## Grace Anne Kathi S. Barton

“Christ, love a dub, he was scrumptious!” Grace thought to herself when the model walked in to do the cover of her catalog. But what she didn’t know immediately was that he was the wrong model. Grace is on a time crunch to get her Christmas catalog done on time and has to model her own clothing line. This was completely against what she wanted to do but had no choice.

Michael Cunningham wants the Washington building from G.A. Waite and he is going to get it from him. Him? It wasn’t going to happen since G.A. Waite is actually Grace Anne Waite, a female that has owned the building for a good 10 years now. But being a Waite, good luck in trying.

Grace Anne is a designer and lives in the building. Michael wants more than just the building, he wants Grace as well. When he’s with her and she receives a threatening phone call, he’s going to change things so she is safe. Grace doesn’t want Michael or his son, Trace in danger since the caller has now threatened them as well. They are going to go see Cain and all of Grace’s family and make a plan to save everyone from the evil that has been haunting them for years. Grace doesn’t want anyone hurt because of her so she knows she will have to leave everyone she loves behind.

When Thomas, Michael’s step brother and Guinevere get together, trouble is in the making. How are they going to be stopped this time when they both feel they aren’t getting what is owed to them? Will their evil be discovered before it’s too late?

This is book 6 in the Waite series. We dare you to not fall in love with Trace as quickly as Grace and her family will. Family strength has no end when it comes to protecting the ones you love.

## From Reader Review Grace Anne for online ebook

### Charlene Bauer says

Grace Anne

Grace has been keeping a horrible family secret from everyone, including her family, but when she meets Michael and his son Trace, and they are threatened by the person that wants Grace dead, she knows that it is time to tell all.

As Michael and Grace try to build a relationship, outside forces try to rip them apart.

Come and see what happens when love is in the air, and family secrets are finally revealed.

Kathi has really brought this series home.

Couldn't put it down.

Hope you love it as much as I did

Grace Anne wraps up the Waite family.

Grace Anne and Michael have so much chemistry it burned up the pages. I don't want to spoil anything for any future readers, but the 'villain' in this series is unlike any that I've read from Kathi!

So sad to see another series finished, but can't wait to see if maybe the Waite or Grant family crossover again into another series.

### **Niki Driscoll says**

The mysterious Grace Anne Waite is going to get to tell her tale and I have to tell you that I had a preconceived idea of what she was hiding from her from her family but I was totally wrong. The brief glimpses of Grace did not do her justice and I loved her character now that I got to see the real her. Michael was a good match for this sister and his son Trace was just so cute. I like how Ms. Barton interconnects some of her characters, as in other books they were friends at one point of their lives. She also seems to find a way to give her characters some unbelievable families and not all of them are unbelievable in a good way. The twists are present and keep you on your toes, the connection is finally coming together and the past is coming to the present and not planing to play nice. If you were waiting for this to be an intense read you wont be disappointed and the new characters are a great addition. I always hate when a series comes to an end but I like the Ms. Barton makes sure to give you some information providing some closure for the characters you have come to love. Maybe we will see these characters in another series, nothing is impossible when Ms. Barton starts to create.

I was given an ARC for an honest review

### **Belinda says**

WOW - that is all I need to say. Grace Anne is a clothing designer - Michael wants to buy her building - when they get together sparks fly. Then to top it all off - the person trying to kill the family is after her but Grace Anne knows who it is. This book had me laughing - crying and on the edge of my seat waiting to see what happens next - this is one series of books that you will definitely want to read.

Well, it's over. The saga of the Grant's and the Waite's has come to a close, and everyone has their HEA. This final book brought it all to a close in a tight little nutshell, even throwing a few loops in while at it.

## **Jacque Talento says**

Wow!! That is pretty much all I have to say about Ms. Barton's writing. I was asked to read and review this book by Ms. Barton. I love this series.

This is book 6 in the Waite Family series. Grace is a designer and is working on her cover for her catalog. Her model isn't the real model surprises to both her and Michael. Michael just wants to buy the building from her and he doesn't realize until he meets her that he wants more than just her building. His son, Trace is a sweetheart. His step brother on the other hand is a nightmare in waiting. When he gets together with Grace's mother, all will never be the same. Grace doesn't want a relationship with Michael because she doesn't want him or his son to be in harm's way with the threats she is getting on the phone. But Michael isn't going to let that stop him.

Another great read from Ms. Barton and another great series to follow.

## **Debbie says**

what a great ending to the series!

## **Ginny Rose says**

This is the final installment in the Wait Family Series, it did not disappoint!

Grace Anne, the middle of the Waite clan, and the who moved furthest away was not exempt from threat shadowing the family. Michael, a wealthy business and a single father, falls for Grace's beauty, wit, and charm.

In this book, all the pieces from the previous books come into place. The person/people threatening the family comes to light bringing the entire family together. With all the events taking place, both Grace and Michael have to decide if they can make it through or will Grace's past and present break them apart.

This book can be read as standalone, but you will not fully understand nor appreciate the entire Wait family unless you've read previous books.

## **Patsy Hallam says**

Wow what an ending to the series!!

Grace a New York top designer and a sister within the Waite family may know more than she lets on to her family regarding their mother and the attempts against the families lives.

Michael is a strong stubborn man that wants Grace's building and is willing to do anything to get it but does not expects to fall for the designer in the process.

Within this last story of the Waite series there is adventure, love, honesty and nail biting moments that make

you want to continue reading until the end.

This review is from: Grace Anne (The Waite Family Series) (Kindle Edition)

I did like Grace Anne, but not as much as everyone else in the family. I like Michael and think he could have his own story sometime. I also think that Trace is a show stealer. This little boy is so adorable, I just want to grab him up and love all over him. I did like how Mrs. Barton weaves the story together so that the reader learns more about the mother. I was also happy to see that she brought up the chance of this occurring with other family members. Now for my problem. The Waite family is supposed to be so close, looking out for one another and sticking together. Grace Anne is the key to all the trouble and what does she do - she up and leaves. I had a hard time taking in that fact. Why would you not tell someone? How many people wouldn't have died if she had just opened her mouth? .

Now Quinnie has to be my favorite, Why? Well, read the book.

I was given a copy of this book in exchange for a honest review.
