## **Bunny and the Bear** Eve Langlais

What's a poor bear to do when all he wants is some sweet, bunny *pie*?

Bears and bunnies aren't supposed to mix, or that's what Chase keeps telling himself when his bouncy new neighbor won't stay out of his business—and his mind. However, the more he gets to know his overly perky neighbor, the more he craves her—naked in his grasp—a desire worse than his addiction to honey and pie.

Miranda's on a mission for the Furry United Coalition, and it involves secretly guarding one grumpy ol' bear. Staying focused on the job isn't easy when all she can think about is turning his frown upside down, a task made harder when she gets a glimpse of his passion. When she hears about his theory on woodland creatures and predators not mixing, she thinks all is lost, but she didn't count on a bear's curious nature—and possessive need.

When an evil force abducts Chase, Miranda unleashes her bunny in order to save him, but the revelation of her shifter side puts her in danger. Is one ornery bear enough to save her from a mad scientist? And if he does, can a bear forget her woodland creature status long enough to love her and make her his mate?

Warning: Pies were harmed in the making of this story and naughty references made about honey that might offend some readers

BotW 3

Chosen by Geri

this was not as bad as I feared...

It was totally **CRAPTASTIC** !

the plot- yes there was one! - was naturally totally predictable. But actually not quite as bad as I thought it would be. I wasn't even expecting one..I mean other than the smut.

And there was plenty of boink and even more talking about it!

The character building? uhm, what character building. If you mean by that, that this would have totally cliché characters with totally corny and cliché lines. Well this was full to the brim with it. On top of that there was a lot of at times quite disturbing dirty talking going on.

Sounds awful? Well it was.BUT I laughed the entire 160pages. Though I had to take a break after every chapter, I totally had my craptastic fix for the next few month!

here are some of the super corny lines, because its monday

*the bunny, whose name he'd never gotten, sprinted off, her silken hair bouncing down her back, drawing attention to the exposed round cheeks of her ass, her slap-me, bite-me, plow-me perfect ass.*

*He clearly recalled her large, plush breasts straining at her snug t-shirt, a hefty hand full made for grabbing and squeezing- and burying his face between to blow raspberries.*

*FUC- Furry United Coalition.*

*Originally, they were called Furry United Coalition and Defense, but apparently, someone thought FUCD was to vulgar.*

*"serve, protect, and keep humans in the dark", that was their motto*

*You couldn't keep up with me. Don't forget, the Energizer was my granddaddy.*

*Chase glared at her. "Stop working so hard. I just gave you raise"*

*Chase almost looked around to see who'd spoken. Surely, he'd not just given the bunny a compliment. Judging by her pleased expression, he had. Shit.*

*"I am a woman. I don't need a reason,"she spat before pivoting and marching back into her place.*

*"Is it because of that", she inhaled. "Bunny?" she finished with distaste. "Don't talk about Miranda in that way", he growled.*

"Fine. Go and cavort with little lettuce eaters. See if I care. ""

She would now take her punishment as she deserved - right between her legs.

"Don't throw my words back at me. I'm a man. It's my prerogative to be ornery""

He dropped his bulk into his chair, which creaked alarmingly. Dammed things kept breaking on him.

"You looking at a FUC agent in the flesh. And I am going to rescue that hot ass of yours.""

She blew him a kiss. "Don't worry I dont miss. Often, that is.""

"You're smarter than I would have given you credit for, long ears." "Her name is Miranda" "Touchy, touchy, big brother. "

I need some popcorn. This sounds like it would make a good movie""

**Basically this is your spaghetti-western come spy flick made into a porn book.**

Will I read the next book in the series? uhm, well. never say never

someone just reminded me of this:

it fits this sooooo well. lol

**Navdha says**

**\*\*\*This review is an early birthday present to a dear friend and contains a lot of dirty language and quotes. I would strongly recommend you not to read this review.\*\*\***

**EDIT: Since I forgot to mention, Geri, my other darling friend, who was the one to recommend we do a buddy read of this book for our friend Alisa's birthday, I hope you enjoy the review. :P**

Once in your lifetime you come across something you never imagined yourself doing. But then you take it all in stride and do it nonetheless, with all the bravery you can muster. This book has been one of those once in a lifetime experience for me and well, it didn't suck as much as I thought it would.

The title and the cover says it all, doesn't it? But if you need the plot of the story, it goes like this. Once upon a time there was an organization called the FUC (Furry United Coalition). \*cue awkward silence\*  
\*clears throat\* FUC was a secret organization in the human world that protected the shape-shifters without their knowledge. Think of them as CIA for the furry shape-shifters. But here's a funny thing, they even had reptile shifters, which is weird since it's called Furry and reptiles don't have fur. Anyway, ignoring the

discriminating factor and getting back to the story, there have been disappearances among the shifters by some unknown villain (whose identity is not even revealed at the end) and this has got the FUC a serious case to crack. Our female protagonist, Miranda, a hybrid, saber-toothed bunny is assigned to protect a grizzly bear called Chase Brownsmith as he's suspected to be the next victim.

I was surprised by the existence of a plot but what makes this story feel like reading a porn movie's script is the conversation, interaction and actions of the bear and the bunny (Even if it is a porn movie with a plot, it's still porn). The first time they meet, the bouncy, bubbly bunny is wearing shorts short enough to let the grouchy, irritable bear know that she shaves, which predictably gives him a hard on so strong that he fears his pants would tear off. Err.. quite the mental image after reading like ten lines, eh?

Anyway, the bunny pretty much stalks the bear while having thoughts of getting pounded by him constantly. Meanwhile, the bear can't stop himself from fantasizing about his so-called delectable honey bun.

The bear tries to behave a lot, by keeping his boner in check.

But the bunny is a naughty little vixen according to the grizzly.

But here's the plot twist: the bear doesn't want to interbreed because he wants to keep his lineage pure. The bunny is hurt, obviously. Bunnies have feelings you stupid hairy bear!

He tries to keep his vow for like 50% of the book. There's only kissing till then. He breaks when he gets kidnapped after someone drugs his morning honey buns (and he's supposed to be a bear with a great nose \*snorts\*) and his neighbor bunny rescues him, showing off her freaky bunny skills.

I swear, by that point I was convinced that all the bunny could do was this:

But actually that bunny turned out to be more of this:

Finally, when the bear has been rescued and has patched up the hurt, burnt and shot bunny, the inevitable happens. They do it. And then there's no stopping them.

They keep on doing it. And doing it. And. Doing. IT.

It wasn't as disgusting as I had braced myself for (view spoiler) but their dirty talking made me go like:

All in all, I finished it without losing a huge chunk of my sanity. In fact, I enjoyed a good laugh here and there because of the ridiculousness of it all. Here are a few lines from the story for you to enjoy:

*“Somehow he didn’t think gagging her with his cock was the way to chastise her”*

*“No, but he knew a sweet pastry he’d like to taste”*

*“And what about her full hips made for bearing cubs?”*

*“Mmm, Chase. What a fabulous name. I bet you get girls asking you all the time to chase them through the woods.”*

After a while, I stopped noticing such things and just went along with the flow you know?

Agreed, my expression was all like this during the smut:

It wasn’t a very terrible or awkward read after all.

2 stars.

---

## Emily says

Bear shifter Chase likes his life the way it is, he eats, sleeps, occasionally has sex with another bear when needed, his life is organized and quiet. That is until he meets new neighbor bunny shifter Miranda, who is bubbly, hotter than heck, and off limits as long as Chase is concerned, he doesn't mix with other breeds. Chase is a rational man, so why is he thinking non stop about his sexy neighbor, stealing a kiss or two, and finding a reason to seek her out?

Miranda likes to think of Chase as her grumpy bear, he is adorable with his sexy set in his ways stance. He also is her next mission to keep him safe from someone who is abducting shifters and Chase is on the list. Miranda works for the Furry United Coalition, but no one would know looking at her curvaceous body and her perky personality that she really is a lethal weapon and every ounce of her being says to protect her bear, even if he tries to deny it.

Loved it, another wonderful treasure. Miranda is a hoot and although Chase is stodgy in the beginning but he quickly falls for Miranda and he explodes as a character, talk about yummy.

## Ezinwanyi says

Maybe I just needed to be in the moods for silliness. Unfortunately I don't have the sense of humor required to appreciate this novel with all kinds of shifters. I just rolled my eyes over and over again!

The narrator Abby Craden added an annoying bimbo-ish high pitch voice to Miranda which really made her sound like someone's sex bunny. The narration was meant to be cheeky (I think) but it was terrible. I almost never like her as a narrator.

Miranda was actually a pretty solid heroine. She's smart resourceful and stronger than people anticipate. She's a shifter who knows what she wants and she wanted that grizzly bear Chase. I am sure you won't be surprised if I added that Chase was ornery. He was a real bear to deal with. If you love puns, cliches and lots of sexual jokes, you will love this one.

---

## Amber says

Very cute. You definitely have to put away any sense of realism, but it's a fun ride.

---

## Zeek says

I picked this one, because A) its a shifter story, and B) so many loved it here at GR. Unfortunately it was too uncomfortably close to Laurenston's *Beast Behaving Badly*- one of my favorite stories. Not in plot- that was a bit too much like Lora Leigh's *Breeds*- (government using baddie's personal motives to kidnap shifters for experimentation so they can build a super army).

No, the heroine's shifting ability was waaay to familiar- I might not have thought much of it except for it's bizarreness. Because it was so unusual, it brings to mind another character that was abnormal as well with similar traits- the *only* other shifter I've read with similar traits- this makes it way to easy to think of it as a copy cat and if there's anything the written world can't stand- it's exact copying. And though I really did like the hero, even he was a copycat! (Bear's with prehensile lips anyone?) And to finish it off for me? There's a side character named Bo, (Hero of *Beast Behaving Badly*.) I get it- homage and all that- but, C'mon, really? You couldnt have done it in passing?? Subtlety thy name is Sir Not-Appearing-In-This-Book.

Listen I get that when a formula works there's a band wagon thing that happens, in fact I'm even ok with it, because lets face it, our favorite authors cant crank 'em out fast enough as far as I'm concerned. But when it makes me think of another story the entire time I'm reading it and I think to myself "well it's obvious who her favorite author is" AND it has little individualizing flair? (Talk about predictable- I knew there was gonna be a traitor and I knew who it was as soon as they came on the scene.) It makes me uncomfortable and slightly disgusted.

So, despite the shifters- which I love- and the attempt at humor- which I love too if the author can make it work (sorry, not this one. the heroine works for FUC "Furry United Coalition" ::eyeroll:-) this paranormal romance is an epic fail.

## Lisa Kay says

★★★☆☆ This is, like, the best three star book I've read in awhile. I'm so tempted to give it more stars, it is that fun. Totally silly, but I'm pretty sure I'll go on with the series. LOL!

## Yvenande says

### *3 Ridiculous Stars*

First of all, this is one of the most ridiculous books I've read in a long time but it did give me the giggles. This review is basically going to be an excuse to post an insane amount of gifs and pics.

My reaction throughout this book:

Well, a book titled "Bunny and the Bear" doesn't sound ridiculous at all.

The book is basically about a bear shape-shifter (duh!) named Chase and his new shape-shifter neighbor Miranda who shifts into, you guessed it, a bunny. Now, I spent most of this book waiting for

a Trix joke that unfortunately never came.

Now for a character breakdown:

Chase:

AKA

He's a very grumpy bear. He loves all things honey, and you better not interrupt his 16 to 18-hour sleep on weekends or he'll get even grumpier. He's a loner and really *really* doesn't like sharing anything.

Favorite Chase moments:

*When I'm ready for cubs, I'll settle down with a nice sow with good genes-and a fat ass for slapping.*

*Friends and lovers expect things of you, like a helping hand, or sharing the blankets when you're in the same bed, or splitting your dessert when there's only one honey cruller left*

*In his world, a bear should work hard, eat a lot, and sleep even more. Friendships took away from those three tasks, and in the case of food, expected sharing.*

Now, we have Miranda:

She's incredibly perky, well...like a bunny. When you think of a her in her bunny shape, you'll think: and you'll think that all she's qualified for is this:

Turns out, there's more to her than meets the eye. Miranda is a FUC (~~ing~~)agent on a mission. Apparently, when you mix this:

with this:

you get something as big as this:

but can do this:

So basically Miranda is:

A Saber-toothed bunny.

Now, Chase doesn't believe in cross-species dating but after he gets a load of Miranda's other side, he gets a change of heart.

As for Miranda, every time Chase is around, she goes like this:

and then like this:

Include some shadowy, most pathetic excuse for a bad guy I've ever read, and that's the basis of our story. This wasn't really good but the absurdity of the story itself was enough to garner three stars because I liked it despite myself.

---

### **Christa says**

Cute, quick PNR between a bunny shifter who is an undercover agent protecting a grizzly bear. It was funny, wish it was longer.

Oh and it's smutty.

Good if you're in the mood for a quick read.

---

### **Karla says**

This is one HOT book, no doubt about that. It had some very amusing moments! I liked the characters well enough, but I couldn't quite grasp the bunny shape shifter concept, especially one that had such aggressive tendencies. Now the bear on the other hand, well I had no problem with that one. So while I had a little bit of

a problem with character images, it wasn't a bad read and the passion was over the top!

---

### ? BookAddict ✍️ La Crimson Femme says

But it's just a little rabbit. *But it has fangs!* "RUN AWAY! RUN AWAY! This is what goes through my mind when I read this book. The Monty Python movie made me giggle so hard. This book did the same. I snickered through this entire book. It was light, funny and with a "fluffy" little bunny and an irritable bear. I have to read another book in this series, if there is a series. I didn't realize this author was quite so funny. I highly recommend this book for those who want to read the ridiculously funny.

---

### ♥ WishfulMiss ♥ says

*4 ~ Silly, Sexy and Sweet ~ Stars!!!*

Finally got around to reading this one and am so glad I did!

This was a fluff paranormal read. I loved it! I loved bouncy flamboyant Miranda and the big gruff and growly Chase. The cover depicted these two perfectly. The mystery/suspense plot was okay but I really was only in it for the yummy bits between these two shifters. And this author totally delivers.

It was short, sweet, sexy and funny. Miranda is definitely not your average innocent bunny, she's a shameless flirt, a woman who knows what she wants. I don't normally like h's who do the chasing but Miranda was all in for the relationship and Chase is a no nonsense straight edge so their reversed roles made sense. They were so different but together they were awesome. I loved that although Chase does a bit of pushing away, it stopped when he realizes that Miranda is his one and only, that nothing matters except keeping her in his arms and making her happy, then there is no hesitation. He finally lets out his possessive, loyal and alpha bear out to claim his fluffy bunny.

If you need some light fun reading, I highly recommend Bunny and the Bear. Sometimes you need an easy fluff read and this one right here will definitely be re-read and staying on my keeper shelf.

#### **Fair Warning**

The cutesy banter is silly at times and down right ridiculous at others so I highly stress the fact that this is an easy fun read. I admit that at times it got a bit OTT with the "honey bear/honey pie" nicknames but it's all in good fun. Try it out with an open mind and enjoy. It's well worth it, IMO.

Safety: Chase is in his early to mid thirties and Miranda is 27. There is slight OW drama, when Chase tries to go on a date with OW, but he can't go through with it and ends up ditching his date. No Cheating and ends with a HFN/HEA (no marriage but acknowledged mates.)

---

### **Erika says**

3.5 stars

A very entertaining read! Just in case the title doesn't make it pretty clear, this book is not to be taken

seriously.

The hero Bear, Chase, and the heroine Bunny, Miranda, were adorable and silly. I enjoyed their interactions. Although this kept my interest, I don't see myself reading another one in the series for awhile. I like some humor in books, but I also like a little more emotional depth than what was in this. I got it on scribd, and for that, it was totally worth it. I like having a book I can easily read a chapter or two and set aside, without feeling addictively pulled to finish it. This was great for that. (Otherwise, I tend to stay up WAY TOO LATE reading!)

---

### **edge of bubble says**

My first DNF of 2017. Dropped it around the 60% mark.

No. Just no!

---
