Dear Turtle Activists, I want to thank each and every one of you for your tireless dedication and love to our cause! I have written this book FOR YOU! I dedicate this book TO YOU! 120 pages of fotos, facts and fun! Stephanie Lisa Tara's Turtle Book has a primary goal: SAVING SEA TURTLES FROM EXTINCTION. A portion of proceeds from this book go to charitable organizations like the Turtle Foundation (www.turtle-foundation.org) of whom my first turtle book, I'LL FOLLOW THE MOON-is a proud sponsor. If you are new to us-please join with us, for together, holding hands, we can effect change. Yes-really! xoxo. SAVE GREEN SEA TURTLES on Facebook (www.facebook.com/.../Save-Green-Sea-T...) is our hugely popular hang-out-tens of thousands of Activists-strong. Please join us! NOW-prepare for something totally new and amazing! Stephanie Lisa Tara's Turtle Book is not your typical scientific turtle book: my special book is all about having FUN! Enjoy the mini FLIP-BOOK in the corners and create a movie of your own! Click the ebook pages-or thumb through manually in the paperback-YOUR CHOICE! I've written these chapters in a fun, chatty voice-you know, the one YOU use when talking up your favorite topics! Don't be surprised if you find yourself giggling as you turn pages! Enjoy breathtaking photography, incredible facts, and way-out wow'ing surprises that these millennium-old creatures have to share. AND: TWO IS BETTER THAN ONE! Yep! Stephanie Lisa Tara's Turtle Book is my second turtle book-it's a perfect TWIN to my first international bestseller, I'LL FOLLOW THE MOON: buy BOTH TOGETHER for your shelf. Two little twins; one a fable, one fotos, facts & fun. So, in closing...please accept this deeply personal gift from me, your faithful sea turtle leader, the turtle-lady, or Stephanie Lisa Turtle - as I was renamed recently by a fan-from my heart to yours. GOD BLESS EVERYONE WHO HAS SUPPORTED THE CAUSE TO SAVE SEA TURTLES FROM EXTINCTION!

From Reader Review Stephanie Lisa Tara's Turtle Book for online ebook

Katrinka says

This book would make a great gift to anyone with an interest in nature and wildlife. I love turtles of all kinds and I found the book fascinating, even though I'm older than dirt and I realize the book was intended for younger readers. I did want to mention that the words "Turtle Book" on the cover appear just a tad fuzzy, and that detracts from the appearance. Otherwise, very well done! Thank you for sending my copy so quickly after my Goodreads First Reads Giveaway win.

Joana Arteaga says

This book is full of information about sea turtles. I thought it was very educational and very simple to understand. I loved the authors writing style because it made it really fun to read. I learned about the eight different types of sea turtles, what they look like, what they eat, and so much more. For example, now I know that sea turtle have no teeth and no ears! I also didn't know that they are cold blooded and can go months without food! I never knew how interesting sea turtle could be. It is really sad to know that things like pollution, oil spills, and hunting are hurting and sea turtles and could make them go extinct. But there are also many ways to help and a lot of them are pretty simple. You can help by talking about sea turtles, recycling, using reusable items, volunteering, and you can even adopt a sea turtle! My 5 year old daughter also loved this book especially all the sea turtle pictures and the flip book. After reading this book my daughter told me "I love sea turtles" and I think I agree.

Angela Lambkin says

WOW! WHAT AN AMAZING ADVENTURE STORY OF SEA TURTLES!

I found this to be a wealth of info on sea turtles than I had ever seen or read about before in my whole life . So, I would like to recommend this for five stars and for kids of any age who are interested or should be more interested in preserving these turtles niw. I received this ebook for free and in return, here is my honest review. Super job Stephanie! By Angela

Carla Peele says

I won this on a goodreads ARC giveaway, and it was so cute, but also very informative with amazing pictures and lots of great information! If you have kids who are inquisitive, or you just want to learn more about the natural world around you, I recommend this book highly.

Georgia Hatheway Beckman says

This book is a MUST have for every home.

Darcee Kraus says

Tara definitely knows how to keep children interested! As well as being extremely informative, the illustrations, fun facts, and awesome story-telling ability all my kids were enthralled with this book.

Bea Charmed says

Review to come during Children's Book Week in May

4/29 - WOOT! I've been reading a PDF but the paperback arrived today; reading will go much more quickly now.

Heidi says

Five stars: A terrific educational read on the sea turtle!

This is an excellent companion book to I'll Follow the Moon. While I'll Follow the Moon is geared for the youngest readers, the sequel is for a bit older reader. Be prepared to be immersed in the turtle world as you learn about the eight different species of turtle, their habits, environment, diet, senses, mating, and all the fun facts and such that will leave you well versed on turtles. I applaud Ms. Tara for taking the time to write both of these books as they not only enlighten us on turtles, but they are geared to help save this endangered species. Toward the end of the book, there are discussions on all of the hazards that each turtle species faces and the details on why they are in danger along with tips on what we can all do to help this fantastic species. I absolutely enjoyed learning all about the sea turtles and I am looking forward to sharing with my two toddlers when they are just a bit older. This book is packed full of bright colorful photos of sea turtles that will be sure to capture the attention of younger readers. Definitely get this book and do something to help save the turtle!

I received a copy of this book from the author in exchange for an honest review. All opinions are my own and I was not compensated for this review.

Sheila Read says

this was a good book for kids that want to know more about turtles. I won this book on goodreads site.

Ellen says

I absolutely loved Stephanie Lisa Tara's book, I'll Follow the Moon, as did my little guys, so needless to say I was thrilled to find that she had written the Turtle Book. The Turtle Book is filled with real life photos, information and facts about sea turtles, and is a virtual little encyclopedia that your young reader can enjoy. The turtle book also has the capacity to grown with your child, featuring wonderful full color images and a fun flip-book for when they are small, then as they grow, parents can focus on the more extensive details, which includes pretty much anything you want to know about sea turtles, including a glossary of terms for the older child. The turtle book is a wonderful addition to your child's library and I would most definitely recommend it.

Amy Fournier says

This book was so fun to read and look through. It has so many amazing facts about all the different sea turtles and wonderful colorful photos. Besides being a very informative book, the way it's written is very fun and the author really makes it easy to understand. Her personality shows through in the writing and instead of feeling like an educational book, it's more like something you would pick up over and over again.

From a child's perspective, this book is also great. It has a cool flip book on the corner of the pages and my daughter was thrilled to just watch the picture move over and over again. She loved all of the pictures in the book and was actually interested in learning about the turtles. She loved looking through the book and asking me questions, and when she's a little older I think she will enjoy reading this herself. This is a fabulous companion to go with I'll Follow the Moon, and both books have become favorites in our home.
