grace and little confusion... it's worth the time spent and I will be looking for more of this series...

---

## **Sandy Chapman says**

### **Unique**

This is my 4th book I've read of Ms Grey's, the previous 3 were from within the Krutherian Gambit Universe and all worth the time. Really enjoyed reading this story. A unique plot unlike anything I'd read before and am already looking forward to reading the next book in the series. Found the characters and their world fascinating and something entirely different from any of the other urban fantasy books I've read. Loved the surprising unexpected end. Highly recommend to anyone who enjoys reading about magic.

### **marion dillon says**

#### **You are BOUND to love this!**

I decided to read this book because you are an author in the KGU, but with this story that's changed, now you are the shadows of magic author who writes in the KG universe. Good job! An intriguing story with an interesting twist, No spoilers, but this is a quick moving story, that leaves you clamoring for more. If you are a KGU reader that sound familiar?
