## **From Reader Review Splash: I Love Being a Raindrop! for online ebook**

### **Lisa Reinicke says**

This book was a gift for my grandson at Christmas. He kept making me read it. What more can you say about a children's book? If they want to read it- it is good.

### **Luisa says**

I won a copy of this book on goodreads in exchange for an honest review. a nice story about the importance of water in our world. personally I found the wording a little awkward but I am not the intended audience for this book. Yes I would recommend this book as it approaches the importance of water in a easy to understand way for children.
