Sidney Poitier

This Life Sidney Poitier

Poitier's biography is one of bitter sweet humor at times and seriously moraled at others. His life story rivals that of his films. His dirt poor upbringing with feelings of embarrassment, pride, and humility, to his success story and subsequent feelings of strength,pride...and yes humility is one that is under-rated and under-appreciated. It just the kind of story that the world needs now. From Amazon.com

Calnan says

Sidney Poitier is not only an American icon, he is first and foremost a Bahamian National Hero. While he is on loan to the rest of the world, we proclaim him proudly as our own and most well known native son. This book on his life was very revealing for me as a young man when I read it many years ago.

Read this ages ago before I saw 'To Sir With Love' and really enjoyed the book. Well written with lots of humour. Recommended reading

Emma says

Disappointing as I love this actor's work. More about his acting experiences and less about his love life would have made it a better read.

Sabena says
