Justin Rose says

An enjoyable read, even though it is the first "techno thriller" I've ever read. It only gets three stars because it doesn't leave an impression. That is, when I put the book down, I don't really think about what I've read. It seems almost prophetic, however, that one of the bad spies in The Great Race is a fellow named Snowdon, and the biggest spy in contemporary news is a guy named Snowden.
