## From Reader Review D.N.Angel, Vol. 2 for online ebook

### Jody Mena says

Much more confusing than the anime, but a lot more interesting too! The relationships are a lot more complex, and especially the relationship between Satoshi and Daisuke seems richer. In a perfect world, Daisuke would ditch Risa and Riku and run away with Satoshi, but I doubt it will happen. Until that happens, lets just enjoy the drama! Great manga!

---

### Celina S. says

This book is about a boy named Daisuke Niwa and his dark side form named Dark. Daisuke is a 14 year old boy that has a dark side form that is about 17 years old. The girl he loves doesn't love his 14 year old self, but his 17 year old form. While dealing with Dark, Daisuke also has a rival named Krad who is a white angel. I would recommend this book to anyone who likes anime.

What

---

### Sabrina Wannet says

Deze anime blijft leuk mijn eerste en enige manga in het nederlands :D

---

### Ashira (Savannah) says

In the Christmas' of 2007 and 2008 were where a good chunk of my manga collection came from, but most of them weren't the copy of the manga I needed. This is one of them.

I'd watched DNAngel for a while and I really liked the anime, so on my wish list was where the manga first appeared for me. My parents got many of the manga I wanted (which I'm quite happy about still ^-^ ) and among them was DNAngel volume 2...I just hadn't ever read volume 1.

It didn't take me long to get into the manga despite my little skip-ahead seeing as the beginning of the anime described what was happening and why. So I already knew who Dark was and such.

For now I've shelved the series to be read another day, once my Loveless series has been read through, but I'll be reading it again all the way through this time once I decide to read it with other anime series' one by one.

---

## Ash says

\*This series is receiving a rating of 4 stars, and for organizational purposes, I'll be placing this review on every volume.\*

D.N. Angel is a 15 volume, 74 chapter (if I'm not mistaken) long series. This series is technically ongoing, as it has not been finished. However, I'm not going to hold my breath that it ever will be finished, as it's on hiatus again. The author has a habit of not finishing series, it seems. I gave this series 4 stars because it's adorable, and generally it's an interesting concept. I also give it 4 stars for nostalgia reasons- this is what got me into anime to begin with and manga, though I'm not really a fan of it anymore- but I can't give it 5 stars because it's not finished.

I remember not liking all of the arcs, and finding some characters annoying- yes, including Risa, even though she does improve later on, I still did not like her- but also enjoying most of the characters. The character development is pretty damn spot on, too. Honestly, there isn't much in the way of plot development, because this is a character driven story. It also unfinished, so there's that too.

I don't know how many times I'm going to say that but: THIS SERIES IS UNFINISHED. IT WILL PROBABLY NEVER BE FINISHED, OR IF IT IS FINISHED, IT WILL NOT BE FINISHED IN THE NEAR FUTURE. Like seriously, there is no ending for this ANYWHERE. It's just not there.

And as a reader, who tends to prefer series be finished before she starts to read them, or at least close to finishing so that when I start it'll be finished by the time I'm on the last book, that's the most frustrating thing. I realize I'm repeating myself but that's because this is a matter of importance. It felt like a waste of time to read this manga in what is its entirety so far because there is nothing happening at the end. It's just chapters. There is no redemption, no final love- this is a love story, I hope y'all know that- or romantic ending, no major plot points getting finalized, no major character development that makes you think that all of the characters are in a happy place.

While I loved how cute this story could be, how interesting it was, I wouldn't recommend it just because of it's near constant hiatus status. If you still want to go for it, be my guest, but I'm not going to reread this if I get nothing out of it but cute feels with no ending.

## ?Lynn? says

What a sex god.

He's definitley my manga crush. Well, besides Inuyasha.

---

## Dani - Perspective of a Writer says

The drawings really get me down. I don't find reading or rather understanding them an easy thing like I do newer manga. I was hoping to see if I could get used to them but am finding it difficult.

I love the story and find myself drawn into Daisuke's circumstances. Of course, its Dark you like! I'm not really into Risa at all despite the cute hike chapter. I really am interested in Satoshi lurking about in the shadows playing games. The bet was a nice touch on Dark's part.

BOTTOM LINE: A decent story...

### Coco says

This series just makes me giggle. So much boy-likes-girl awkward puppy love, and then throw in the part about multiple personality thieves.

---

### Aleina says

Such an interesting book with a very confusing relationship line. XP ^\_^ I like it but the end part....confuses me.... I'm not quite sure why that last part isn't part of the book (or is it? 0.0) but it's good and worth the read!

---

### Natalie says

Daisuke's exploits as the Phantom Thief Dark continue in volume two of *D.N.Angel*, but most of the volume expands the love square: Daisuke's crush Risa wants him to help her meet Dark and Riku wonders if she has feelings for Daisuke, especially after he saves her during their school's mid-winter hike. The downside of focusing on middle school romance is the rather inane nature of it - it's silly. Risa remains shallow and cruel; her character is in need of some serious development because I'm honestly not sure why Daisuke likes her (unless his crush is based purely on physical attraction).

On the positive note, the artwork is gorgeous. Out of everyone, Satoshi is the most interesting and developed - his adopted (?) father puts him under a ton of pressure yet he never cracks from it. I wish this manga focused more on him and his relationship with Dark; the art-stealing is what makes the plot line interesting, but it needs more attention and development to make a truly compelling story.

---

### Briana says

3.5 stars

---

### Sarah Carpenter says

Once again, I felt like this volume was very confusing and poorly written. I had a very difficult time understanding what was going on in certain scenes. I don't think I will be continuing on with the series. Also, this volume also had a large amount of the end of the book devoted to a random short story that has nothing to do with the actual series. I read the first few pages of it before I decided to just give up. The author doesn't seem to be very good at all at introducing characters and situations in a well enough way to make it understandable. I not know if I am just not experienced enough in reading manga, but I feel like the author could have done a MUCH better job at explaining what is going on just by adding a few extra drawings or text bubbles. But anyway, like I said, I won't be continuing With the series unless I get extremely bored and desperate for something quick and mindless and there are no other options.
